These study guides, part of a set from noted Bible scholar, John MacArthur, take readers on a journey through biblical texts

to discover what lies beneath the surface, focusing on meaning and context, and then reflecting on the explored passage or concept. With probing questions that guide the reader toward application, The MacArthur Bible Studies are invaluable tools for Bible students of all ages. The book of Acts is the first volume of church history. It records the story of the church from its explosive beginning on the Day of Pentecost to the imprisonment at Rome of its greatest missionary. During those three decades, the church expanded from a small group of Jewish believers gathered in Jerusalem to embrace thousands in dozens of congregations throughout the Roman

world. Acts describes how the Spirit of God superintended, controlled, and empowered the expansion of the church. Although a work of history, not theology, Acts nevertheless emphasizes the doctrinal truths concerning salvation, the work and person of the Holy Spirit, and other theological issues. Join John MacArthur as he searches the pages of the book of Acts to uncover the intricacies of God's Word spoken to His people.

A new, definitive life of an American icon, the visionary general who led American forces through three wars and foresaw his nation's great geopolitical shift

toward the Pacific Rim—from the Pulitzer Prize finalist and bestselling author of *Gandhi & Churchill* Douglas MacArthur was arguably the last American public figure to be worshipped unreservedly as a national hero, the last military figure to conjure up the romantic stirrings once evoked by George Armstrong Custer and Robert E. Lee. But he was also one of America's most divisive figures, a man whose entire career was steeped in controversy. Was he an avatar or an anachronism, a brilliant strategist or a vainglorious mountebank? Drawing on a wealth of new sources, Arthur Herman delivers a powerhouse biography that peels back the

layers of myth—both good and bad—and exposes the marrow of the man beneath. MacArthur's life spans the emergence of the United States Army as a global fighting force. Its history is to a great degree his story. The son of a Civil War hero, he led American troops in three monumental conflicts—World War I, World War II, and the Korean War. Born four years after Little Bighorn, he died just as American forces began deploying in Vietnam. Herman's magisterial book spans the full arc of MacArthur's journey, from his elevation to major general at thirty-eight through his tenure as superintendent of West Point, field marshal of the Philippines, supreme ruler of postwar Japan, and

beyond. More than any previous biographer, Herman shows how MacArthur's strategic vision helped shape several decades of U.S. foreign policy. Alone among his peers, he foresaw the shift away from Europe, becoming the prophet of America's destiny in the Pacific Rim. Here, too, is a vivid portrait of a man whose grandiose vision of his own destiny won him enemies as well as acolytes. MacArthur was one of the first military heroes to cultivate his own public persona—the swashbuckling commander outfitted with Ray-Ban sunglasses, riding crop, and corncob pipe. Repeatedly spared from being killed in battle—his soldiers nicknamed him “Bullet

Proof”—he had a strong sense of divine mission. “Mac” was a man possessed, in the words of one of his contemporaries, of a “supreme and almost mystical faith that he could not fail.” Yet when he did, it was on an epic scale. His willingness to defy both civilian and military authority was, Herman shows, a lifelong trait—and it would become his undoing. Tellingly, MacArthur once observed, “Sometimes it is the order one disobeys that makes one famous.” To capture the life of such an outsize figure in one volume is no small achievement. With Douglas MacArthur, Arthur Herman has set a new standard for untangling the legacy of this American

legend. Praise for Douglas MacArthur “This is revisionist history at its best and, hopefully, will reopen a debate about the judgment of history and MacArthur’s place in history.”—New York Journal of Books “Unfailingly evocative . . . close to an epic . . . More than a biography, it is a tale of a time in the past almost impossible to contemplate today as having taken place, with MacArthur himself as a figure perhaps too remote to understand, but all the more important to encounter.”—The New Criterion “With Douglas MacArthur: American Warrior, the prolific and talented historian Arthur Herman has delivered an expertly rendered, compulsively readable account that

