The Miracle of Green Harlequin
 West German Industrialists and the Making of the Economic Miracle investigates the mentality of post-war German (heavy) industrialists through an analysis of their attitudes, thinking and views on social, political and, of course, economic matters at the time, including the 'social market economy' and how they saw their own role in society, with this investigation taking place against the backdrop of the 'economic miracle' and the Cold War of the 1950s and 60s. The book also includes an assessment of whether the self-declared, new 'aristocracy of merit' justified its place in society and carried out its actions in a new spirit of political responsibility. This is an important text for all students interested in the history of Germany and the modern economic history of Europe.

The Holy Spirit iUniverse
 Miracles were happening in Stanhope, Minnesota. Impossible cures, amazing recoveries. All due to a pool of pitch-black water that had bubbled up mysteriously from the depths of the earth. Sometimes it glowed with a beckoning light. Sometimes it reflected

only glittering darkness. It always gave the gift of life ... but what would it demand in return? Ten-year-old Allison Kent knew her parents hadn't really believed a dip in the famous pool would make her well again. They were just pretending so she wouldn't be scared. But it did work and she was better ... except for the cruel voices in her head that whispered of retribution and death. And the dangerous, uncontrollable powers she had over the world around her. Lately she was afraid that whatever lived beneath the water had healed her for an evil purpose all its own ...

"Funny, bighearted...Miles specializes in giving fully rounded humanity to characters who might elsewhere be treated as stock figures...pitch-perfect." — New York Times Book Review "Miles is a writer so virtuosic that readers will feel themselves becoming better, more observant people from reading him." — Los Angeles Review of Books A profound

new novel about a paralyzed young man's unexplainable recovery—a stunning exploration of faith, science, mystery, and the meaning of life. Rendered paraplegic after a traumatic event four years ago, Cameron Harris has been living his new existence alongside his sister, Tanya, in their battered Biloxi, Mississippi neighborhood where only half the houses made it through Katrina. One stiflingly hot August afternoon, as Cameron sits waiting for Tanya during their daily run to the Biz-E-Bee convenience store, he suddenly and inexplicably rises up and out of his wheelchair. In the aftermath of this "miracle," Cameron finds himself a celebrity at the center of a contentious debate about what's taken place. And when scientists, journalists, and a Vatican investigator start digging, Cameron's deepest secrets—the key to his injury, to his identity, and, in some eyes, to the nature of his recovery—become increasingly endangered. Was Cameron's recovery a genuine miracle, or a medical breakthrough? And, finding himself transformed into a symbol, how can he hope to retain his humanity? Brilliantly written as closely observed journalistic reportage and filtered through a wide lens that encompasses the vibrant characters affected by Cameron's story, *Anatomy of a Miracle* will be read, championed, and celebrated as a powerful story of our time, and the work of a true literary master.

The willingness of people to believe in magical icons, mystical relics, and miraculous pictures (like the Image of Guadalupe) is almost as curious as these phenomena themselves. Though they cry out for scientific investigation, millions of people blindly accept them as

fact. Historical and paranormal investigator Joe Nickell confronts such strange events, powers, and objects as the Shroud of Turin, bleeding or weeping statues, burning handprints, liquefying blood, ecstatic visions, miraculous cures, and people speaking in tongues in *Looking for a Miracle*. Departing from standard critiques of religion, Nickell carefully investigates the evidence relating to specific claims. Religious believers and rationalists alike have much to learn from this revealing examination of the evidence for the miraculous.

Ministering the Baptism in the Holy Spirit Steeple Hill

In recent years as countries around the globe have begun to move from dictatorial to more democratic systems of governance, no more traumatic (or dramatic) ethical problem has arisen than what to do with the previous regime's torturers. In most cases, the security and military apparatuses, responsible for the overwhelming majority of human-rights abuses, still retain tremendous power—and will not abide any settling of accounts. Now, New Yorker staff reporter Lawrence Weschler tells the extraordinary story of how, against tremendous odds, torture victims and human-rights activists in two Latin American countries—Brazil and Uruguay—tried to bring their torturers to justice and to rehabilitate their whole societies from harrowing periods of silence and repression. In this first of his two accounts, he tells how a tiny group

of torture victims, clerics, and human-rights activists in Brazil launched an extremely risky, nonviolent plot to get even with the former torturers by publishing an indisputable account of their savage system of repression—indisputable because it is drawn from the regime's own files. In the second, set in Uruguay, he tells how a more broadly-based movement attempted to bring to light the dark history of a military regime engaged in more political incarceration per capita than any other on earth at that time. In this illuminating and beautifully written book (portions of which appeared in five issues of *The New Yorker*), Weschler examines what a small number of individuals can do to retrieve history and truth from the hands of torturers.

Claims of the miraculous are foundational to faith and skepticism, making and breaking religious careers and movements in their wake. Drawing on a variety of South Asian religious traditions—Hinduism, Buddhism, Islam, Christianity—this book revolves around the theme of conundrum, demonstrating how miracles offer divine proof, tenacious embarrassment, and, in many cases, both. The contributors explore not only how modern miracles are conundrums themselves but also how they make conundrums out of assumed divides between scientific and supernatural realms, modernity and tradition, the West and the rest, and

ethnographer and native. Book jacket.
