Bringing together a diverse chorus of voices and experiences in the pursuit of collective bodily, emotional, and spiritual liberation, *Practicing Yoga as Resistance* examines yoga as it is experienced across the Western cultural landscape through an intersectional, feminist lens. Naming the systems of oppression that permeate our lived experiences, this collection and its contributors shine a light on the ways yoga practice is intertwined with these systems while offering insight into how people challenge and creatively subvert, mitigate, and reframe them through their efforts. From the disciplines of yoga studies, embodiment studies, women's and gender studies, performance studies, educational studies, social sciences, and social justice, the self-identified women, queer, BIPOC, and White allies represented in this book present an interdisciplinary tapestry of scholarship that serves to add depth to a growing assemblage of yoga literature for the 21st century.

When Joseph and Phebe Fessenden came to the peaceful village of South Bridgton, Maine to serve the newly founded Congregational church in 1829, they soon found themselves embroiled in controversy over the abolition of slavery and the evils of "demon rum." Tempers ran high and Parson Joe often found himself running counter to public opinion. Mobs threatened him with tar and feathers, cannonballs, and kidnapping. Still, he stood tall and fought tirelessly for the rights of all those who lived in chains beneath freedom's wing.

The Case for Hope W. W. Norton

"Hope and insight and empathy spring from every page. . . . [McKesson] stares down the faces of bigotry and unfreedom and cynicism and doesn't flinch in writing out our marching orders toward freedom." --Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* From the internationally recognized civil rights activist/organizer and host of the podcast *Pod Save the People*, a meditation on resistance, justice, and freedom, and an intimate portrait of a movement from the front lines. In August 2014, twenty-nine-year-old activist DeRay

Mckesson stood with hundreds of others on the streets of Ferguson, Missouri, to push a message of justice and accountability. These protests, and others like them in cities across the country, resulted in the birth of the Black Lives Matter movement. Now, in his first book, McKesson lays down the intellectual, pragmatic, and political framework for a new liberation movement. Continuing a conversation about activism, resistance, and justice that embraces our nation's complex history, he dissects how deliberate oppression persists, how racial injustice strips our lives of promise, and how technology has added a new dimension to mass action and social change. He argues that our best efforts to combat injustice have been stunted by the belief that racism's wounds are history, and suggests that intellectual purity has curtailed optimistic realism. The book offers a new framework and language for understanding the nature of oppression. With it, we can begin charting a course to dismantle the obvious and subtle structures that limit freedom. Honest, courageous, and imaginative, *On the Other Side of Freedom* is a work brimming with hope. Drawing from his own experiences as an activist, organizer, educator, and public official, McKesson exhorts all Americans to work to dismantle the legacy of racism and to imagine the best of what is possible. Honoring the voices of a new generation of activists, *On the Other Side of Freedom* is a visionary's call to take responsibility for imagining, and then building, the world we want to live in.

Winner, 2007 Tankard Award In March of 1827 the nation's first black newspaper appeared in New York City--to counter attacks on blacks by the city's other papers. From this signal event, *The African American Newspaper* traces the evolution of the black newspaper--and its ultimate decline--for more than 160 years until the end of the twentieth century. The book chronicles the growth of the black press into a powerful and effective national voice for African Americans during the period from 1910 to 1950--a period that proved critical to the formation and gathering strength of the civil rights movement that emerged so forcefully in the following decades. In particular, author Patrick S. Washburn explores how the *Pittsburgh Courier* and the *Chicago Defender* led the way as the two most influential black newspapers in U.S. history, effectively setting the stage for the civil rights movement's successes. Washburn also examines the numerous

reasons for the enormous decline of black newspapers in influence and circulation in the decades immediately following World War II. His book documents as never before how the press's singular accomplishments provide a unique record of all areas of black history and a significant and shaping affect on the black experience in America.

Your Choice, Your Voice, Our Future What I am offering Maine is nothing like what others who have run for this position have offered. I have never wanted someone to be my voice, and I do not offer to be yours. I am using this opportunity to shine light on the system that creates a stage for elites and keeps everyone else from having a voice. I am running for Governor of Maine to educate, and if we win, I am smashing the stage so everyone may have their voice heard equally. Our system is disenfranchising, falsely binary, oppressive, and fraught with contention and

slavery. We can rise against this or we can continue on the same path. It has been the result of the American system that generation after generation left this nation (and the world) freer and more prosperous than the last. We cast off race-based slavery, we have destroyed the notion that one gender should rule while the other obeys, we had built a nation of rights and freedom... but, we have backslidened. Our nation is not better off than it was a generation ago. We are in unprecedented debt, have resurfaced racism and sexism, we have instilled a class warfare, and we are being oppressed by fascism and authoritarians. Generation X and Millennials have less opportunity, less ability to grow and flourish, and less unity than our grandparents. We have been slowly taken over by a rotting infestation of cronies, puppet masters, propogandists, and dictators. As our nations becomes more centralized, Maine can stand in opposition. We have an opportunity to demonstrate what America has lost. Maine has strong educators, doctors, nurses, social workers, counselors, laborers of all types, and most respectably, we have strong work and moral ethics. Our State has diversity and a will to surpass obstacles and be reveled across the nation and world. We need the will to see an opportunity through the despair. By continuing what we do best, by growing rather than contracting, by embracing innovation and adaptation rather than antiquity and failed ideas, we can guide America back to prosperity. Maine can be the economic engine of tomorrow's America. Through this book, we have covered Education, Healthcare, ideological spectrums, Corrections, Rehabilitation, Culture, Community, politics, Economics, Energy, business, debt, governance, and a slew of other topics. Through this journey, we have delved into what keeps us from growth, how we can overcome oppressing obstruction, and what we could do to drop the shackles and pick up prosperous freedom. Reaching a better future for everyone takes change. Change is not always easy; change is often coupled with fear. We need not fear the future and change when we can be so positively impacted. When we decide to swallow our fear and move toward a better future, we will be unstoppable. I am applying for a job: the executive position of our State of Maine. This is your choice, your voice, our future. Richard Lee Light
