This unique eBook edition of Algernon Blackwood's collected novels has been formatted to the highest digital standards and adjusted for readability on all devices. Algernon Blackwood (1869-1951) was an English short story writer and novelist, one of the most prolific writers of ghost stories in the history of the genre. Though Blackwood wrote a number of horror stories, his most typical work seeks less to frighten than to induce a sense of awe. Good examples are the novels *The Centaur*, which climaxes with a traveler's sight of a herd of the mythical creatures; and *Julius LeVallon* and its sequel *The Bright Messenger*, which deal with reincarnation and the possibility of a new, mystical evolution in human consciousness. Table of Contents: Jimbo: A Fantasy The Education of Uncle Paul The Human Chord The Centaur A Prisoner in Fairyland: Sequel to The Education of Uncle Paul The Extra Day Julius LeVallon The Wave The Promise of Air The Garden of Survival The Bright Messenger; Sequel to Julius LeVallon *Werner's Magazine* AuthorHouse

Shockwave: An Australian Combat Helicopter Crew in Vietnam New Holland Publishers (AU)

On the streets of Paris one day in July 1918, an American doughboy, Sgt. Jimmy Donovan, befriended a stray dog that he named Rags. No longer an unwanted street mutt, Rags became the mascot to the entire First Division of the American Expeditionary Force and a friend to the American troops who had crossed the Atlantic to fight. Rags was more than a scruffy face and a wagging tail, however. The little terrier mix was with the division at the crucial battle of Soissons, at the Saint-Mihiel offensive, and finally in the blood-and-mud bath of the Meuse-Argonne, during which he and his guardian were wounded. Despite being surrounded by distraction and danger, Rags learned to carry messages through gunfire, locate broken communications wire for the Signal Corps to repair, and alert soldiers to incoming shells, saving the lives of hundreds of American soldiers. Through it all, he brought inspiration to men with little to hope for, especially in the bitter last days of the war. From *Stray Dog* to *World War I Hero* covers Rags's entire life story, from the bomb-filled years of war through his secret journey to the United States that began his second life, one just as filled with drama and heartache. In years of peace, Rags served as a reminder to human survivors of what held men together when pushed past their limits by the horrors of battle. Watch a book trailer.

General editor Lloyd J. Ogilvie brings together a team of skilled and exceptional communicators to blend sound scholarship with life-related illustrations. The design for the Preacher's Commentary gives the reader an overall outline of each book of the Bible. Following the introduction, which reveals the author's approach and salient background on the book, each chapter of the commentary provides the Scripture to be expositied. The New King James Bible has been chosen for the Preacher's Commentary because it combines with integrity the beauty of language, underlying Hebrew and Greek textual basis, and thought-flow of the 1611 King James Version, while replacing obsolete verb forms and other archaisms with their everyday contemporary counterparts for greater readability. Reverence for God is preserved in the capitalization of all pronouns referring to the Father, Son, or Holy Spirit. Readers who are more comfortable with another translation can readily find the parallel passage by means of the chapter and verse reference at the end of each passage being expositied. The paragraphs of exposition combine fresh insights to the Scripture, application, rich illustrative material, and innovative ways of utilizing the vibrant truth for his or her own life and for the challenge of communicating it with vigor and vitality.

A curious, unusual, puzzling type of book. The story of the awakening of a London financier who, after long years spent in the amassing of a fortune, reverts to his early dream of becoming a great philanthropist. Algernon Henry Blackwood, CBE (14 March 1869 – 10 December 1951) was an English

short story writer and novelist, one of the most prolific writers of ghost stories in the history of the genre. He was also a journalist and a broadcasting narrator. S. T. Joshi has stated that "his work is more consistently meritorious than any weird writer's except Dunsany's" and that his short story collection *Incredible Adventures* (1914) "may be the premier weird collection of this or any other century."

The inside account of a financial meltdown that reshaped Wall Street In 1983, Lew Glucksman, then co-CEO of the heralded investment bank Lehman Brothers, demanded the resignation of chairman Pete Peterson, with whom he had long argued over how to manage the company. Shockingly, Peterson, who had taken charge a decade earlier and led Lehman from near collapse to record profits, agreed to step down. In this meticulously researched volume, Ken Auletta details the turmoil, infighting, and power struggles that brought about Peterson's departure and the eventual sale of one of Wall Street's oldest and most prestigious firms. Set against the backdrop of the 1980s stock exchange, where hotshot young traders made and lost millions in a single afternoon, the story of Lehman's fall is a suspenseful battle of wills between bankers, traders, and executives motivated by greed, envy, and ego. Auletta, who conducted hundreds of hours of interviews and was granted access to private company records, has crafted a thorough, enduring, and engaging account of pivotal events that continued to influence this storied financial institution until its ultimate demise in 2008.

