Christian education has all but disappeared from the majority of educational systems around the world. As governments limit or banish God from among our schools in the name of "separation of church and state," we find the very foundation upon which many schools began disintegrating before our eyes. This is not a new problem. Over the centuries people have had the same concern of what is true education and the place of religion in the educational system. Among these were the newly devoted Christians arising from the Great Advent movement sweeping North America

during the 18th and 19th century. Author Alonzo T. Jones, an important figure in Great Advent movement, felt that Christians should take a solid look at the educational systems of that day. Jones believed that true Christian education was the only becoming choice to Christians. In The Place of the Bible in Education, he outlines according to the Bible what exactly Christian education looks like. He also explores the true meaning of the separation between church and state and how Christian education does not fall under such discrimination. In this book, he discusses how secular education falls short of even the true meaning of education and how this has an adverse affect on our young people. Jones shows how there is a Biblical precedent for true education and how the Bible should and can become part of the educational system.
