Two men in the field. One is taken ...the other left. In Matthew 24, Jesus Christ reveals who the lost and the saved will be at the end of time. But what did He mean when He said that some would be taken--and some would be left? For ages prophecy teachers have offered contradictory explanations of this

enigmatic passage. The popular rapture theory, for instance, says that those who are left are the unbelievers. Others say differently. But how can we know if one position or another is truly supported by Scripture? Typically, this debate centers exclusively on the context of the passage, yet in this case, context alone can be twisted any number of ways.

That's why in this timely study, theologian Stephen Bohr approaches the issue by walking through both the Old and New Testaments to examine how the people in Jesus' time and throughout the Bible would have understood these terms. Step by step, he builds an ironclad case that will carry you to a carefully researched conclusion that you can trust--giving you a powerful foundation that will help open up Bible

prophecy to you like never before.

"Following his blockbuster biography of Steve Jobs, *The Innovators* is Walter Isaacson's revealing story of the people who created the computer and the Internet. It is destined to be the standard history of the digital revolution and an indispensable guide to how innovation really happens. What were the talents that allowed certain inventors and entrepreneurs to turn their visionary ideas into disruptive realities? What led to their creative leaps? Why did some succeed and others fail? In his masterly saga, Isaacson begins with Ada Lovelace, Lord Byron's daughter, who pioneered computer programming in the 1840s. He explores the fascinating personalities that created our current digital revolution, such as Vannevar Bush, Alan Turing, John von Neumann, J.C.R.

Licklider, Doug Engelbart, Robert Noyce, Bill Gates, Steve Wozniak, Steve Jobs, Tim Berners-Lee, and Larry Page. This is the story of how their minds worked and what made them so inventive. It's also a narrative of how their ability to collaborate and master the art of teamwork made them even more creative. For an era that seeks to foster innovation, creativity, and teamwork, *The Innovators* shows how they happen"-

Now would be a good time to remember the angels' instructions. The Three Angels' Message comprise only seven of Revelation's 404 verses--a tiny percentage of what John the revelator recorded. Yet as God's final warning to a

world enamored with sin, these cryptic messages are highly significant. What exactly is God warning the world about, though? And how is this warning relevant to you, considering what is currently happening in our world? If it's so important, why isn't this portion of Scripture as well known as the Ten Commandments or the golden rule? Within these pages John Anderson examines individual words and phrases to decipher clues embedded in the original language, and searches the Bible for the context in which each word is used. His careful investigation uncovers the veiled meaning of these messages by comparing scripture with scripture--and reveals just how urgent God's warning is to every human on this planet today.

The passing of time reveals much expert opinion to be nonsense. How can we evaluate expert opinion and learn to think for ourselves? "In the midst of an information explosion, we face a wisdom deficit," notes author J. Steve Miller. This book, in a remarkably accessible and entertaining way, equips readers to think more clearly, innovate more creatively, see through the deceptions of clever advertisers and salesmen, simplify complex and convoluted arguments, manage life's decisions with more confidence, and express convictions more powerfully. This book is designed to be read by all individuals interested in learning critical and creative thinking skills. It can also be used as a text

targeting high school seniors and college freshmen. An accompanying website offers free lesson plans and teaching tips.

Beginning with the destruction of Jerusalem and continuing through the persecutions of Christians in the Roman Empire, the apostasy of the Dark Ages,

the shining light of the Reformation, and the worldwide religious awakening of the nineteenth century, this volume traces the conflict into the future, to the Second Coming of Jesus and the glories of the earth made new. In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

This 1935 collection of Ellen G. White's admonitions is reprinted in the hope of

arousing God's people to follow the divine blueprint of the medical work. The content of this book is briefly summarized in these two statements:

"Loma Linda is to be not only a sanitarium, but an educational center.

With the possession of this place comes the mighty responsibility of making the work of the institution educational in character. The school that is to be established at Loma Linda is to stand in the freedom of the truth." "Shall we represent before the world that our physicians must follow the pattern of the world, before they can be qualified to be successful physicians? This is the question that is now testing the faith of some of our brethren. Let not any of our brethren displease the Lord by advocating in their assemblies the idea

that we need to obtain from unbelievers a higher education that that specified by the Lord."

On the Possibility of Life in Capitalist Ruins Review and Herald Pub Assoc Shares an account of his religiously transformative near-death experience and revealing week-long coma, describing his scientific study of near-death phenomena while explaining what he learned about the nature of human consciousness.

Redefining the Value of School TEACH Services, Inc.

This study is more about what the fifth and sixth trumpets of Revelation are not, rather than what they are. After all, it is premature to speak of what they are, when the generally-accepted view is built upon a platform of error. It is this

fog of error that must first be lifted before we, as a church, can move forward, united in our message to the world as we rightly present the warning messages of the trumpets of Revelation to a dying world. This study comes at a critical time, as the sixth trumpet of Revelation has its application in force in this present period of earth's history, and will continue so until the close of probation, as we will prove. The seventh trumpet of Revelation, as will be shown, is when Jesus receives His kingdom. The administration of the seven last plagues will follow, climaxing with the second coming of Christ in the clouds of heaven.

