Campaigns on the Cutting Edge evaluates the current trends of today's campaigns and assesses the innovative changes these well-tuned organizations are making on the presidential, congressional, and gubernatorial levels. As technology now allows candidates to announce their candidacies online, raise money through web fundraising, and mobilize supporters via smartphones, these increasingly mobile and integrated campaigns face the growing influence of outside interests. In

the thoroughly updated Third Edition, author Richard J. Semiatin looks at the 2016 election and focuses on the growth of super PACs, the role of big data in campaigns, voter identification laws and their impact, and the ways in which technology increases the volume of information that campaigns use.
