SHELDON DEANDRE

Krishna's Professional
Communication S. Chand
Publishing

This book is an attempt to

look at the ordinary
IITians, the dreams they
had, the hardships and
challenges they faced,
and the difference they
made, as told by the

IITians themselves. The book does not seek to glorify any particular IITian or focus on individual accomplishments. Instead, it looks at the stories of IITians from the first graduating class of 1955 till today . The book is a chronicle of the history of IITs in a uniquely personal way and their contributions to India and, in fact, the whole world. It looks at the making of the 'IIT' brand. Through the stories of IIT alumni, readers may find answers to the

question of what attracts global multinationals to IIT campuses to recruit at salaries similar to those of MIT and Harvard graduates. The book is intended to be a light and interesting read. Having said this, it may be of particular interest to: • youngsters across the world, who are interested in knowing about the struggles and success stories of IIT alumni • students aspiring to enter IIT • current students and faculty of new IITs, who want to understand the culture and life of alumni

in the older IITs • people abroad who have heard the name of IIT and the accomplishments of its alumni • people who want to know how the IIT brand came into existence and whose entrance exam is the most competitive exam in the world • the loved ones of numerous alumni who have narrated their stories in this book This book is meant to be cherished by IIT alumni, current IITians, and the future generation of IITians.

 For the Students of B.E. /
 B.Tech., M.E. / M.Tech. &
 BCA / MCA It is indeed a
 matter of great
 encouragement to write
 the Third Edition of this
 book on 'Operating
 Systems - A Practical
 Approach' which covers
 the syllabi of B.Tech./B.E.
 (CSE/IT), M.Tech./M.E.
 (CSE/IT), BCA/MCA of
 many universities of India
 like Delhi University,
 GGSIPU Delhi, UPTU

Lucknow, WBUT, RGPV, MDU, etc.

Electrical Machines and Control (For UPTU, Lucknow) New Age International

This well-written textbook discusses the concepts, principles and applications of Computer Graphics in a simple, precise and systematic manner. It explains how to manipulate visual and geometric information by using the computational techniques. It also incorporates several experiments to be performed in computer

graphics and multimedia labs.

Making of the IIT Brand
Disha Publications

This book entitled " Non Conventional Energy Resources " has been written for B.E /B.Tech final year students of UPTU(Kucknow), MTU, GBTU and UTU(Dehradun). The book uses simple and lucid language to explain fundamentals of this subject.

Theory of Automata & Formal Languages S.

Chand Publishing
Basic Of Concepts • D.C.

Circuit Analysis •

Electrical Engineering (For 1st Year of UPTU & UTU)

Notion Press

This Book Is Designed To Meet The Syllabus Of U.P. Technical University. This

Book Also Meets The Requirements Of Students Preparing For Various Competitive Examinations. Professionals And Research Workers Can Also Use This Book As A Ready Reference. It Covers The Topics Like Finite State Automata, Pushdown Automata, Turing Machines, Undecidability And Chomsky Hierarchy. Salient Features# Simple And Clear Presentation# Includes More Than 300 Solved Problems#

Comprehensive Introduction To Each Topic# Well Explained Theory With Constructive Examples
Software Project Management S. Chand Publishing
For the students of B.E./B.Tech Computer Science Engineering and Information Technology (CSE/IT)
Indian and Global Environment for MAT and other MBA entrance exams
Firewall Media
This book is meant for B.Tech 7th semester course of all branches of

Engineering of the Uttar Pradesh Technical University (UPTU). The book is of immense value for budding engineers to make them better managers and successful entrepreneurs. The book has been specifically written for those students who need a broad introduction to the whole field of enterprise, such as those who have chosen entrepreneurship as an elective paper for a Bachelor's or a Master's degree. KEY FEATURES • Questions and Examples: Wherever pertinent,

chapters have Questions, Numerical Problems and Business Examples • Additional Illustrative Material: Relevant illustrations have been used as accompaniment to the text • Real-life Examples: These have been used in boxes to explain concepts further

Spherical Astronomy and Space Dynamics S. Chand Publishing

Manufacturing Processes is meant for the students of B.Tech. in all branches of engineering, namely, Mechanical, Electronics, Computer, Information

Technology, Electrical and Civil. This book aims to fulfill specific need. Effective from 2008-09 sessions

Computer Based Numerical and Statistical Techniques Firewall Media

Boolean Algebra And Basic Building Blocks 2. Computer Organisation(Co) Versus Computer Architecture (Ca) 3. Register Transfer Language (Rtl) 4. Bus And Memory 5. Instruction Set Architecture (Isa), Cpu Architecture And Control Design 6. Memory, Its Hierarchy And Its Types 7.