This book addresses three Roman law principles and is based on them. It is presented in three forms, the first (Imprudentia—Dolus Malus) is a dialogue between a Caesar and his beloved praetor and is more an impressionist work on Roman legal reforms rather than a purist academic treatise. It expounds on the legal principle of Imprudentia and the consequences of unwise, injudicious, incautious, unwary, ill-considered, ill-judged, ill-conceived, impolitic, misguided, ill-advised, thoughtless, unthinking, imprudent, shortsighted, foolish, careless, hasty, overhasty, rash, reckless, heedless, foolhardy actions in the judicial sphere. The second part is based on the Latin expression "casus belli," meaning an act or event that provokes or is used to justify war and literally that which makes a case for war. A casus belli comes into play and involves direct offences against a nation, declaring the war. The poetical expressions explore the Indo-Greek myths, legends, thinking, and philosophies on a day-to-day basis in a normal Indo-Greek household, where Alexander the Great is fondly known as Sikander the Great, a Sanskrit term. The final part of the book is an academic thesis presented against the death penalty in the United States of America under the Latin maxim "Jus cogens," a principle of compelling law, norm, or philosophy from which no derogation is permitted. The paper presents the exhaustive philosophies of juris doctors (both classical, like the Roman Emperor Justinian, and modern) and why they the jurist doctors and legal scholars deem that the Death penalty must be abolished in the United States of America and the wider world.

AFTER September 11, 2001, emotions couldn't be clearly defined. There were no WORDS strong enough to justify, avenge, explain, or express the sheer magnitude of this horrifyingly unique moment in history. In this remarkable anthology, compiled by Salon.com's award-winning editorial team, Rick Moody, Janet Fitch, Caroline Knapp, and Jeffrey Eugenides join many contemporary literary talents and reporters in giving a voice to the day that left a stunning roar of silence across America. Dread, fear, heroism, and dignity color these pages from eyewitness accounts of ordinary citizens turned rescue workers, to an escape from the World Trade Center, a report on everyday New Yorkers finding comfort in "terror sex," and stories of miracles in the madness -- like that of a blind man led by his seeing-eye dog down eighty-seven flights of stairs to safety. Afterwords also probes the aftermath of the attacks on the nation and the world's cultural, political, and social fabric through writing ranging from an in-depth interview with controversial social critic Noam Chomsky, to a female Pakistani-American journalist's meeting with a Taliban leader and his wives, and essays on how sheer horror gave way to heartening solidarity, macabre spectacle, and kitschy sentimentality. Immediate, raw, emotional, and empowering, this outstanding collection speaks brilliantly to the simple need to remember and comprehend what happened against that perfect blue sky on September 11, 2001. A portion of the royalties will be donated to the Twin Towers Fund and the Red Cross's Fund for Afghan Children.

Friends called Duquesne "the best company in the world." Prison officials considered him "one of the most dangerous criminals in the United States." FBI agents hot on his trail found him "likable." At one time or another the South Africa-born soldier of fortune was a prisoner of war, explorer, African hunting adviser to Teddy Roosevelt, inventor, reporter, novelist, publicist for Joseph P. Kennedy's movie company, stockbroker, womanizer, spy, murderer, and certified lunatic. Thanks to the classic 1945 movie *The House on 92nd Street*, he is best remembered as the central figure in a ring of thirty-three Nazi spies arrested in New York City in 1941. FBI director J. Edgar Hoover called their arrest "the greatest spy roundup in U.S. history," and their trial was one of the nation's longest and most celebrated. For Duquesne, it was the end of a forty-year adventure.

Welcome to Pop Culture 2.0. In the 2000s, Generation eXposure, emerged from the marriage of new technology and the nation's obsession with celebrity. Social media technology, such as MySpace, YouTube, Facebook, and countless blogs, gave everyman a voice and a public persona that they could share with friends across the street or around the world. Suddenly, it was not enough to imitate Britney Spears or Paris Hilton, technology gave everyone a platform to launch their own 15 minutes of fame. The fixation on self and celebrity acted as a diversion from more serious challenges the nation faced, including President George W. Bush's War on Terror. The wars overseas sharply divided the country, after a moment of national unity after the terrorist attacks on 9/11, which took away one of the world's most recognizable buildings. The era witnessed interest rates dropping to historic lows, but later subprime became one of the most searched terms on Google as the nation teetered on recession. Big was in like never before and suddenly people nationwide could buy or build their own McMansion-a slice of the American dream. While supersized homes and fast food meals became commonplace, the electronics and transportation advances proved that good things came in increasingly smaller packages. Apple's iPod reinvented how people interacted with music, hybrids changed thoughts on fuel efficiency as a gallon of gas topped \$3. Cell phones usage ballooned in our always on society, while physically shrinking to the size of a deck of cards. Yes, me-centric Pop Culture 2.0, which the pundits predicted would some day arrive, burst onto the scene and ultimately transformed the way we interact with one another and the world around us. Chapters inside the latest volume in the American Popular Culture Through History series explore various aspects of popular culture, including advertising, literature, leisure activities, music visual arts, and travel. Supplemental resources include a timeline of important events, cost comparisons, and an extensive bibliography for further reading.
