PressBirds of the Horn of Africa is the first field guide to the more than 1,000 species of resident, migrant, and vagrant birds found in northeast Africa. Birds of the Horn of Africa: Ethiopia, Eritrea, Djibouti ... Birds of the Horn of Africa (Ethiopia, Eritrea, Djibouti, Somalia and Socotra). Birds of the Horn of Africa (Ethiopia, Eritrea, Djibouti ... About Birds of the Horn of Africa The Horn of Africa has the highest endemism of any region in Africa, and around 70 species are found nowhere else in the world. Many of these are confined to the isolated highlands of Ethiopia and Eritrea, but a large number of larks specialise in the arid parts of Somalia and adjoining eastern Ethiopia, whilst the island of Socotra has its own suite of endemic species. Birds of the Horn of Africa:

Ethiopia, Eritrea, Djibouti ... Pages in category "Birds of the Horn of Africa" The following 93 pages are in this category, out of 93 total. This list may not reflect recent changes (). Category: Birds of the Horn of Africa - Wikipedia The hornbills are a family of bird found in tropical and subtropical Africa, Asia and Melanesia. They are characterized by a long, down-curved bill which is frequently brightly colored and sometimes has a casque on the upper mandible. Both the common English and the scientific name of the family refer to the shape of the bill, "buceros" being "cow horn" in Greek. Hornbills have a two-lobed kidney. They are the only birds in which the first and second neck vertebrae are fused together; this proba Hornbill - Wikipedia The Horn of

Africa's highest levels of endemism occur among reptiles, with more than 90 of around 285 species found nowhere else. The hotspot's six endemic reptile genera include *Haackgreerius*, a monotypic genus of skink found in Somalia, and *Aeluroglena*, which is represented by a single species of snake.
