Since their beginnings in the 1930s, Hindi films and film songs have dominated Indian public culture in India, and have also made their presence felt strongly in many global contexts. Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic. Anna Morcom addresses many of the paradoxes eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context. While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process, musical style, and commercial life, it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round. While they constitute India's still foremost genre of popular music, film songs are also situational, dramatic sequences, inherently multi-media in style and conception. This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs, song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries. Its findings lead to highly novel ways of viewing Hindi film songs, their key role in Hindi cinema, and how this affects their wider life in India and across the globe. It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema. It also forms a major contribution to popular music, popular culture, film music studies and ethnomusicology, tackling pertinent issues of cultural production, (multi-)media, and the cross-cultural use of music in Hindi cinema. The book caters for both music specialists as well as a wider audience.

This book, elucidates the basic steps called Adavus of Bharata Natyam in the traditional Pandanallur style, as taught by the revered Gurus Sri Meenakshi Sundaram Pillai and Sri Muthukumara Pillai, to Sri T.K Narayan and Smt. Jayalakshmi Narayan, parents of the author. It is an honest attempt to explain the various steps with unerring and accurate execution technique. The book offers a visual representation of the Adavus with the help of stick diagrams in a sequential manner so that the beginners and practitioners can understand the finer points of each movement. The author has developed simple schematics to show the various moves, such as jump, stretch, turn, hit etc. The author endeavours to illustrate Adavus in a precise manner in this book. Classification and categorization of each step is the salient feature of this work. Gayathri Keshavan makes a humble effort to pass on the knowledge of this ancient and sacred art to the present and future generations of Bharata Natyam dancers.

The seven letters in Naushad's name are like the seven notes of Hindustani classical music. After just a few years in films, Naushad (1919-2006) went to rule the Hindi cinema music world for around two decades, beginning with the landmark Rattan (1944). His oeuvre (from 1940 to 2005) consists of an unmatched list of jubilees, many of which are musical milestones such as Andaz (1949), Baiju Bawra (1952), Mother India (1957) and Mughal-e-Azam (1960). No individual stays supreme without putting in tremendous efforts to reach the pinnacle and to stay there as long as possible, as our maestro did. And no composer probably moved so cleverly, behind the scenes, than did Naushad to sustain his hold on the public imagination. Although we continue to marvel at the incredible variety of his mellifluous creations that have withstood the test of time, how little most of us know about Naushad the man. Renowned song historian Raju Bharatan fleshes out the real Naushad - his triumphs and tragedies - bringing into play more than 50 years of personal interaction with the tuneful titan. In the process, the author makes the book more sparking with a string of anecdotal gems. For instance: • How Naushad and his contemporaries despite their professed bonhomie, were fiercely competitive (both musically and monetarily) in their attempts to occupy the 'top spot'. • How many days of rehearsal were needed for some of the Baiju Bawara masterpieces? • How the immortal compositions of Mughal-e-Azam were recorded in a studio no better than a tin shed. This volume also throws new light on the relations and interactions between Naushad and his singers (especially Suraiya, Mohammed Rafi, Lata Mangeshkar, Asha Bhosle and Shamshad Begum); his songwriters (mainly D.N Madhok, Shakeel Badayuni and Majrooh Sultanpuri); and his 'unsung' instrumentalists (some of whom were geniuses in their own right).

Cultural Writing. Political Science. This year, the annual Sarai Reader looks at 'Acts'--at instruments of legislation, at things within and outside the law, and at 'acts'--as different ways of 'doing' things in society and culture. Several essays echo and complement themes that have emerged in earlier readers. Piracy, borders, surveillance, claims to authority and entitlement, the language of expertise, the legal regulation of sexual behaviour and trespasses of various kinds have featured prominently in previous Readers. This collection foregrounds these issues in a way we hope can make a series of coherent but autonomous and interrelated arguments.

This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

The greatest mangal kavya in worship of the great goddess The Chandimangal of Kavikankan Mukundaram Chakravarti is an exemplary work of epic scale that recounts the story of the Goddess Chandi's constant battle to establish her cult among humans. Through the three books of the kavya—The Book of the Gods, The Book of the Hunter and The Book of the Merchant—we are introduced to Chandi in all her manifestations, from the benevolent to the wrathful, from Abhaya to Chamunda. Mukundaram's captivating tales and vivid imagery bring together the enchanting world of the gods with the more challenging world of the mortals while critiquing sixteenth-century Bengali society. In his exquisite rendering of the Chandimangal, Edward Yazjian manages to capture not only the performative and humorous but also the reverent aspects of the text.
