YOSELIN MOONEY

Teaching Adult English Language Learners
Cambridge University Press

This highly successful text has long been considered the standard introduction to the practical analysis of English sentence structure. It covers key concepts such as constituency, category and functions, and also utilises tree diagrams throughout to help the reader visualise the structure of sentences. In this fourth edition, *Analysing Sentences* has been thoroughly revised and now features a brand new companion website with additional activities and exercises for students and an answer book for the in-text exercises for professors. The extra activities on the website give students practice in identifying syntactic phenomena in running text and will help to deepen understanding of this topic. Accessible and clear, this book is the perfect textbook for readers coming to this topic for the first time. Featuring many in-text, end-of-chapter and Further Exercises, it is suitable for self-directed study as well as for use as core reading on courses.

English Around the World Routledge
Introducing English for Specific Purposes presents the key concepts and practices of ESP in a modern, balanced, and comprehensive way. This book defines ESP and shows how the approach plays a crucial role in the world of English language teaching. Explaining how needs analysis, language and learning objectives, materials and methods, and evaluation combine to form the four main pillars of ESP, the book includes: practical examples that illustrate how the core theories and practices of ESP can be applied in real-world academic and occupational settings; discussion of some of the most hotly debated issues in ESP; insights on how ESP courses can be organized and integrated to form a complete program; reflection boxes, practical tasks, extension research questions, and resources for further reading in each chapter. *Introducing English for Specific Purposes* serves as an ideal textbook for graduate and advanced undergraduate students studying courses

on English for Specific Purposes or English for Academic Purposes, as part of degrees in English for Specific Purposes, Education, ELT, Applied Linguistics, TESOL or TEFL. This comprehensive publication is also an invaluable reference resource for pre-service and in-service teachers of ESP, and for English program managers and administrators.

English Grammar Routledge

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings – all in the same volume. The innovative and flexible ‘two-dimensional’ structure is built around four sections – introduction, development, exploration and extension – which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. *Introducing English Language*: is the foundational book in the Routledge English Language Introductions series, providing an accessible introduction to the English language contains newly expanded coverage of morphology, updated and revised exercises, and an extended Further Reading section comprehensively covers key disciplines of linguistics such as historical linguistics, sociolinguistics and psycholinguistics, as well as core areas in language study including acquisition, standardisation and the globalisation of English uses a wide variety of real texts and images from around the world, including a Monty Python sketch, excerpts from novels such as Virginia Woolf’s *To the Lighthouse*, and news items from Metro and the BBC provides updated classic readings by the key names in the discipline, including Guy Cook, Andy Kirkpatrick and Zoltán Dörnyei is accompanied by a website with extra activities, project ideas for each unit, suggestions for further reading, links to

essential English language resources, and course templates for lecturers. Written by two experienced teachers and authors, this accessible textbook is an essential resource for all students of the English language and linguistics.

The Earliest English Routledge

Provides students with an engaging and thorough overview of the history of Spanish and its development from Latin.

Discovering Grammar Cambridge
University Press

English Language Arts offers both undergraduates and starting-graduate students in education an introduction to the connections that exist between language arts and a critical orientation to education. Because language influences all aspects of education, English teachers have a unique responsibility to create opportunities for learners to cultivate literacy practices that will empower them to reach their potential. Applying critical and theoretical perspectives to teaching English language arts, this primer considers how meanings are made in intersecting spaces of learners, teachers, and texts. Julie Gorlewski shows future and current teachers how critical English language arts education can be put into practice with concrete strategies and examples in both formal and informal educational settings. With opportunities for readers to engage in deeper discussion through suggested activities, English Language Arts’ pedagogical features include: Model Classroom Scenarios Extension Questions Glossary of Key Terms

The Great Pronoun Shift Routledge

An Introduction to Middle English combines an elementary grammar of the English language from about 1100 to about 1500 with a selection of texts for reading, ranging in date from 1154 to 1500. The grammar includes the fundamentals of orthography, phonology, morphology, syntax, regional dialectology, and prosody. In the thirty-eight texts for reading are represented a wide range of Middle English dialects, and the commentary on each text includes, in addition to explanatory notes, extensive linguistic analysis. The book includes many useful figures and illustrations, including images of Middle English

manuscripts as an aid to learning to decipher medieval handwriting and maps indicating the geographical extent of dialect features. This introduction to Middle English is based on the latest research, and it provides up-to-date bibliographical guidance to the study of the language.