A fresh look at the history of psychology

placed in its social, political, and cultural contexts. *A History of Modern Psychology in Context* presents the history of modern psychology in the richness of its many contexts. The authors resist the traditional storylines of great achievements by eminent people, or schools of thought that rise and fall in the wake of scientific progress. Instead, psychology is portrayed as a network of scientific and professional practices embedded in specific temporal, social, political, and cultural contexts. The narrative is informed by three key concepts—indigenization, reflexivity, and social constructionism—and by the fascinating interplay between disciplinary Psychology and everyday psychology. The authors complicate the notion of who is at the center and who is

at the periphery of the history of psychology by bringing in actors and events that are often overlooked in traditional accounts. They also highlight how the reflexive nature of Psychology—a science produced both by and about humans—accords history a prominent place in understanding the discipline and the theories it generates. Throughout the text, the authors show how Psychology and psychologists are embedded in cultures that indelibly shape how the discipline is defined and practiced, the kind of knowledge it creates, and how this knowledge is received. The text also moves beyond an exclusive focus on the development of North American and European psychologies to explore the development of psychologies in other indigenous

contexts, especially from the mid-20th-century onward.

"This new essay might well be read before tackling the biblical passages, for here the air is cleared over traditional habits of thought which may obscure the witness of Scripture itself. . .its gentle and straightforward style can do much to move the discussion along." -- Theology Today In this book, Jewett argues that on the basis of the Christian ideal of the partnership of the sees, women ought to share fully with men the privileges and responsibilities of church ministry. Paul K. Jewett (1919-1991) was professor of systematic theology at Fuller Theological Seminary in Pasadena, California. He also wrote Man as Male and Female and

God, Creation, and Revelation.

Christ's Object Lessons UCL Press The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Revelation Amazing Facts

Final warning? We've had warnings and promises for nearly 6,000 years. After all of this time, are things really going to happen? No need to panic. God has everything under control. Enduring the apocalypse will be the ultimate

challenge, but we have a promise in Matthew 24:13: “He who endures to the end shall be saved.”

A Neurosurgeon's Journey Into the Afterlife Eerdmans Publishing Company Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at*

the End of the World follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes,

the prerequisite for continuing life on earth.

The Faith I Live by Biblical Research Inst

When Brian McLaren began offering an alternative vision of Christian faith and life in books such as *A New Kind of Christian* and *A Generous Orthodoxy*, he ignited a firestorm of praise and condemnation that continues to spread across the religious landscape. To some religious conservatives, McLaren is a dangerous rebel without a doctrinally-correct cause. Some fundamentalist websites have even claimed he's in league with the devil and have consigned him to flames. To others though, Brian is a fresh voice, a welcome antidote to the staleness, superficiality, and negativity of the religious status

quo. A wide array of people from Evangelical, Catholic, and Mainline Protestant backgrounds claim that through his books they have begun to rediscover the faith they'd lost or rejected. And around the world, many readers say that he has helped them find-for the first time in their lives-a faith that makes sense and rings true. For many, he articulates the promise of what is being called "emerging Christianity." In *The Secret Message of Jesus* you'll find what's at the center of Brian's critique of conventional Christianity, and what's at the heart of his expanding vision. In the process, you'll meet a Jesus who may be altogether new to you, a Jesus who is... Not the crusading conqueror of religious broadcasting; Not the religious mascot of partisan religion; Not heaven's ticket-

checker, whose words have been commandeered by the church to include and exclude, judge and stigmatize, pacify and domesticate. McLaren invites you to discover afresh the transforming message of Jesus-an open invitation to radical change, an enlightening revelation that exposes sham and ignites hope, an epic story that is good news for everyone, whatever their gender, race, class, politics, or religion. "Pastor and best-selling author McLaren revisits the gospel material from a fresh-and at times radical-perspective . . . He does an excellent job of capturing Jesus' quiet, revolutionary style." --Publishers Weekly (starred review) "Here McLaren shares

his own ferocious journey in pondering the teachings and actions of Jesus. It is McLaren's lack of salesmanship or agenda that creates a refreshing picture of the man from Galilee who changed history." --Donald Miller, Author of Blue Like Jazz "In this critical book, Brian challenges us to ask what it would mean to truly live the message of Jesus today, and thus to risk turning everything upside down." --Jim Wallis, Author of God's Politics and editor of Sojourners "Compelling, crucial and liberating: a book for those who seek to experience the blessed heat of Christianity at its source." --Anne Rice, Author of Christ the Lord: Out of Egypt
