Some of the smartest, most successful people in the country didn’t finish college. None of them learned their most critical skills at an institution of higher education. And like them, most of what you’ll need to learn to be successful you’ll have to learn on your own, outside of school. Michael Ellsberg set out to fill in the missing pieces by interviewing a wide range of millionaires and billionaires who don’t have college degrees, including fashion magnate Russell Simmons and Facebook founding president Sean Parker. This book is your guide to developing practical success skills in the real world: how to find great mentors, build a world-class network, make your work meaningful (and your meaning work), build the brand of you, and more. Learning these skills is a necessary addition to any education, whether you’re a high school dropout or graduate of Harvard Law School.

This is a complete and practical guide which highlights the authors' new strategic approaches to selling when the buyer initially declines or is resistant on a sales opportunity. Hopkins and Katt explain that most sales reps take a traditional linear approach to selling, but that the trick in closing is in taking a more creative and circular approach. That's the key. It all starts with how the buyer initially says, "No." Too many sales reps don't pay close attention as to how that's presented. Hopkins and Katt point out that "no" may suggest all sorts of other options -- avenues that can

eventually lead to the buyer actually saying yes. The authors introduce a novel concept called the Circle of Persuasion which offers sales reps a new approach in this potentially tricky process. Along the way, *WHEN BUYERS SAY NO* details prescriptive steps and even sample dialogues that will instruct and guide sales professionals on how to best cultivate buyer-seller relationships. There's particular emphasis on how to establish the kind of rapport that ultimately leads to a successful close.

"Zig Ziglar epitomizes determination, perseverance, excellence, and a loving Christian spirit more than anyone I know! The world would be a better place if more of us were just like him." --Kenneth H. Cooper, M.D., The Cooper Clinic, Dallas, Texas Zig Ziglar, the motivational speaker who has galvanized audiences around the world and written more than a dozen perennially popular books, brings that same unbounded energy and clarity of vision to this candid, inspiring account of his own life and the forces that shaped it. Every year, Zig Ziglar travels all over the world delivering a resounding message of hope and commitment in forums ranging from high-powered business conferences and church leadership assemblies to youth conventions and educational gatherings. In *Zig*, Ziglar chronicles another kind of journey: his own transformation from a struggling, not terribly successful salesman to the sales champion of several different companies, and finally to his current position as one of the world's best-known and most highly regarded motivational speakers and trainers. As he describes his experiences, he brings to life the essence of his teachings: "You can have everything in life you want if you will just help enough other people get what they want." At the heart of Ziglar's story are the people who taught him the importance of balancing a commitment to hard work with compassion for others. His first teacher was his mother, who raised him alone after the early death of his father, and introduced him to the principles and values he has honored for the rest of his life. Her lessons were reinforced by many others—from the men and women who became his business mentors to the friends and spiritual leaders who comforted and supported him when things got tough. Paying tribute to each of them, Ziglar zeroes in on the philosophy and traits that have enabled him to achieve success in business and in his personal life: discipline, hard work, common sense, integrity, commitment, and an infectious sense of humor. Ziglar's speaking engagements and seminars along with a wide array of audio and video materials, books, and training manuals, have helped to trigger positive changes in small businesses, Fortune 500 companies, U.S. government agencies, nonprofit associations, religious organizations, schools, and

prisons. At once engaging and enlightening, Zig provides a riveting portrait of the man who has achieved so much by embracing the simple but profound goal of helping others.
