La Bonne Vache (The Good Cow) is a little restaurant in the south of France. It takes its name from and is famous for its boeuf à la mode, a delicious beef stew. Ten-year-old Pierre longs to follow in the culinary footsteps of his father, Monsieur Valcourt. Monsieur Valcourt is the chef and owner of La Bonne Vache. Pierre spends as much time as possible in the restaurant's kitchen, hoping for a chance to demonstrate his cooking skills. But his parents shoo him away and he is not allowed to cook. One day Pierre meets a visitor who is on his way to eat at the restaurant. This is no ordinary visitor but an important food critic. His experience at La Bonne Vache could bring great honor to the restaurant. At last, Pierre sees his chance to prove himself. Award-winning author Gloria Whelan received the National Book Award for her young adult novel, *Homeless Bird*. Her books with Sleeping Bear Press include *The Listeners*, *Friend on Freedom River*, and *Jam and Jelly with Holly and Nellie*. She lives in Michigan.

*Limits and Renewals*, Kipling's last collection of short stories, was written shortly after the death of his only son. Dark and penetrating in tone, these are brilliant portraits of a soul in torment with some welcome relief coming in the tales of 'Aunt Ellen' and 'The Miracle of Saint Jubanus'.

A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In *Data Feminism*, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever “speak for themselves.” *Data Feminism* offers strategies for data scientists seeking to learn how feminism can help them work toward justice, and for feminists who want to focus their efforts on the growing field of data science. But *Data Feminism* is about much more than gender. It is about power, about who has it and who doesn't, and about how those differentials of power can be challenged and changed.

*A Life* London : Bell and Daldy

Part memoir, part micro-history, this is an exploration of the present through the lens of the past. We all know that the best way to study a foreign language is to go to a country where it's spoken, but can the same immersion method be applied to history? How do interactions with antique objects influence perceptions of the modern world? From Victorian beauty regimes to nineteenth-century bicycles, custard recipes to taxidermy experiments, oil lamps to an ice box, Sarah and Gabriel Chrisman decided to explore nineteenth-century culture and technologies from the inside out. Even the deepest aspects of their lives became affected, and the more immersed they became in the late Victorian era, the more aware they grew of its legacies permeating the twenty-first century. Most of us have dreamed of time travel, but what if that dream could come true? Certain universal constants remain steady for all people regardless of time or place. No matter where, when, or who we are, humans share similar passions and fears, joys and triumphs. In her first book, *Victorian Secrets*, Chrisman recalled the first year she spent wearing a Victorian corset 24/7. In *This Victorian Life*, Chrisman picks up where *Secrets* left off and documents her complete shift into living as though she were in the nineteenth century.

*The Well of Loneliness*, first published in 1928, is a timeless portrayal of lesbian love. The thinly disguised story of Hall's own life, it was banned outright upon publication and almost ruined her literary career as the subject was that of an obscenity trial and forbidden at the time in England. The novel tells the story of Stephen, an ideal child of aristocratic parents—a fencer, a horse rider and a keen scholar. Stephen grows to be a war hero, a bestselling writer and a loyal, protective lover. But Stephen is a woman, and is attracted to women. As her ambitions drive her, and society incarcerates her, Stephen is forced into desperate actions. Although Gordon's attitude toward her own sexuality is anguished, the novel presents lesbianism as natural and makes a plea for greater tolerance. It became an international bestseller, and for decades was the single most famous lesbian novel.

*The Spell of Egypt* Simon and Schuster

The National Book Award-winning novel about one remarkable young woman who dares to defy fate, perfect for readers who enjoyed *A Long Walk to Water* by Linda Sue Park or *Inside Out and Back Again* by Thanhha Lai. Like many girls her age in India, thirteen-year-old Koly faces her arranged marriage with hope and courage. But Koly's story takes a terrible turn when in the wake of the ceremony, she discovers she's been horribly misled—her life has been sold for a dowry. Can she forge her own future, even in the face of time-worn tradition? Perfect for schools and classrooms, this universally acclaimed, bestselling, and award-winning novel by master of historical fiction Gloria Whelan is a gripping tale of hope that will transport readers of all ages.

*Queen Victoria's Underpants* London : J Murray

Prince Albert comes up with a royally creative solution to Queen Victoria's modesty concerns in this true story that reveals an overlooked splash of history. Poor Queen Victoria! She loves to swim, but can't quite figure out how to get to the water without her devoted subjects glimpsing her swimming suit. (Because, of course, such a sight would compromise her regal dignity.) Fortunately for the water-loving monarch, it's Prince Albert to the rescue with an invention fit for a queen! This quirky tale about the longest reigning monarch in British history is as fun as it is authentic, and the book includes a picture of the actual bathing machine Prince Albert created.

This autobiography details the life of Daisy Hurst (Mrs. J. Borden) Harriman, a wealthy New York woman who worked diligently for issues concerning working-class women. Harriman was one of the women who lent her financial support to the shirtwaist workers' strike in 1909. In addition, with Mrs. Oliver H.P. Belmont and Miss Anne Morgan, she helped organize a strike meeting of the WTUL at the Colony Club, the first women's social club in New York City, which she also helped organize. In 1912, she was named by Woodrow Wilson to serve on the Federal Industrial Relations Commission.

Learn about the early life of Abraham Lincoln in this picture book biography that Kirkus Reviews calls “a moving tribute to the power of books and words.” In a tiny log cabin a boy listened with delight to the storytelling of his ma and pa. He traced letters in sand, snow, and dust. He borrowed books and walked miles to bring them back. When he grew up, he became the sixteenth president of the United States. His name was Abraham Lincoln. He loved books. They changed his life. He changed the world.

The slightly true narrative of how a brave pioneer father brought apples, pears, plums, grapes, and cherries (and children) across the plains. Apples, ho! When Papa decides to pull up roots and move from Iowa to Oregon, he can't bear to leave his precious apple trees behind. Or his peaches, plums, grapes, cherries, and pears. Oh, and he takes his family along too. But the trail is cruel. First there's a river to cross that's wider than Texas, then there are hailstones as big as plums, and then there's even a drought, sure to crisp the cherries. Luckily Delicious (the nonedible apple of Daddy's eye) won't let anything stop her father's darling saps from tasting the sweet Oregon soil. A hilarious tall tale from the team that brought you *Fannie in the Kitchen* that's loosely based on the life of a real fruiting pioneer.

*The Boy Who Loved Books* Harper Collins

In this rhyming, hilarious romp about a little-known facet of American history, Thomas Jefferson tries to disprove a French theory that those in the New World are puny and wussy by going in search of mammoth bones. In the New World called America big changes were a'brewing.

Independence was declared with bold hurrahs and ballyhoing! The French feel threatened by America's new freedom and confidence, as embodied by Count Buffon who claims that the "New World was a chilly, swampy place, filled with puny, scrawny creatures, every species, breed, and race." Thomas Jefferson won't stand his young country being insulted, so he sets out to prove Count Buffon wrong. He sends people across the country in search of an animal or animal bones to prove that creatures in the United States are big and strong and worthy. Hilarious, energetic, and a delight to read aloud, this book shines a light on this little-known slice of American history. Included in the back matter are an author's note, who's who and what's what from American history, bibliography, and further reading.
