 Islam
DEVIL'S GAME
 is the first
 comprehensiv

e account of America's misguided efforts, stretching across decades, to dominate the strategically vital Middle East by courting and cultivating Islamic fundamentalism. Drawing on extensive archival research and interviews with dozens of policy makers and CIA, Pentagon and foreign service officials, Dreyfuss follows the trail of American collusion from support for

the Muslim Brotherhood in 1950s Egypt, to links with Khomeini and Afghani jihadists, to longstanding ties between radical Islamists and leading Western banks. **Vodou, Power, and Performance in Haiti and Its Diaspora** Oxford University Press, USA Assesses the roots and impact of global terrorism, including the United States' ability to address the Middle East

challenge and fault lines in terrorist ideology, outlining conditions for acceptance of Israel and democratization of Islamist and Arab societies. [The Trail of Political Islam](#) Columbia University Press Some Islamic scholars hold that Salafism is an innovative and rationalist effort at Islamic reform that emerged in the late nineteenth century but gradually disappeared in the mid twentieth.

Others argue Salafism is an anti-innovative and antirationalist movement of Islamic purism that dates back to the medieval period yet persists today. Though they contradict each other, both narratives are considered authoritative, making it hard for outsiders to grasp the history of the ideology and its core beliefs. Introducing a third, empirically based genealogy, *The Making of*

Salafism understands the concept as a recent phenomenon projected back onto the past, and it sees its purist evolution as a direct result of decolonization. Henri Lauzière builds his history on the transnational networks of Taqi al-Din al-Hilali (1894–1987), a Moroccan Salafi who, with his associates, participated in the development of Salafism as both a term and a movement.

Traveling from Rabat to Mecca, from Calcutta to Berlin, al-Hilali interacted with high-profile Salafi scholars and activists who eventually abandoned Islamic modernism in favor of a more purist approach to Islam. Today, Salafis tend to claim a monopoly on religious truth and freely confront other Muslims on theological and legal issues. Lauzière's pathbreaking history recognizes the

social forces behind this purist turn, uncovering the popular origins of what has become a global phenomenon. Politics, Charity, and Terrorism in the Service of Jihad Cambridge University Press
 The most authoritative anthology of Islamist texts
 This anthology of key primary texts provides an unmatched introduction to Islamist political thought from the early twentieth century to the

present, and serves as an invaluable guide through the storm of polemic, fear, and confusion that swirls around Islamism today.
 Roxanne Euben and Muhammad Qasim Zaman gather a broad selection of texts from influential Islamist thinkers and place these figures and their writings in their multifaceted political and historical contexts. The selections presented

here in English translation include writings of Ayatollah Khomeini, Usama bin Laden, Muslim Brotherhood founder Hasan al-Banna, and Moroccan Islamist leader Nadia Yassine, as well as the Hamas charter, an interview with a Taliban commander, and the final testament of 9/11 hijacker Muhammad Ata.
 Illuminating the content and political appeal of Islamist thought, this anthology

brings into sharp relief the commonalities in Islamist arguments about gender, democracy, and violence, but it also reveals significant political and theological disagreements among thinkers too often grouped together and dismissed as extremists or terrorists. No other anthology better illustrates the diversity of Islamist thought, the complexity of its intellectual and political

contexts, or the variety of ways in which it relates to other intellectual and religious trends in the contemporary Muslim world. *WBCN and the American Revolution* Oxford University Press How has ISIS been able to muster support far beyond its initial constituency in the Arab world and attract tens of thousands of foreign volunteers, including converts to Islam, and

seemingly countless supporters online? In this compelling intervention into the debate about ISIS' origins and future prospects, the renowned French sociologist, Olivier Roy, argues that while terrorism and jihadism are familiar phenomena, the deliberate pursuit of death has produced a new kind of radical violence. In other words, we're facing not a radicalization

of Islam, but the Islamization of radicalism. Jihad and Death is a concise dissection of the highly sophisticated narrative mobilised by ISIS: the myth of the Caliphate recast into a modern story of heroism and nihilism. According to Roy, this very contemporary aesthetic of violence is less rooted in the history of Islamic thought than it is entrenched in a youth culture that

has turned global and violent. **Hamas** Oxford University Press Now updated and in paperback, the gripping story of how-- and against what odds-- the perpetrators of Balkan genocide were subjected to the most successful manhunt in history. Written with a thrilling narrative pull, *The Butcher's Trail* chronicles the pursuit and capture of the Balkan war

criminals indicted by the International Criminal Tribunal for the former Yugoslavia in The Hague. Borger recounts how Ratko Mladić-- now on trial in The Hague-- and recently convicted Radovan Karadžić were finally tracked down, and describes the intrigue behind the arrest of Slobodan Milošević, the Yugoslav president who became the first head of state to stand before an

