Precalculus is adaptable and designed to fit the needs of a variety of precalculus courses. It is a comprehensive text that covers more ground than a typical one- or two-semester college-level precalculus course. The content is organized by clearly-defined learning objectives, and includes worked examples that demonstrate problem-solving approaches in an accessible way. Coverage and Scope Precalculus contains twelve chapters, roughly divided into three groups. Chapters 1-4 discuss various types of functions, providing a foundation for the remainder of the course. Chapter 1: Functions Chapter 2: Linear Functions Chapter 3: Polynomial and Rational Functions Chapter 4: Exponential and Logarithmic Functions Chapters 5-8 focus on Trigonometry. In Precalculus, we approach trigonometry by first introducing angles and the unit circle, as opposed to the right triangle approach more commonly used in College Algebra and Trigonometry courses. Chapter 5: Trigonometric Functions Chapter 6: Periodic Functions Chapter 7: Trigonometric Identities and Equations Chapter 8: Further Applications of Trigonometry Chapters 9-12 present some advanced Precalculus topics that build on topics introduced in chapters 1-8. Most Precalculus syllabi include some of the topics in these chapters, but few include all. Instructors can select material as needed from this group of chapters, since they are not cumulative. Chapter 9: Systems of Equations and Inequalities Chapter 10: Analytic Geometry Chapter 11: Sequences, Probability and Counting Theory Chapter 12: Introduction to Calculus

In Cultivating Genius, Dr. Gholdy E. Muhammad presents a four-layered equity framework--one that is grounded in history and restores excellence in literacy education. This framework, which she names, Historically Responsive Literacy, was derived from the study of literacy development within 19th-century Black literacy societies. The framework is essential and universal for all

students, especially youth of color, who traditionally have been marginalized in learning standards, school policies, and classroom practices. The equity framework will help educators teach and lead toward the following learning goals or pursuits: Identity Development--Helping youth to make sense of themselves and others Skill Development-- Developing proficiencies across the academic disciplines Intellectual Development--Gaining knowledge and becoming smarter Criticality--Learning and developing the ability to read texts (including print and social contexts) to understand power, equity, and anti-oppression When these four learning pursuits are taught together--through the Historically Responsive Literacy Framework, all students receive profound opportunities for personal, intellectual, and academic success. Muhammad provides probing, self-reflective questions for teachers, leaders, and teacher educators as well as sample culturally and historically responsive sample plans and text sets across grades and content areas. In this book, Muhammad presents practical approaches to cultivate the genius in students and within teachers.

Now available in a deluxe keepsake edition! A Time Best YA Book of All Time (2021) Run away to the Metropolitan Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-

-winning novel *From the Mixed-Up Files of Mrs. Basil E. Frankweiler*. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort-she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun

of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.
