NATHAN TIANA

Mobile People, Mobile Law ASCD

Demonstrating how users of law, who often operate in multi-sited situations, are forced to deal with increasingly complex legal circumstances, this volume focuses on political and social processes through which people appropriate, use and create legal forms in multiple legal settings. It provides new insights into social and political processes through which transnational law is locally appropriated by different actors and presents empirical studies of confrontation, adaptation, vernacularization and hybridization of law due to its transplantation across the borders of national states. The contributors offer insights into modern dynamics of legal change, challenging assumptions about increasing homogeneity in law, with a keen eye for the historical situations in which current legal changes stand.

From the Stone Age to Christianity Heinemann

"The World Atlas of Language Structures (WALS) provides ... 142 maps showing the geographic distribution of structural linguistic features"--Intro.

Job Basic Books

A monumental work of theological-historical synthesis, *From the Stone Age to Christianity* sets forth Albright's view of the light thrown by archaeology on the Bible as well as his basic philosophy of interpretation of the Bible and religion. Here he traces the development of humankind's idea of god from prehistoric times to the time of Christ.

Translating for Children Wipf and Stock Publishers

Annotation This groundbreaking collection re-orders the elitist and colonial elements of language studies by drawing together the multiple perspectives of Black language researchers.

Southern African Linguistics and Applied Language Studies Routledge

An updated edition of the classic history of schizophrenia in America, which gives voice to generations of patients who suffered through "cures" that only deepened their suffering and impaired their hope of recovery. Schizophrenics in the United States currently fare worse than patients in the world's poorest countries. In *Mad in America*, medical journalist Robert Whitaker argues that modern treatments for the severely mentally ill are just old medicine in new bottles, and that we as a society are deeply deluded about their efficacy. The widespread use of lobotomies in the 1920s and 1930s gave way in the 1950s to electroshock and a wave of new drugs. In what is perhaps Whitaker's most damning revelation, *Mad in America* examines how drug companies in the 1980s and 1990s skewed their studies to prove that new antipsychotic drugs were more effective than the old, while keeping patients in the dark about dangerous side effects. A haunting, deeply compassionate book -- updated with a new introduction and prologue bringing in the latest medical treatments and trends -- *Mad in America* raises important questions about our obligations to the mad, the meaning of "insanity," and what we value most about the human mind.

The Fourth Industrial Revolution HDRC

This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

African Books in Print ISTE (Interntl Soc Tech Educ

This booklet includes the full text of the ISTE Standards for Students, along with the Essential Conditions, profiles and scenarios.

University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles Routledge

One in a series of twenty Old Testament verse-by-verse commentary books edited by Max Anders. Includes discussion starters, teaching plan, and more. Great for lay teachers and pastors alike.

Chaka AFRICAN SUN MEDIA

Principles and Practice of South African Lexicography is directed at experts in the field of practical and theoretical lexicography in South Africa, applying the general theory of lexicography to the South African lexicographic environment. The authors of this book are leaders in the field of South African lexicography and active participants in the international lexicographic arena, publishing regularly in national and international journals and giving papers at international conferences and workshops.

2017 Field Operations Guide ICS 420-1 Oxford University Press

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Translation Studies Abstracts Routledge

Providing crucial information to first responders since 1983, *Firescope* is proud to present the interactive 2017 Field Operations Guide ICS 420-1. All the information from the 2017 FOG ICS 420-1 is included in this eBook. Now you can easily find critical information on Resource Typing, Position Checklists, Organization Charts and examples of how to organize using the Incident Command System (ICS) when facing All-Hazard Incidents. New to this version of the 2017 FIRESCOPE Field Operations Guide is a section on Fire in the Wildland Urban Interface (WUI) with information on Structure Triage, Structure Protection Guidelines, Actions and Tactics. Easily access other valuable information such as Wildland Fire Management Guiding Principles, Tactical Engagement, Levels of Engagement, Powerline Safety and a Structure Assessment Checklist. Also included is valuable information on these ICS topics: Common Responsibilities, Multi-Agency Coordination System (MACS), Area Command, Complex, Command, Unified Command, Planning Process, Operations, Planning, Logistics, Finance/Administration, Organizational Guides, Resource Types and Minimum Standards, Hazardous Materials, Multi-Casualty, Urban Search and Rescue, Terrorism/Weapons of Mass Destruction, Swiftwater/Flood Search and Rescue, High Rise Structure Fire Incident, Protective Action Guidelines, Firefighter Incident Safety and Accountability Guidelines, Glossary of Terms, Communications, California Agency Designators, and Operational Area Identifiers.