does full justice to MacArthur’s monumental achievements without slighting his equally monumental flaws.”—Commentary **The Missing Ten Hours** Moody Publishers Dark Epiphany pits two D.C. police homicide detectives against the dark forces behind the strangulation murder of an influential congressional aide, leading the detectives through a maze of bizarre clues and encounters that end in a chase scene in a cave deep under the hills of northern Alabama. The possible suspects include a motley array of Capitol Hill wonks and bureaucrats, an upscale department store buyer, a health food faddist and a

classical guitar player. "Valentine has written a cop novel that's not only on the money with cops but also that has brains and compassion. He's written an erudite policier." Carl Schoettler, *The Baltimore Evening Sun* "Valentine's writing is crisp and the story moves along head over heels." Gene Williams, *The Cleveland Plain Dealer* "Valentine has taught his characters to speak in perfectly tuned idiom." How Luck Happens Bloomsbury Publishing "MacArthur's Spies reads like Casablanca set in the Pacific, filled with brave and daring characters caught up in the intrigue of war—and the best part is that it's all true!" —Tom Maier, author of *Masters of Sex* A thrilling story of espionage, daring and

deception set in the exotic landscape of occupied Manila during World War II. On January 2, 1942, Japanese troops marched into Manila unopposed by U.S. forces. Manila was a strategic port, a romantic American outpost and a jewel of a city. Tokyo saw its conquest of the Philippines as the key in its plan to control all of Asia, including Australia. Thousands of soldiers surrendered and were sent on the notorious eighty-mile Bataan Death March. But thousands of other Filipinos and Americans refused to surrender and hid in the Luzon hills above Bataan and Manila. MacArthur's Spies is the story of three of them, and how they successfully foiled the Japanese for more

than two years, sabotaging Japanese efforts and preparing the way for MacArthur's return. From a jungle hideout, Colonel John Boone, an enlisted American soldier, led an insurgent force of Filipino fighters who infiltrated Manila as workers and servants to stage demolitions and attacks. "Chick" Parsons, an American businessman, polo player, and expatriate in Manila, was also a U.S. Navy intelligence officer. He escaped in the guise of a Panamanian diplomat, and returned as MacArthur's spymaster, coordinating the guerrilla efforts with the planned Allied invasion. And, finally, there was Claire Phillips, an itinerant

American torch singer with many names and almost as many husbands. Her nightclub in Manila served as a cover for supplying food to Americans in the hills and to thousands of prisoners of war. She and the men and women who worked with her gathered information from the collaborating Filipino businessmen; the homesick, English-speaking Japanese officers; and the spies who mingled in the crowd. Readers of Alan Furst and Ben Macintyre—and anyone who loves Casablanca—will relish this true tale of heroism when it counted the most. *The Navy and Marine Corps' Desperate Defense of the Phillipines* Open Road

By 1945, General MacArthur's forces had advanced from Papua to the Philippines and to Borneo. The vast majority of the troops, supplies, and equipment for this campaign were transported by sea, and MacArthur's success was based on 22 amphibious assaults. Soldiers and Marines did the ground fighting and MacArthur's air forces eventually ruled the skies, but it was the ships of the United

States and Australian navies that delivered them to the battlefronts and supported them. This book reveals facts of the Royal Australian Navy's crucial role in World War II.

Soon after the start of the Civil War, during the naval buildup on the central Mississippi River, celebrated civil engineer Charles Ellet, Jr., formed the Ram Fleet under U.S. secretary of war Edwin M. Stanton. Perhaps the most bizarre unit organized by the Union, the rams were shunned by both the army and navy as superfluous instruments of war. However, on June 6, 1862, they proved their worth by defeating the

Confederate River Defense Fleet ironclads at Memphis while the U.S. Navy simply watched. In this lively study, Chester G. Hearn details the formation and wartime exploits of Ellet's fleet, reviving the history of this fascinating but forgotten brigade.

