From that long investigation of mine the conclusions that I summarize and explain in this book arose and which, I will say immediately, are the following: It is true that the poetry of the "Fedeli d'Amore", especially that of Dante and his most immediate predecessors, of the his contemporaries and his successors, is

written in a secret jargon for which at least thirty words (Rossetti had already pointed out some, deceiving himself about others) constantly have, in addition to the apparent meaning concerning love matter, a second and sometimes also a third conventional meaning, concerning the ideas of an initiatory doctrine and the life of a group of initiates. These words are precisely those that with exasperating monotony fill the lines of these "Faithful", very often presenting nonsense in the literal plane, namely: love, madonna, death, life, women, madness and madness, cold, gaiety, gravity, boredom, nature, weep, stone, rose, flower, source, greeting, wild, shame and others of less frequent use. It is true that all the women of the dolce stil novo are in reality one woman and that is the holy Wisdom, which in the special use of the dolce stil novo conventionally takes a different name for each different lover and is called Beatrice for Dante, Giovanna for Guido Cavalcanti, Lagia for Lapo Gianni, Selvaggia for Cino and so on. And since, as I said above, the doctrine cultivated by a sect and

the sect itself are confused under the same designation, these women also serve to designate the sect of the "Fedeli d'Amore". Dante's Vita Nuova is all written in this jargon: it is all symbolic from the first to the last word and concerns the initiatory life of Dante and his relations not with the wife of Simone de 'Bardi, but with the Holy Wisdom and with the group that cultivated it. Therefore the Beatrice of the New Life does not differ substantially from the one who appears triumphant on the chariot of the Church in the apocalyptic vision of the Divine Comedy. The darkest poems of the "Fedeli d'Amore" and especially Dante's obscure songs, over which those who were ignorant of the jargon have struggled in vain, read according to the jargon, melt their clarity, coherence, unsuspected depth. Not only that, but with the knowledge of the secret meaning of these few words of jargon, they clear up in our eyes and completely transform into their spirit, other very obscure works by Dante's contemporaries, such as the Documents of love by Francesco da Barberino, the Intelligence by Dino

Compagni, the Acerba by Cecco d'Ascoli, works which, while differing outwardly from the love poetry of the sweet styl novo are informed by the same profound mystical spirit, by the same secret doctrine, they come out, in other words, from the bosom of the same sect. These poems, once translated into their real meaning with the key of jargon, in place of that vague, stylized, monotonous, cold, artificial love, which they almost always show according to the letter, reveal to us an intense and deep life of love. for a mystical idea, considered the true essence of Catholic revelation, of a struggle for it, against the carnal and corrupt Church, conventionally called "Death" or "the Stone" and which is depicted as an opponent of the sect of the "Fedeli d'Amore" and as a concealer of that holy Wisdom that the "Fedeli d'Amore" pursue under the figure of the woman; they reveal to us a series of mystical kidnappings, of cries invoking help against the persecutions and threats of adversaries, of excitements with which the followers comfort each other to remain

faithful to the holy idea, and other very high and very deep things, before which the fictitious love poem, which is on the surface, falls, and almost always without our regret, like a very insignificant rind, leaving us astonished that we could have believed that all this was really love poetry. UFO la verità negata Princeton University Press Sheds new light on the long history of self-portraiture with fresh interpretations of famous examples and new works, ideas, and anecdotes This broad cultural history of self-portraiture brilliantly maps the history of the genre, from the earliest myths of Narcissus and the Christian tradition of "bearing witness" to the prolific self-image-making of today's contemporary artists. Focusing on a perennially popular subject, the book tells the vivid history of works that offer insights into artists' personal, psychological, and creative worlds. Topics include the importance of the medieval mirror craze in early self-portraiture; the confessional self-portraits of Titian and Michelangelo; the mystique of the artist's studio, from Vermeer to Velázquez; the role of biography and geography for serial self-portraitists such as Courbet and Van Gogh; the multiple selves of modern and

contemporary artists such as Cahun and Sherman; and recent developments in the era of globalization. Comprehensive and beautifully illustrated, the book features the work of a wide range of artists including Beckmann, Caravaggio, Dürer, Gentileschi, Ghiberti, Giotto, Goya, Kahlo, Kauffman, Magritte, Mantegna, Picasso, Poussin, Raphael, Rembrandt and Van Eyck. The full range of the subject is explored, including comic and caricature self-portraits, "invented" or imaginary self-portraits, and important collections of self-portraiture such as that of the Medici. Born Liquid is the last work by the great sociologist and social

theorist Zygmunt Bauman, whose brilliant analyses of liquid modernity changed the way we think about our world today. At the time of his death, Bauman was working on this short book, a conversation with the Italian journalist Thomas Leoncini, exactly sixty years his junior. In these exchanges with Leoncini, Bauman considers, for the first time, the world of those born after the early 1980s, the individuals who were 'born liquid' and feel at home in a society of constant flux. As always, taking his cue from contemporary issues and debates, Bauman examines this world by discussing what are often regarded as its most ephemeral features. The transformation of the body - tattoos, cosmetic surgery, hipsters - aggression, bullying, the Internet, online dating, gender transitions and changing sexual preferences are all analysed with characteristic brilliance in this concise and topical book, which will be of particular interest to young people, natives of the liquid modern world, as well as to Bauman's many readers of all generations.

