Discovering Voice is a collection of classroom exercises that helps students deeply understand the reading and writing of complex text. The lessons, which cover diction, detail, figurative language, imagery, syntax, and tone, help students understand voice in what they read and encourage them to develop a strong, personal voice in their own writing. Every voice lesson includes a quotation selected from a wide range of fiction and nonfiction text, two discussion questions, and an exercise that encourages students to practice what they have learned about the elements of voice. These lessons are specifically designed for students in middle and high school. The lessons provide focused practice for a specific element of voice and take only 10 to 20 minutes of class time. Discovering Voice lessons fit well with any curriculum. As students work with the elements that comprise voice, they will improve their ability to critically analyze text. Students will also learn to apply the elements of voice to their own writing, creating a clear voice of their own.

Inquiry-Based Lessons in U.S. History Simon and Schuster

Marty Preston wonders why it is that despite Judd Traver's attempts to redeem himself everyone is still so willing to think the worst of him. Marty's friend David is sure that Judd will be named as the murderer of a man who has been missing. Others are sure that Judd is behind a series of burglaries in the area. But Marty's parents and, with some trepidation, Marty himself persist in their attempts to be good neighbors and to give Judd a second chance. Now that Marty has Shiloh, maybe he can help Judd to take better care of his other dogs. Then again, maybe folks are right -- there's no way a Judd Travers can ever change for the good. Then a terrifying life-or-death situation brings this dilemma into sharp focus. Saving Shiloh is a powerful novel that brings this trilogy to a close.

Creating differentiated instruction is an essential yet time-consuming component of effective teaching. Since students learn at different paces and in different ways, some students may be able to apply a targeted comprehension skill in cognitively complex ways immediately after being taught the skill while other students may need additional scaffolding in order to grasp it. All students, regardless of their skill level, benefit from activities that are at their just right level. This means activities are not too difficult or too easy. In this book, Nancy Witherell and Mary McMackin share easy-to-follow lesson plans that address key reading skills for students in grades 3 to 5. A set of three, tiered, differentiated follow-up activities accompanies each lesson. Fiction and nonfiction mentor text suggestions are included.

How to Achieve the Common Core with Tech Routledge

This book shows how principles of self-regulated learning are being implemented in secondary classrooms. The 14 chapters are theoretically driven and supported by empirical research and address all common high school content areas. The book comprises 29 lesson plans in English language arts, natural and physical sciences, social studies, mathematics, foreign language, art, music, health, and physical education. Additionally, the chapters address students with special needs, technology, and homework. Each chapter begins with one or more lesson plans written by master teachers, followed by narratives explaining how the lesson plans were implemented. The chapters conclude with an analysis written by expert researchers of the self-regulated learning elements in the lessons. Each lesson and each analysis incorporate relevant educational standards for that area. Different types of high schools in several states serve as venues. This powerful new book edited by Maria K. DiBenedetto provides a unique and invaluable resource for both secondary teachers and researchers committed to supporting adolescents in the development of academic self-regulation. Each chapter is jointly written by teachers who provide a wealth of materials, including lesson plans, and researchers who situate these lesson plans and academic self-regulation goals within the larger work on self-regulation. The topics covered are far broader than any other book I have seen in terms of developing academic self-regulation, covering over a dozen content areas, including literacy, mathematics, social studies, the

sciences, and the arts. Teachers and scholars alike will find this book a must read. Karen Harris, EdD, Arizona State University A practical and magnificent blend of educational research and application. This book goes beyond presenting the findings of research on self regulation by connecting detailed strategies that align with the standards to the research. DiBenedetto et al. clearly illustrate how to develop self regulated learners in the classroom. A refreshing must read for all secondary educators and educational researchers seeking to be well grounded in education research and practical application techniques. Heather Brookman, PhD, Fusion Academy- Park Avenue Self-regulated learning is a research-based process by which teachers help students realize their own role in the learning process. Connecting Self-Regulated Learning and Performance with Instruction Across High School Content Areas consists of model teachers' lessons and analyses by prominent educational psychologists in the field of self-regulated learning. The book provides teachers with the tools needed to increase students' awareness of learning and inspires all educators to use self-regulated learning to promote engagement, motivation, and achievement in their students. The book also provides administrators with the principles needed to infuse evidenced based self-regulated learning into their curriculum and instruction. I highly recommend the book! Common Core: PARCC ELA/Literacy Assessments, Grades 9-12 Teachers College Press

Winner of the 2016 NAGC Curriculum Studies Award In *I, Me, You, We: Individuality Versus Conformity*, students explore essential questions such as "How does our environment shape our identity? What are the consequences of conforming to a group? When does social conformity go too far?" This unit, developed by Vanderbilt University's Programs for Talented Youth and aligned to the Common Core State Standards (CCSS), includes a major emphasis on rigorous evidence-based discourse through the study of common themes across rich, challenging nonfiction and fictional texts. The unit guides students to examine the fine line of individuality versus conformity through the related concepts of belongingness, community, civil disobedience, questioning the status quo, and self-reliance by engaging in creative activities, Socratic seminars, literary analyses, and debates. Lessons include close-readings with text-dependent questions, choice-based differentiated products, rubrics, formative assessments, and ELA tasks that require students to analyze texts for rhetorical features, literary elements, and themes through argument, explanatory, and prose-constructed writing. Ideal for pre-AP and honors courses, the unit features short stories from Kurt Vonnegut and Ray Bradbury, poetry from Emily Dickinson and Maya Angelou, art by M. C. Escher and Pablo Picasso, and primary source documents from Plato, Eleanor D. Roosevelt, William Bradford, Ralph Waldo Emerson, and Henry David Thoreau. Grades 6-8
