Haynes Publishing  
This is a print on  
demand edition of a  
hard to find  
publication. Explores  
whether sufficient data  
exists to examine the  
temporal and spatial  
relationships that  
existed in terrorist  
group planning, and if  
so, could patterns of  
preparatory conduct be  
identified? About one-  
half of the terrorists  
resided, planned, and  
prepared for terrorism  
relatively close to their  
eventual target. The  
terrorist groups existed  
for 1,205 days from the

first planning meeting  
to the date of the  
actual/planned terrorist  
incident. The planning  
process for specific  
acts began 2-3 months  
prior to the terrorist  
incident. This study  
examined selected  
terrorist  
groups/incidents in the  
U.S. from 1980-2002. It  
provides for the  
potential to identify  
patterns of conduct  
that might lead to  
intervention prior to  
the commission of the  
actual terrorist  
incidents. Illustrations.

Published in the USA  
under the same title in  
1951 by Floyd Clymer,  
the original publication  
was a pocket sized  
landscape format book

and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable

reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide. *WALNECK'S CLASSIC CYCLE TRADER, JULY 1995* Causey Enterprises, LLC Popular Mechanics