international tribunal for crimes perpetrated in a time of war. Based on interviews with former special forces soldiers, intelligence officials, and investigators from a dozen countries--most speaking about their involvement for the first time--this book reconstructs a fourteen-year manhunt carried out almost entirely in secret. Indicting the worst war criminals that Europe had

known since the Nazi era, the ICTY ultimately accounted for all 161 suspects on its wanted list, a feat never before achieved in political and military history. **Islamic Reform in the Twentieth Century** Princeton University Press The electrifying Pike Logan series continues as the Taskforce—a top secret team that exists outside

the bounds of U.S. law—races to stop a terrorist hit.... A shadowy trail leads the Taskforce to Egypt—where an attack leaves one member dead and another barely alive. Veteran warrior Pike Logan and his young partner, Jennifer Cahill, are forced to helm the increasingly convoluted and dangerous mission: a mission that tests both Jennifer's ability to justify her

actions, and Pike's tenuous ability to stay in control. Sifting their way through the opposing plots of two terrorist organizations will turn out to be the least of their problems when a weapon of unthinkable power touches American soil—the only country in which Taskforce members are forbidden to operate, and the only country that Pike Logan may be unable to save....
Jihad

Princeton University Press
Kepel urges us to escape the ideological quagmire of terrorism and martyrdom and explore the terms of a new and constructive dialogue between Islam and the West. This book sounds the alarm to the West and to Islam that both of these exhausted narratives are bankrupt—neither productive of democratic change in the Middle East nor of unity in Islam.

Beyond Jihad
Penguin
How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played

music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously

illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air interviewees ranged from John and Yoko to Noam

Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven

*Online
Communication and Violent
Extremism*
Belknap Press
Since at least
the attacks of
September 11,
2001, one of
the most
pressing
political
questions of
the age has
been whether
Islam is hostile
to religious
freedom.
Daniel Philpott
examines

conditions on
the ground in
forty-seven
Muslim-
majority
countries
today and
offers an
honest, clear-
eyed answer
to this urgent
question. It is
not, however,
a simple
answer. From
a satellite
view, the
Muslim world
looks unfree.
But, Philpott
shows, the
truth is much
more
complex.
Some one-
fourth of
Muslim-
majority
countries are
in fact
religiously
free. Of the

other
countries,
about forty
percent are
governed not
by Islamists
but by a
hostile
secularism
imported from
the West,
while the
other sixty
percent are
Islamist. The
picture that
emerges is
both honest
and hopeful.
Yes, most
Muslim-
majority
countries are
lacking in
religious
freedom. But,
Philpott
argues, the
Islamic
tradition
carries within
it "seeds of

freedom," and he offers guidance for how to cultivate those seeds in order to expand religious freedom in the Muslim world and the world at large. It is an urgent project. Religious freedom promotes goods like democracy and the advancement of women that are lacking in the Muslim-majority world and reduces ills like civil war, terrorism, and violence. Further, religious freedom is

simply a matter of justice--not an exclusively Western value, but rather a universal right rooted in human nature. Its realization is critical to the aspirations of religious minorities and dissenters in Muslim countries, to Muslims living in non-Muslim countries or under secular dictatorships, and to relations between the West and the Muslim world. In this thoughtful book, Philpott

seeks to establish a constructive middle ground in a fiery and long-lasting debate over Islam.

Religious Freedom in Islam St.

Martin's Press
The Middle East is one of the world's most volatile regions. In recent years, from the optimism and then crushing disappointment of the Arab uprisings through the rise and fall of the Islamic State, it has presented key international security challenges.

With the resilient jihadi terror threat, large-scale migration due to warfare and climate change, and fierce competition for control over oil, it promises to continue to be a powder keg. What ignited this instability? Away from Chaos is a sweeping political history of four decades of Middle East conflict and its worldwide ramifications. Gilles Kepel, called "France's most famous

scholar of Islam" by the New York Times, offers a clear and persuasive narrative of the long-term causes of tension while seamlessly incorporating on-the-ground observations and personal experiences from the people who lived through them. From the Yom Kippur/Ramad an war of 1973 to the aftermath of the Arab Spring, Away from Chaos weaves together the various threads that

run through Middle East politics and ties them to their implications on the global stage. With keen insight stemming from decades of experience in the region, Kepel puts these chaotic decades in perspective and illuminates their underlying dynamics. He also considers the prospects of emerging from this long-lasting turmoil and for the people of the Middle East and the world to achieve a

more stable future.

Why Jihad Went Global

MIT Press

In this authoritative book, Malise Ruthven provides an analysis of the events of September 11 in America. He discusses the role of the global market and examines the tangled web of grievances that formed the substance of the bombers' complaints.