Input And Output Processing (Iop) 8. Parallel Processing 9. Computer Arithmetic Appendix A-E Appendix- A-Syllabus And Lecture Plans Appendix-B- Experiments In Csa Lab Appendix-C-Glossary Appendix-D-End Term University Question Papers Appendix-E- Bibliography

Fundamentals of Electronic Devices New Age International

More individuals than ever are utilizing internet technologies to work from home, teach and learn, shop, interact with peers,

review medical records, and more. While it is certainly convenient to conduct such tasks via the internet, this increased internet presence has also led to a rise in the search and availability of personal information, which in turn is resulting in more cyber-attacks, privacy breaches, and information leaks. Cyber criminals are using such opportunities to attack governments, organizations, and individuals, making it necessary to anticipate, assess, and mitigate

privacy and security threats during this infodemic. The Handbook of Research on Technical, Privacy, and Security Challenges in a Modern World discusses the design and development of different machine learning systems, including next generation applications, in order to mitigate cyber-attacks and address security challenges in everyday technologies. It further explores select methods and algorithms of learning for implementing better security methods in fields

such as business and healthcare. It recognizes the future of privacy and the importance of preserving data through recommended practice, feedback loops, and smart agents. Covering topics such as face mask detection, gesture recognition, and botnet attacks and detection, this major reference work is a dynamic resource for medical professionals, healthcare administrators, government officials, business executives and managers, IT managers, students and faculty of

higher education, librarians, researchers, and academicians.

Handbook of Research on Technical, Privacy, and Security Challenges in a Modern World

I K International Pvt Ltd

This book covers the syllabus of GGSIPU, DU, UPTU, PTU, MDU, Pune University and many other universities. □ It is useful for B.Tech(CSE/IT), M.Tech(CSE), MCA(SE) students. □ Many solved problems have been added to make this book more fresh. □ It has been

divided in three parts :Parallel Algorithms, Parallel Programming and Super Computers.

Engineering Physics - I (U.P. Technical University, Lucknow)

Laxmi Publications, Ltd.

Computer Based Numerical and Statistical Techniques has been written to provide fundamental introduction of numerical analysis for the students who take a course on Engineering Mathematics and for the students of computer science engineering. The book has been divided

into 14 chapters covering all important aspects starting from high speed computation to Interpolation and Curve Fitting to Numerical Integration and Differentiation and finally focusing on Test of Significance Manufacturing Processes (As Per the UPTU New Syllabus) S. Chand Publishing Many books on Database Management Systems (DBMS) are available in the market, they are incomplete very formal and dry. My attempt is to

make DBMS very simple so that a student feels as if the teacher is sitting behind him and guiding him. This text is bolstered with many examples and Case Studies. In this book, the experiments are also included which are to be performed in DBMS lab. Every effort has been made to alleviate the treatment of the book for easy flow of understanding of the students as well as the professors alike. This textbook of DBMS for all graduate and post-graduate programmes of

Delhi University, GGSIPU, Rajiv Gandhi Technical University, UPTU, WBUTU, BPUT, PTU and so on. The salient features of this book are: - 1. Multiple Choice Questions 2. Conceptual Short Questions 3. Important Points are highlighted / Bold faced. 4. Very lucid and simplified approach 5. Bolstered with numerous examples and CASE Studies 6. Experiments based on SQL incorporated. 7. DBMS Projects added Question Papers of various universities are

also included.

University Chemistry,
4/E Krishna Prakashan
Media

This book is written in a simple and easy-to-understand language to explain the fundamental concepts of the subject. The book presents the subject of EIPC in a comprehensive manner to the students at undergraduate level. This book not only covers the entire scope of the subject but also explains the philosophy of the subject. This makes the understanding of the

subject more clear and interesting. The book will be very useful not only to the students but also to the faculty members.

Engineering Physics: Vol. 1 Arihant Publications India limited

This comprehensive book, now in its Fifth Edition, continues to discuss the principles and concept of Database Management System (DBMS). It introduces the students to the different kinds of database management systems and explains in detail the implementation of DBMS. The book

provides practical examples and case studies for better understanding of concepts and also incorporates the experiments to be performed in the DBMS lab. A competitive pedagogy includes Summary, MCQs, Conceptual Short Questions (with answers) and Exercise Questions.

Krishna's Environment and Ecology; for B. Tech Ist and IInd semester students of All Engineering Colleges affiliated to

U.P. Technical University, Lucknow; As per revised syllabus, w.e.f.

2008-09 S. Chand Publishing

Dr. APJ. Abdul Kalam Technical University (Formerly Known as Uttar Pradesh Technical University) conducts a state level entrance examination called UPSEE also known as Uttar Pradesh State Entrance Exam for both UG and PG courses, each year it shortlist students as per their rankings and accordingly allocates

them colleges. In order to get admissions in UPTU Engineering Stream it is mandatory to have good ranking in the written examination. The present edition of "15 YEARS' SOLVED PAPERS UPTU/UPSEE" provides the complete package of Physics, Chemistry and Mathematics Questions which gives the exact idea of the examination pattern and the answer writing skills in the paper. Authentic and Complete Solutions are given of each question of 15 Years' [2005-2019] Papers in

lucid language that clears all the concepts, doubts of the students and easily understood by the candidates. Ample amount of questions are provided for thorough practice so that candidates will be able to qualify the exam with good rankings.

Preparation from this book help students to step ahead towards their goal. TABLE OF CONTENT Solved Papers 2005-2019. Non-Conventional Energy Resources (For UPTU & UTU) Firewall Media The contribution of

Electrical Machines is enormous in the present technological world. A number of new variants of basic machines have been developed in the past years and new topologies have emerged such as permanent magnet machine, reluctance machine, brushless DC machines and linear machines. Apart from the design and basic structure of machines, their control algorithm is another aspect where effort is being made worldwide. Nevertheless the basic underlying principle of

operation remains more
or less same for all types

of machines. It is this
fundamental concept
where emphasis is being

put in the present
textbook.
