From the legendary author of *Things Fall Apart* comes a long-awaited memoir about coming of age with a fragile new nation, then watching it torn asunder in a tragic civil war The defining experience of Chinua Achebe's life was the Nigerian civil war, also known as the Biafran War, of 1967-1970. The conflict was infamous for its savage impact on the Biafran people, Chinua Achebe's people, many of whom were starved to death after the Nigerian government blockaded their borders. By then, Chinua Achebe was already a world-renowned novelist, with a young family to protect. He took the Biafran side in the conflict and served his government as a roving cultural ambassador, from which vantage he absorbed the war's full horror. Immediately after, Achebe took refuge in an academic post in the United States, and for more than forty years he has maintained a considered silence on the events of those terrible years, addressing them only obliquely through his poetry. Now, decades in the making, comes a towering reckoning with one of modern Africa's most fateful events, from a writer whose words and courage have left an enduring stamp on world literature. Achebe masterfully relates his experience, both as he lived it and how he has come to understand it. He begins his story with Nigeria's birth pangs and the story of his own upbringing as a man and as a writer so that we might come to understand the country's promise, which turned to horror when the hot winds of hatred began to stir. To read *There Was a Country* is to be powerfully reminded that artists have a particular obligation, especially during a time of war. All writers, Achebe argues, should be committed writers—they should speak for their history, their beliefs, and their people. Marrying history and memoir, poetry and prose, *There Was a Country* is a distillation of vivid firsthand observation and forty years of research and reflection. Wise, humane, and authoritative, it will stand as definitive and reinforce Achebe's place as one of the most vital literary and moral voices of our age.

Journalist Walls grew up with parents whose ideals and stubborn

nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. --From publisher description.

Among the Ibos of Nigeria Vintage

Chinua Achebe is Africa's most prominent writer, the author of *Things Fall Apart*, the best known--and best selling--novel ever to come out of Africa. His fiction and poetry burn with a passionate commitment to political justice, bringing to life not only Africa's troubled encounters with Europe but also the dark side of contemporary African political life. Now, in *Home and Exile*, Achebe reveals the man behind his powerful work. Here is an extended exploration of the European impact on African culture, viewed through the most vivid experience available to the author--his own life. It is an extended snapshot of a major writer's childhood, illuminating his roots as an artist. Achebe discusses his English education and the relationship between colonial writers and the European literary tradition. He argues that if colonial writers try to imitate and, indeed, go one better than the Empire, they run the danger of undervaluing their homeland and their own people. Achebe contends that to redress the inequities of global oppression, writers must focus on where they come from, insisting that their value systems are as legitimate as any other. Stories are a real source of power in the world, he concludes, and to imitate the literature of another culture is to give that power away. *Home and Exile* is a moving account of an exceptional life. Achebe reveals the inner workings of the human conscience through the predicament of Africa and his own intellectual life. It is a story of the triumph of mind, told in the words of one of this century's most gifted writers.

A Guide to the Project Management Body of Knowledge (PMBOK® Guide) - Seventh Edition and The Standard for Project Management (RUSSIAN) Project Management Institute Seminar paper from the year 2002 in the subject English - Literature, Works, grade: A (USA = 1), Southern Connecticut State University (English Department), course: The Contemporary African Novel, language: English, abstract: [...] *Things Fall Apart* is a story about personal beliefs and customs and also a story about conflict. There is struggle between family, culture, and religion of the Igbo people which is all brought on by a difference in personal beliefs and customs. Finally, we see how things fall apart when these beliefs and customs are confronted by those of the white missionaries. According to Ernest N. Emenyonu, *Things Fall Apart* is a classic study of crosscultural misunderstanding and the consequences to the rest of humanity, when a belligerent culture or civilization, out of sheer arrogance and ethnocentrism, takes it upon itself to invade another culture, another civilization (p.84). Chinua Achebe is a product of both, native African and European culture. Achebe's education in English and exposure to European customs have allowed him to capture at the same time the European and the African perspectives on colonial expansion, religion, race, and culture. This has a great effect on the composition of the novel because he is able to tell the story with an understanding and personal experiences in both cultures. He does not portray the African culture and their beliefs as barbaric. He simply tells it as it is and how things happened. Chinua Achebe states that neither of the cultures were bad, but they simply had a difference in beliefs. In the first section of this paper I would like to outline some important aspects of the traditional Igbo culture as presented in *Things Fall Apart*. Achebe argues that the white

man has destroyed Igbo culture out of ignorance of the people's way of life and the white man's inability to speak the people's language. The second section deals with Christianity and the colonizers. I will compare the Igbo systems to a certain extent to the new system the white man brought to Nigeria. Later on, I will examine the effects of the colonizers' arrival and their religion on the indigenous culture, giving special attention to Okonkwo, the main character of the novel.

Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

From the renowned author of *The African Trilogy*, a political satire about an unnamed African country navigating a path between violence and corruption As Minister for Culture, former school teacher M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. When Odili, an idealistic young teacher, visits his former instructor at the ministry, the division between them is vast. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts—and the two men's personal and political tauntings threaten to send their country into chaos. When Odili launches a vicious campaign against his former mentor for the same seat in an election, their mutual animosity drives the country to revolution. Published, prophetically, just days before Nigeria's first attempted coup in 1966, *A Man of the People* is an essential part of Achebe's body of work.

This textbook provides a basic understanding of the formative processes of igneous and metamorphic rock through quantitative applications of simple physical and chemical principles. The book encourages a deeper comprehension of the subject by explaining the petrologic principles rather than simply presenting the student with petrologic facts and terminology. Assuming knowledge of only introductory college-level courses in physics, chemistry, and calculus, it lucidly outlines mathematical derivations fully and at an elementary level, and is ideal for intermediate and advanced courses in igneous and metamorphic petrology. The end-of-chapter quantitative problem sets facilitate student learning by working through simple applications. They also introduce several widely-used thermodynamic software programs for calculating igneous and metamorphic phase equilibria and image analysis software. With over 350 illustrations, this revised edition contains valuable new material on the structure of the Earth's mantle and core, the properties and behaviour of magmas, recent results from satellite imaging, and more.

One of the most provocative and original voices in contemporary literature, Chinua Achebe here considers the place of literature and art in our society in a collection of essays spanning his best writing and lectures from the last twenty-three years. For Achebe, overcoming goes hand in hand with eradicating the destructive effects of racism and injustice in Western society. He reveals the impediments that still stand in the way of open, equal dialogue between Africans and Europeans, between blacks and whites, but also instills us with hope that they will soon be overcome.