How Jihad is Winning Over Democracy in the West

Princeton University

Press

The internet offers tremendous opportunities for violent extremists across the ideological spectrum and at a global level. In addition to propaganda, digital technologies have transformed the dynamics of radical mobilisation, recruitment and participation. Even though the jihadist threat has seemingly declined in the West, the danger exists of the internet

being an environment where radical messages can survive and even prosper. Against this background, this ISPI report investigates the current landscape of jihadist online communication, including original empirical analysis. Specific attention is also placed on potential measures and initiatives to address the threat of online violent extremism. The volume aims to present important

points for reflection on the phenomenon in the West (including Italy) and beyond.

Islam and the Challenge of Democracy

Macmillan
This insightful, on-the-ground narrative looks at how radical Islam is affecting our society and how our own response is endangering the very democratic values we have hoped to spread around the world—and preserve at

home. *
Includes interviews with experts and government officials and information from intelligence and government reports *
Details important interactions between the author and key figures in the international struggle to resolve the current "clash of civilizations"
How the 9/11 Era Destabilized America and Produced Trump

Columbia University Press
Over the course of the last 1400 years, Islam has grown from a small band of followers on the Arabian peninsula into a global religion of over a billion believers. How did this happen? The usual answer is that Islam spread by the sword - that believers waged jihad against rival tribes and kingdoms and forced them to convert.
Lamin Sanneh

argues that this is far from the case. Beyond Jihad examines the origin and evolution of the Muslim African pacifist tradition, beginning with an inquiry into Islam's beginnings and expansion in North Africa and its transmission across trans-Saharan trade routes to West Africa. The book focuses on the ways in which, without jihad, the religion spread and took hold, and what that assimilation

process means for understanding the nature of religious and social change. At the heart of this process were clerics who used educational, religious, and legal scholarship to promote Islam. Once this clerical class emerged it offered continuity and stability in the midst of political changes and cultural shifts; it helped inhibit the spread of radicalism, and otherwise shall

enged it in specific jihad outbreaks. With its roots in the Mali Empire and its policy of religious and inter-ethnic accommodation, and going beyond routes and kingdoms, pacifist teaching tracked a cumulative pathway for Islam in remote districts of the Mali Empire by instilling a patient, Sufi-inspired, and jihad-negating impulse into religious life and practice. Islam was successful in Africa, the

book argues, not because of military might but because it was made African by Africans who adapted it to a variety of contexts.

A Boston Review Book

Lynne Rienner Publishers
A chronicle of Mexico's war for independence explains how the conflict's revolutionaries were more intent on implementing social reforms than achieving political independence, in an account that also examines the roles of Miguel

Hidalgo and José María Morelos.
The Making of Salafism
Grand Central Publishing
Trail of the Tiger tracks the personal and political journey of Uddhav Balasaheb Thackeray against the backdrop of the changing narrative of Hindutva, and new connotations to Hindutva's subnational plot, with the rise of Prime Minister Narendra Modi as a new Hindu Hriday Samrat. The trail of Uddhav

Thackeray from a professional advertising photographer to Maharashtra's Chief Minister is not just his story. It is the story of saffron 'tiger' Balasaheb Thackeray's own family Mahabharata for political power and legacy that left the patriarch helpless during his sunset years. It is the story of one of the biggest upheavals in Indian politics where breaking a 30-year-old

alliance with the Bharatiya Janata Party (BJP), the Shiv Sena joined Sonia Gandhi's camp, holding Sharad Pawar's finger. It is also the story of the Rashtriya Swayamsevak Sangh's (RSS) dilemma to deal with the tug of war in the Hindutva camp. Based on news analysis, Trail of the Tiger unpacks media content and explores intertextuality to bring readers the authentic account of the Shiv Sena's

saffron to secular trajectory under the leadership of Uddhav Balasaheb Thackeray. *Princeton Readings in Islamist Thought* ePenguin The first comprehensive textbook on political psychology, this user-friendly volume explores the psychological origins of political behavior. Using psychological concepts to explain types of political behavior, the

authors introduce a broad range of theories and cases of political activity to illustrate the behavior. The book examines many patterns of political behaviors including leadership, group behavior, voting, race, ethnicity, nationalism, political extremism, terrorism, war, and genocide. Text boxes highlight current and historical events to help students see the

connection between the world around them and the concepts they are learning. Examples highlight a variety of research methodologies used in the discipline such as experimentation and content analysis. The "Political Being" is used throughout to remind the reader of the psychological

theories and concepts to be explored in each chapter. Introduction to Political Psychology explores some of the most horrific things people do to one another for political purposes, as well as how to prevent and resolve conflict, and how to recover from it. The goal is to help the reader understand the enormous

complexity of human behavior and the significant role political psychology can play in improving the human condition. Designed for upper division courses on political psychology or political behavior, this volume also contains material of interest to those in the policymaking community.