The vast majority of us unknowingly suffer from a slave mentality. We constantly experience the psychological phenomena of cognitive dissonance, where our beliefs and behaviour are in conflict, and Stockholm syndrome - the traumatic bonding with a captor. Our ability to decode reality is linked to what we are able to perceive. Icke believes our reality has been hijacked by an invisible force the Gnostics used to call Archons. He maintains that we are headed towards a cashless world and human settlements which are projected as local community initiatives but are actually centralized systems of control. Our health is being systematically weakened: if you are sick, you are easier to control. Icke's dystopian view of the future assumes that the masses will stay glued to their TVs, locked forever into the hive mind of the Matrix, which says "I have no power". Can humanity break free? Through truth and love we can become who and what we really are.

But intruders have entered Dr. Lecter's world, piercing his new identity, sensing the evil that surrounds him. Monteverdi's Unruly

Women University of Toronto Press
In this fascinating collection of essays, an international group of scholars explores the sonic consequences of transcultural contact in the early modern period. They examine how cultural configurations of sound impacted communication, comprehension, and the categorisation of people. Addressing questions of identity, difference, sound, and subjectivity in global early modernity,

these authors share the conviction that the body itself is the most intimate of contact zones, and that the culturally contingent systems by which sounds made sense could be foreign to early modern listeners and to present day scholars. Drawing on a global range of archival evidence—from New France and New Spain, to the slave ships of the Middle Passage, to China, Europe, and the Mediterranean court environment—this collection challenges the privileged position of European acoustical practices within the discipline of global-historical musicology. The discussion of Black and non-European experiences demonstrates how the production of 'the canon' in the cosmopolitan centres of colonial empires was underpinned by processes of human exploitation and extraction of resources. As such, this text is a timely response to calls within the discipline to decolonise music history and to contextualise the canonical works of the European past. This volume is accessible to a wide and interdisciplinary audience, not only within musicology, but also to those interested in early

modern global history, sound studies, race, and slavery.

Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his

perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. *History of the Italian Agricultural Landscape* first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The

A Scientific Inquiry La Toscana fra occulto, insolito e paranormale UFO la verità

negata Intelligence mondiale e presenza aliena

Dal 1947 si parla di UFO, anche se il fenomeno si era manifestato già in passato. Fin dall'inizio se ne era compresa la natura oggettiva, tecnologica, intelligente ed estranea. Ma la inquietante prospettiva di una sua natura extraterrestre, vista come profondamente destabilizzante per l'opinione pubblica, ha fatto sì che a dispetto di evidenze palesi il fenomeno venisse mini-

mizzato, deriso e contestato dalle Autorità. Gestendolo nella logica propria dei Servizi di intelligence, nella migliore delle ipotesi si è cercato di attribuirlo a sperimentazioni militari segrete e si è sistematicamente provveduto a secretarlo e insabbiarlo, anche mediante orchestrate campagne di disinformazione. Ciò non ha impedito che i fatti emergessero comunque, e che in tutto il mondo enti privati di ricerca svolgessero in collegamento fra loro una capillare attività per chiarire la questione a dispetto del silenzio ufficiale. Ma oggi lo scenario è mutato. Sono ormai emersi a livello internazionale dati, documenti e conferme schiacciati che non è più

possibile continuare a ignorare in nome dell'ordine pubblico e del timore di non saper gestire la conferma che siamo visitati da esseri extraterrestri a noi superiori. L'Autore di questo libro, che segue il problema da protagonista a livello mondiale e nelle sedi più idonee, ha spietatamente riunito in un unico, ponderoso rapporto le prove documentarie ufficiali e ufficiose delle presenze aliene che si manifestano periodicamente sul nostro pianeta. Un bel mattino passeggiavo con mio padre, secondo il nostro costume; eravamo

inseparabili; s'egli andava in un luogo senza di me, di lì a un poco mi vedeano spuntare; pareva che sapessi di doverlo perdere così presto. Ero in su que' bei diciott'anni, e su que' bei colli veronesi. La strada che talora serviva di letto al torrente, serpeggiava profonda, sassosa, sdrucchiola, tutta segnata sulla creta, dalle unghie fesse delle pecore, e dalle scarpe ferrate dei montanari. Due file di càrpini e di querce scapitozzate con macchie di rovi legate insieme da volubili madriselve sorgevano ombrose sull'alto delle due ripe, più a guisa di parete che di siepe, lasciando cadere dai cigli corrosi le pendole barbe delle radici nude.
