Buddha said, "Your greatest weapon is your enemy's mind." Crucial to victory in any battle is psychological warfare, a technique employed and perfected by history's greatest military thinkers, such as Sun Tzu, Yoritomo, and Musashi of Japan; and several lesser-known but incredibly influential masterminds. Dr. Haha Lung, author of more than a dozen books on martial arts, presents an all-in-one primer to breaching your enemy's mental defenses. Building on the techniques he presented in the classic *Mind Manipulation*, he shows how to use your enemy's fears, insecurities, hopes, and beliefs against him. Some of the most effective mind

control techniques are from forgotten masters of the trade, and are featured here for the very first time. • *Dark Arts: the art of intimidation* • *The Secret of Seven: the Seven Wheels of Power* • *Masters of the East: Including the Craft of the Hircarrah, Vietnamese voodoo* • *Chinese Face: the art of K'ung Ming and Chinese face-reading* • *Samurai Sly: Yoritomo's Art of Influence; the Way of No-Sword; Shadow Warriors*. • *Blood of Abraham: Biblical black science*  
*Ancient And Modern Ninja Techniques* Kensington Publishing Corp.  
Modern methods of mind control—employed in propaganda, indoctrination, even

advertising—can be traced back to Ninja strategies of psychological warfare developed and refined centuries ago in medieval Japan. The Ninja were accomplished in covert operations such as espionage, assassination, and sabotage, and were feared for their ability to break through an adversary's mental defenses to use his fears, insecurities, superstitions, and beliefs against him. Compiled by noted martial artist and scholar Dr. Haha Lung, *MIND MANIPULATION* is a clear, modern-day guide to devastatingly effective Ninja mental techniques, including:

- Revealing of an enemy's deepest secrets
- The art of implanting false memories
- How to detect when someone is lying
- Visualizations to affect physical health

You will also learn defenses against mind-manipulation techniques commonly used in media and politics. Psychological warfare is an unavoidable reality in today's world. The lessons in this book will prepare you to meet any challenge. For academic study only

An "entertaining" look at the psychology and neuroscience behind the act of influencing others (Kirkus Reviews). People try to persuade us every day. From the news to the Internet to coworkers and family, everyone and everything wants to influence our thoughts in some way. And in turn, we hope to persuade others. Understanding the dynamics of persuasion can help us to achieve our own goals—and resist being manipulated by those who don't necessarily have our best

interests at heart. Psychologist Kevin Dutton has identified a powerful strain of immediate, instinctual persuasion, a method of influence that allows people to disarm skepticism, win arguments, and close deals. With a combination of astute methods and in-depth research in the fields of psychology and neuroscience, Dutton's fascinating and provocative book: Introduces the natural super-persuaders in our midst: Buddhist monks, magicians, advertisers, con men, hostage negotiators, and even psychopaths. Reveals which hidden pathways in the brain lead us to believe something even when we know it's not true. Explains how group dynamics can make us more tolerant or deepen our extremism. Illuminates the five elements of SPICE (simplicity, perceived self-interest, incongruity, confidence, and empathy) for instantly effective persuasion. "[Split-Second Persuasion] offers some powerful insights into the art and science of getting people to do what you want." —New Scientist

This book is a detailed depiction of the "cuts" that people incur or will incur over the course of their lives, and how those "cuts" subsequently shape their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred).

Unfortunately, people will inevitably incur hurts and pains in life, which most

are beyond their own control. One simply cannot control what happens to them at the hands of another. People hurt other people. It's not so much the hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the art of disguising the pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in need of healing. The purpose of this book is to aid in

identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard. Oftentimes, people need healing to recover from some trauma or tragedy that they've endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately forsaking the need and opportunity to heal. It's the lack of healing that causes people to hurt others or live unhappy lives. This book was written to aid people with identifying their hurt, their need for healing, and ultimately helping them to heal and subsequently live their best lives.