Report of the Annual Meeting of the South African Association for the Advancement of Science B&H Publishing Group

Micrographic reproduction of the 13 volume Oxford English dictionary published in 1933.

Drum LIT Verlag Münster

Originally published in 1991. The transplantation of thousands of Indian workers to South Africa under indenture between 1860 and 1911 was a political act with far-reaching consequences for their linguistic traditions. In this book, the history of one of these Indic languages, Bhojpuri, and its adaptations to its new context are traced to the point where a distinct South African Bhojpuri koine (generally known as Hindi) came into being. The roots and subsequent evolution of this language variety, as well as the events contributing to its demise, form the basis of this study. Current patterns of usage by different generations are documented in the form of traditional folk tales, proverbs, riddles and songs, alongside personal interviews. This study offers a partial history of Bhojpuri speakers, who have been otherwise largely silent in the history of colonial Natal.

Handbook of African Educational Theories and Practices How2Become Ltd

What are the uses of musical exoticism? In *Wild Music*, Maria Sonevtsky tracks vernacular Ukrainian discourses of "wildness" as they manifested in popular music during a volatile decade of Ukrainian political history bracketed by two revolutions. From the Eurovision Song Contest to reality TV, from Indigenous radio to the revolution stage, Sonevtsky assesses how these practices exhibit and re-imagine Ukrainian tradition and culture. As the rise of global populism forces us to confront the category of state sovereignty anew, Sonevtsky proposes innovative paradigms for thinking through the creative practices that constitute sovereignty, citizenship, and nationalism.

Global Responsibility - Local Agenda Currency

In various African countries, governments are forced to accept and/or establish decentral structures in order to facilitate ways in which the poor sections of their population might gain influence on and access to development resources. Yet, there is confusion about the role and functioning of such decentral structures as well as about sustainable political approaches to the top down transfer of government power in the context of local agendas. The book highlights major aspects of the legitimacy of local power as presented by modern self-government structures as well as traditional communal authorities. Although the main focus is placed on Southern Africa (Namibia, South Africa, Botswana), examples from other regions (Ghana, Democratic Republic of the Congo) are also put into perspective. Contributors: B. Benzing, Th. Gatter, G. Hilliges, M. O. Hinz, H. Kammerer-Grothaus, B. Katjaerua, E. Okupa, N. Olivier, B. Oomen, H. Patemann, D. Quintern, D. Schefold, G. Stuby, G. Töttemeyer, Ö. Ülgen, M. Wulfmeyer.

Language in Indenture Studio Tiga

Content-hosting websites, videoconferencing apps, grade- or subject-focused social media accounts: with such a dizzying array of mechanical and virtual help at our disposal, it can be a challenge for educators to know where to even start. Educator and technology consultant Monica Burns can relate, which is why she wrote this book: to share strategies, tools, and insights that teachers can use, regardless of subject or grade level, to effectively incorporate technology in the classroom. Focusing on the "three Cs" of technology implementation—creation, curiosity, and collaboration—*Tasks Before Apps* offers K-12 teachers Detailed advice for (and copious examples of) tech-infused lessons that help students meet learning goals while also developing vital digital citizenship skills. Customizable checklists and graphic organizers for planning tech-enabled activities; choosing appropriate programs, devices, and platforms; and setting unit and lesson goals. Recommendations for and links to apps and online resources that can facilitate and energize learning. Reflection and brainstorming questions for use in book clubs and PLC discussions. Knowing how to navigate technology wisely—how to communicate effectively on posts and message boards, locate credible information on search engines, and select efficient, cost-effective equipment—is essential for both teachers and students. Whether you are a novice or a veteran, teach kindergarten students or high school seniors, this book is an indispensable guide to furthering academic skills, social development, and digital aptitude in the classroom.

The Power of Performance Enduring Word Media
