"A compelling, important addition to Hill Harper's bestselling series, inspired by the numerous young inmates who write to him seeking guidance After the publication of the bestselling Letters to a Young Brother, accomplished actor and speaker Hill Harper began to receive an increasing number of moving letters from inmates who yearned for a connection with a successful role model. With disturbing statistics on African-American incarceration on his mind (one in six black men were incarcerated as of 2001, and one in three can now expect to go to prison some time in their lifetimes), Harper set out to address the specific needs of inmates. A powerful message from the heart, Letters to an Incarcerated Brother provides advice and inspiration in the face of despair along with encouraging words for restoring a sense of self-worth. As the founder of Manifest Your Destiny, a nonprofit outreach program for at-risk teens, Harper has seen firsthand the transformative effect of mentorship and the power of a positive role model. This latest addition to Hill Harper's Letters series delivers visionary, compassionate responses to the real-life circumstances of inmates. As with the other Letters books, Harper includes moving contributions from top educators, activists, thought leaders, and entertainers. Uplifting and insightful, Letters to an Incarcerated Brother provides the hope and inspiration inmates and their families need"--

Does the stability of personality vary by gender or ethnicity? Does a particular therapy work better to treat clients with one type of personality disorder than those with another? Providing a solution to thorny problems such as these, Aguinis shows readers how to better assess whether the relationship between two variables is moderated by group membership through the use of a statistical technique, moderated multiple regression (MMR). Clearly written, the book requires only basic knowledge of inferential statistics. It helps students, researchers, and practitioners determine whether a particular intervention is likely to yield dissimilar outcomes for members of various groups. Associated computer programs and data sets are available at the author's website (<http://mypage.iu.edu/haguinis/mmr>).

Griffin/VanFleet, MANAGEMENT SKILLS: ASSESSMENT AND DEVELOPMENT, 1E, offers a comprehensive, real world approach to mastering the skills needed for a career in management. Because instructors often express the difficulty of creating an active learning environment, this text offers an active, not passive, way for students to learn management skills by challenging students to be self-reflective and asking them to complete numerous assessments, exercises, cases, and other activities. The authors also address another major concern instructors have about students being visual learners by providing a unique Visualize the Skill section not found in any other text. To better enable students to learn about management, chapters are organized in an easy-to-follow format that contains: Assessing Your Skills (pre-assessment scales); Learning About the Skills (concept portion of the text); Practicing Your Skills (exercises); Using Your Skills (case analysis); Extending Your Skills (group and individual exercises); Visualizing the Skills (video exercises); Your Skills Now (assessing skills after working through the chapter); and Interpretations (scoring keys and comparison data).
