The world is facing many great challenges: from pandemics to climate change, and from increasing inequality to the issues surrounding digitalization. In a new and rapidly changing global landscape, Europe must look for solutions to these difficulties to follow up on its impressive decades-long process of integration. Europe has the capacity to chart a progressive course in the world. Our European Future offers solutions to rethink our socioeconomic model in the glare of the environmental and digital transformations; to redefine Europe's role in the world to contribute to renewed multilateralism; to strengthen investment in public goods; and finally, to re-invent our democratic contract. The book brings together the insights of renowned experts from

across Europe, and it should prove a handy guide for any progressive thinker, policymaker or activist, and for any citizen who would like to take part in the necessary democratic debate about our future.