An Introduction to the Grammar of English Addison Wesley Publishing Company

This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

An Introduction to English Morphology. A Textbook for Advanced University Students of Linguistics

Oxford University Press, USA

This grammar-based text is designed for ESL/EFL students in college/adult programs and for those at the upper-secondary level. -- Contextualized grammar activities for individuals, pairs, and groups -- Practice with pronunciation, dictation, cloze exercises, and TOEFL "RM"-like review quizzes

A Student's Introduction to English

Grammar John Benjamins Publishing

This textbook for college courses in advanced grammar, structures of English, English syntax, and introduction to English language is written for the general student.

The History of Spanish Cambridge University Press

This booklet is intended as a guide into the world of basic English Phonology. Part 1 of the booklet is dedicated to some general consideration about the status of English as International, global language and about the mechanism through which languages are acquired. This part includes some of the author's considerations

regarding the importance of learning Phonology in order to stand out from the crowd of mediocre English speakers, in order to understand and be understood in the real world, outside the classroom. Part 2 is dedicated to Intonation, with explanation of concepts, mechanisms, examples and tips. This part, together with Part 3, although explained without the use of technical language, requires attention and often re-reading, due to its complexity, dealing with factors that are natural for native speakers, but need resetting when studying a second language. Part 3 deals with Pronunciation, with a basic explanation of the British Phonemic Chart, Consonants and Vowels and the final part dedicated to the most difficult and unfamiliar sound of the English Language. This booklet is the ideal tool for those adult students who need to take the level of their English to a higher level and enjoy the benefits of it in their environment, might that be work, study or any other personal aim. Moreover, it may function as an orientation guide for some English Teachers, facing the challenge of Phonology classes.

An Introduction to English Grammar Routledge

"In a sense, you already know English grammar. You must, in some unconscious way, if you're reading this. But being able to do something is different from understanding exactly what's being done. Knowing how to walk isn't the same as appreciating the anatomy of the human leg. The study of grammar involves developing an explicit account of how sentences are put together"--
Making Sense of "Bad English" Anchor Academic Publishing

CD contains: selection of listening tasks from the class audio program.

A Student's Introduction to English Grammar Cambridge University Press

An Introduction to English grammar provides a comprehensive overview of all aspects of English grammar, and can be used in the classroom, for self-study, or as a reference book. The book is organised in two parts - on grammar and its applications - and provides everything a beginning student needs to get to grips with the theory and practice of English usage, including sections on style, punctuation and spelling. This third edition has been fully revised and updated to include an expanded section on English in Use, usage notes highlighting common errors, updated exercises, a glossary and a companion website with further graded exercises.

English Grammar & Composition Very Useful for All Competitive

Examinations Cambridge University Press

This new edition of a successful text has been thoroughly revised to make it even more accessible to those without any prior grammatical knowledge. There is greater discussion and exemplification of key terms, while essential topics are now fully introduced at the outset. There are also new sections, more diagrams and shaded boxes.

English Words and Sentences

Cambridge University Press

This grammar for the 21st century combines clear grammatical principles with non-technical explanations of all terms and concepts used.

A New English Grammar, Logical and Historical: Syntax Routledge

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. This book provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and verbal legal communication in typical legal situations in a straightforward manner. In addition to chapters on the grammar and punctuation utilised in legal writing, the book features sections on contract-drafting and the language used in negotiations, meetings and telephone conversations. It features a companion website which contains exercises covering the majority of the topics covered in the book's chapters. This edition thoroughly revises and expands the content of the companion website and contains updated examples, more detailed explanations of problematic areas and an expanded section on writing law essays.

International Legal English Cambridge University Press

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called

'incorrect' and show why those authorities are mistaken. This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in

English language and literature departments and schools of education. Introducing English Language Routledge
A new edition of the ground-breaking undergraduate textbook on modern Standard English grammar, now completely rewritten and updated.

Introduction to Linguistics : For

Students of English as a Foreign Language Broadview Press
This textbook introduces basic concepts of grammar in a format which should encourage readers to use linguistic arguments. It focuses on syntactic analysis and evidence. It also looks at sociolinguistic and historical reasons behind prescriptive rules.