On the eve of the Japanese landing in Lingayen Gulf, 2/Lt. Douglas MacQueen, 4th Regiment USMC was at Darmortis, a small coastal town on the north shore of the Gulf. His was there to observe the action and report to his Commanding Officer, Col. Howard. The Marines, as branch of the Navy, were getting little information from

the Army. Gen. Douglas MacArthur, Supreme Commander of American and Filipino Forces, went so far as to declare the "...4th Marines untrained for combat..." 2/Lt. McQueen witnessed the subsequent collapse of MacArthur's Grand Beach Defense Strategy; MGen. Jonathan 'Skinny' Wainwright's magnificent leadership in the orderly retreat and delay action from the Gulf to Bataan that enabled Southern Force to reach the peninsula before the bridges were demolished; the abandonment of most of the supplies originally intended for Bataan that had been moved to advanced locations in the Gulf at MacArthur's direction

but without any contingency arrangements for their removal as such anticipation, according to the General, was defeatism. MacQueen was determined to survive and hoped to rejoin his wife in Australia.

[The Soldier, the Singer, and the Spymaster Who Defied the Japanese in World War II](#)
Naval Inst Press
Just as Fox on the Rhine and Fox at the Front showed readers an alternate Europe in which Hitler had been

killed, thereby radically changing the course of World War II, Douglas Niles and Michael Dobson bring us the Battle of Midway with a very different outcome. The Allies are wildly out maneuvered and sent home in disgrace. Back in the States things are looking rather grim as the ultra-secret Manhattan Project runs into snafus that greatly delay the final production of the atomic bomb. President Roosevelt's approval ratings drop dramatically. Congress is desperate and the country cries out for a hero. That hero might just be Douglas MacArthur, who vowed that he would return to his beloved Philippines. He plans to do so with the backing of the entire US Armed Forces. MacArthur's

plan of action is simple: take the war back to the Japanese, island by bloody island, until standing on the shores of Japan, he can proclaim victory. And possibly gain the leadership of the United States as well. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Fighting for MacArthur is the only book that focuses on the role of the Navy and Marine Corps during the 1941-42 defense of the Philippines. The book includes the most detailed account ever published of the Japanese bombing of the Cavite Navy Yard outside Manila on 10 December 1941, the worst destruction ever to US Navy installation. The book also provides many new details

about the 4th Marine Regiment that surrendered on Corregidor in May 1942, the only time the Marine Corps lost a regiment in combat. Fighting for MacArthur includes important insights on the origins of the difficult relationship between Army General Douglas MacArthur and the Navy and also compares MacArthur's actions in the defense of the Philippines to those of Admiral Thomas Hart, the Commander of the Asiatic Fleet.

 Truman and MacArthur offers an objective and comprehensive account of the very public confrontation between a sitting president and a well-known general over the military's role in the conduct of foreign policy. In November 1950, with the army of the Democratic Peoples Republic of Korea mostly destroyed, Chinese military forces crossed the Yalu River. They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula. Hoping to strike a decisive blow that would collapse the Chinese communist regime in Beijing,

General Douglas MacArthur, the commander of the Far East Theater, pressed the administration of President Harry S. Truman for authorization to launch an invasion of China across the Taiwan straits. Truman refused; MacArthur began to argue his case in the press, a challenge to the tradition of civilian control of the military. He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress. This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering. On April 11, 1951 he finally

removed MacArthur from command. Viewing these events through the eyes of the participants, this book explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord. It also discusses America's relations with European allies and its position toward Formosa (Taiwan), the long-standing root of the dispute between Truman and MacArthur.

