A true classic with a timeless message! All the other bulls run, jump, and butt their heads together in fights. Ferdinand, on the other hand, would rather sit and smell the flowers. So what will happen when Ferdinand is picked for the bullfights in Madrid? The

Story of Ferdinand has inspired, enchanted, and provoked readers ever since it was first published in 1936 for its message of nonviolence and pacifism. In WWII times, Adolf Hitler ordered the book burned in Nazi Germany, while Joseph Stalin, the leader of the Soviet Union, granted it privileged status as the only non-communist children's book allowed in Poland. The preeminent leader of Indian nationalism and civil rights, Mahatma Gandhi—whose nonviolent and pacifistic practices went on to inspire Civil Rights leader Martin Luther King, Jr.—even called it his favorite book. The story was adapted by Walt Disney into a short animated film entitled Ferdinand the Bull in 1938. Ferdinand the Bull won the 1938 Academy Award for Best Short Subject (Cartoons).

The Academy Award-winning screenplay of “a drama of surpassing beauty” (Wall Street Journal) Kenneth Lonergan’s Academy Award and BAFTA-winning screenplay for the acclaimed

film *Manchester by the Sea* is a staggering achievement and an emotionally devastating meditation on grief. Lee Chandler is a brooding, irritable loner who works as a handyman in Boston. One damp winter day he gets a call summoning him to his hometown, Manchester-by-the-Sea, the fishing village where his working-class family has lived for generations. His brother’s heart has given out suddenly, and he’s been named guardian to his riotous 16-year-old nephew. His return re-opens an unspeakable tragedy, as he is forced to confront a past that separated him from his wife, Randi, and the community where he was born and raised. A sweeping story of loss and new beginnings, *Manchester by the Sea* “illuminates with quiet, unyielding grace how you and I and our neighbors get by, and sometimes how we don’t” (Boston Globe). Rounding out the volume is a trenchant and incisive introduction by Kenneth Lonergan on writing for film.

He is appalled by their customs—the gratuitous sexuality of their women, their disregard for cleanliness, and their cold-blooded sacrifices. As they enter the frozen, forbidden landscape of the North—where the day’s length does not equal the night’s, where after sunset the sky burns in streaks of color—Fadlan soon discovers that he has been unwillingly enlisted to combat the terrors in the night that come to slaughter the Vikings, the monsters of the mist that devour human flesh. But just how he will do it, Fadlan has no idea.

Private investigator Cormoran Strike must track down a missing writer -- and a sinister killer bent on destruction -- in this "wonderfully entertaining" mystery (Harlan Coben, New York Times Book Review) that inspired the acclaimed HBO Max series C.B. Strike. When novelist Owen Quine goes missing, his wife calls in private detective Cormoran Strike. At first, Mrs. Quine just thinks her husband has gone off by himself for a few days -- as he has done before -- and she wants Strike to find him and bring him home. But as Strike investigates, he discovers that Quine's disappearance is no coincidence. The novelist has just completed a manuscript featuring poisonous pen-portraits of almost everyone he knows. If the novel were published, it would ruin lives -- meaning that almost everyone in his life would have motives to silence him. When Quine is found brutally murdered under bizarre circumstances, Strike must race against time to understand the motivation of a ruthless killer, a killer unlike any he has encountered before . . . A compulsively readable crime novel with twists at every turn, *The Silkworm* is the second in J. K. Rowling's highly acclaimed series featuring Cormoran Strike and his determined young assistant, Robin Ellacott.

Imagine being forced to move to a new planet where YOU are the alien! From the creator of the Tapper Twins, New York Times bestselling author Geoff Rodkey delivers a topical, sci-fi middle-grade novel that proves friendship and laughter can transcend even a galaxy of differences. The first time I heard about Planet Choom, we'd been on Mars for almost a year. But life on the Mars station was grim, and since Earth was no longer an option (we may have blown it up), it was time to find a new home. That's how we ended up on Choom with the Zhuri. They're very smart. They also look like giant mosquitos. But that's not why it's so hard to live here. There's a lot that the Zhuri don't like: singing (just ask my sister, Ila), comedy (one joke got me sent to the principal's office), or any kind of emotion. The biggest problem, though? The Zhuri don't like us. And if humankind is going to survive, it's up to my family to change their minds. No pressure.

 Countless attempts at analyzing Russia's actions focus on Putin to understand Russia's military imbroglio in Ukraine, hostility towards America, and disdain of 'Gayropa'. This book invites its readers to look beyond the man and delve into the online lives of millions of Russians. It asks not the question of what the threats are to Russia's security, but what they are perceived to be by digital Russia. The author examines how enemy images are manufactured, threats magnified, stereotypes revived, memories implanted and fears harnessed. It looks at the legacy of the Soviet Union in shaping discussions ranging from the Ukraine crisis to the Pussy Riots trial, and explores the complex inter-relation between enemy images at the governmental level and their articulation by the general public. By drawing on the fields of international relations, memory studies, visual studies, and big data, this book addresses the question of why securitization succeeds – and why it fails. "Security theory meets the visual turn and goes to Russia, where old tsarist and Soviet tropes are flooding the internet in support of Putin's neo-tsarism. A magical mystery tour that comes recommended. Iver B. Neumann, author

of "Russia and the Idea of Europe" "The novelty of her approach is in going beyond the traditional top down perspective and capturing the receptivity and contribution of various social groups to securitized discourses." Andrei P. Tsygankov, author of "Russia's Foreign Policy: Change and Continuity in National Identity". "When do scary proclamations of security threats attract an audience? When does securitization work? 'Security Threats and Public Perception' combines in-depth analysis of the Ukraine Crisis in the Russian digital media with discourse theory to make an innovative argument about how and when people believe that they are insecure. A must read!" Laura Sjoberg, Assistant Professor of Political Science, University of Florida, USA

In the 21st century the companies that make stories seem increasingly uninterested in providing a satisfying product to what they see as an audience of captive fans. To free you from captive fandom, the *Guide to Good Story* will show you how the value of a story comes from "Three Dimensions." The first dimension is appeal, which describes the value stories provide by stimulating our emotions and providing us with the kinds of experiences that we want to have. The second is quality, which describes how well or poorly a story provides the elements our

brain needs to generate and maintain the “suspension of reality.” The third dimension, context, describes how factors outside of a story shape it and create value within the story. You will then learn how to use the three dimensions together to become an aficionado, someone who uses the Three Dimensions to find good stories for themselves.

From their heyday in the 1950s and 1960s, B movies declined in popularity through the 1970s. As the big Hollywood studios began to make genre films with sky-high budgets, independent producers of low-budget movies could not compete in theaters. The sale of American International Pictures in 1979 and New World Pictures in 1983 marked the end of an era. The emergence of home video in the 1980s marked the beginning of a new phase, as dozens of B movies were produced each year for the small screen, many becoming cult classics of science fiction, horror and fantasy. Through numerous interviews with producers, directors, photographers and actors, this book sheds light on an overlooked corner of film history with behind-the-scenes stories of 28 low-budget favorites from the 1980s.