Following an extraordinary debut—17th place in the 1911 Boston Marathon—Penobscot

Indian Andrew Sockalexis returned to run a spectacular Boston Marathon on a muddy, rainy course on April 19, 1912. Only twenty years old, running just his third marathon ever, he came in second and narrowly missed breaking the record time for that course. The greatest number of Native Americans ever to represent the United States occurred when Andrew Sockalexis joined Louis Tewanima and the legendary Jim Thorpe at the 1912 Olympic Games in Stockholm. As the American favorite to win the marathon, Sockalexis finished a gallant fourth on a brutally hot day that saw half the participants drop out and one runner die of heat stroke. Ed Rice

chronicles the tragically short life of Sockalexis—he died at the age of twenty-seven from tuberculosis—focusing on his running and the races that earned him recognition from the sports community and made him revered at home.

The Coursing calendar, ed. by 'Stonehenge'. Bloomsbury Publishing
 General Arthur MacArthur's extraordinary life spans the history of the United States from the Civil War through the Indian Wars to the Spanish-American War and the heyday of American imperialism in the Philippines. And in a sense, as the father of Douglas MacArthur, his influence extends well into our own century. The General's General

is the first biography of Arthur MacArthur, and it clearly establishes his importance in American history. Arthur MacArthur's military career began as a scrawny seventeen-year-old lieutenant, his commission owed not to any evidence of his ability but to family connections. His squeaky voice, barely audible on the parade field, combined with an adolescent conception of proper military bearing to make the young officer an object of ridicule. But MacArthur overcame this bad start and went on to become a bona fide Civil War hero. The youngest regimental commander of the war, he led his troops with distinction in battle and became one of the very first officers to be

awarded the congressional Medal of Honor. In the 1870s MacArthur served in forts in the West during the Indian Wars, married “Pinky” Hardy, and started a family. He next commanded a division in the Philippines during the Spanish-American War. MacArthur went on to become the governor-general of the Philippines—the most imperial post in that blatantly imperialistic period of American history. His blunt opposition to aspects of Washington’s colonial policy in the Philippines led to a series of conflicts with Taft, McKinley, and other civilian authorities. After his return to the United States in 1907, these same leaders blocked

MacArthur’s appointment as chief of staff of the army. Instead, an embittered MacArthur was forced to retire. The MacArthur family, including Douglas, never forgave the powerful men who had thwarted Arthur in his greatest ambition and denied him his place in history. After one of the most distinguished careers in the history of the U.S. Army, Arthur MacArthur died in relative obscurity while delivering a speech at the fiftieth reunion of his original Civil War regiment. A man whose whole life had been soldiering left instructions forbidding a military funeral and asking to be buried in civilian clothes rather than in the uniform he had worn so proudly from the age of

seventeen. MacArthur died too soon to witness the military exploits of his famous son. But there can be no doubt that Arthur made a profound impression on Douglas, who regarded the general with awe and spent much of his own life following in his father's footsteps.

Arthur MacArthur had spent his life striving to be a soldier's soldier; in the end it can be truly said that he was the general's general.

The bestselling author of WW III "Wonderful, one of the great suspense stories of World War II" —Clive Cussler Set during World War II, MacArthur Must Die is a "what-if" thriller in the great tradition of

Eye of the Needle and The Eagle Has Landed, centering on a Japanese assassination plot against General Douglas MacArthur. It is 1942 and Japan owns the Pacific. The speed with which the Japanese have captured vast territories in a few months makes the Nazi Blitzkrieg look plodding by comparison.

Hundreds of thousands are taken prisoner as Americans in the Philippines and the British in Singapore are forced to surrender, and President Roosevelt orders MacArthur to escape from the Philippines to Australia, from where he can launch a counter-offensive—hence MacArthur's famous promise, "I shall return." But what if the

Japanese have no intention of allowing MacArthur to return to the Philippines or anywhere else within their freshly consolidated empire? And War Minister Tojo orders that MacArthur be assassinated: "MacArthur Must Die." The ingenious assassination plot—involving a submarine-launched, bomb-laden Kamikaze aircraft—is created in vivid, hair-raising detail while the action unfolds against a backdrop of dramatic historical events in the Pacific Theater of Operations that will place the reader convincingly close to the most devastating blow imaginable to the allied cause in the Pacific during World War II.
