CHRISTINE DECKER

With Explanatory Answers PasTest Ltd

This book is based on the 22nd edition of Bailey & Love's Short Practice of Surgery (published in 1995) and repeats the format of previous successful editions. As well as providing a rich source of MCQs for examination practice, the book can be used as a companion to the main text to reinforce and clarify understanding of all areas of surgery; the questions have been rearranged specifically to facilitate this. The book provides a stimulus to both undergraduate and postgraduate students of surgery to broaden their understanding of the subject by testing factual knowledge and measuring progress against a standard set of questions.

General Surgery, with Wiley E-Text Radcliffe Publishing

This book provides subject based Single Best Answer style

questions for doctors on their Foundation Year rotations and candidates taking their MRCS exam. It includes SBA questions testing factual knowledge and clinical scenarios testing application of basic facts. Detailed answers and explanations enable doctors to revise without the need to read large Anatomy books.

Vascular Neurosurgery CRC Press

This unique collection of multiple choice questions (MCQs) is specifically written to help surgical trainee candidates prepare for Part One of the FRCS general surgery exit examination, which features MCQs on general surgery. The book helps candidates gauge the types of questions likely to be asked and the extent of preparation required for this examination. The wide range of surgical topics covered, including general surgery and emergency surgery in addition to endocrine, vascular, upper GI, hepatobiliary, colorectal and transplant surgery, also makes it a useful revision text for MRCS examination candidates.

MCQs in Oral Surgery Cambridge University Press

The only book of its kind! This invaluable review of vascular surgery is back in an up-to-date New Edition. A companion to Rutherford's Vascular Surgery, 6th Edition, it features over 500 multiple-choice questions with answers and rationales that cover the entire spectrum of vascular surgery. Each question is referenced to Vascular Surgery to make further reading easy. It's the perfect way to prepare for in-service examinations, oral and written boards, and recertification exams! Examines the full spectrum of topics found in Vascular Surgery, from pathology, therapeutics, and complications...to ischemia, aneurysms, portal hypertension, extracranial cerebrovascular disease, extremity amputation, and much much more. Over 500 questions and answers covering every area of vascular and endovascular surgery. Integrates the knowledge and experience of the same respected authorities responsible for Vascular Surgery, 6th Edition. Makes an excellent tool for study and self-testing as well as exam preparation. Totally revised and updated throughout, reflecting contemporary vascular and endovascular issues, techniques, and practices. Review coverage of key areas such as vascular access, imaging and non-operative management. With 165 expert contributors.

Ophthalmology Fact Fixer OUP Oxford

EMQs and MCQs for Medical Finals is a unique revision and study tool for Final Examination preparation. Practice questions cover a variety of key topics in both medicine and surgery, with the mixture of questions reflecting the general weighting in real exams. Comprehensive answer notes are provided for each question, explaining why a particular answer is correct and why others are not. Useful mnemonics and tips on remembering key

facts help to consolidate learning.

MCQs for GP with Detailed Answers CRC Press

Published at the same time as its companion volume Medical MCQs, this book contains 150 typical finals MCQs with correct answers and expanded teaching notes. It includes tips on exam technique and pointers on common variations of questions, as well as a revision checklist.

Multiple Choice Questions in Surgery Radcliffe Publishing

THE 'GOLDEN JUBILEE' EDITION OF A CLASSIC TEXTBOOK, FIRST PUBLISHED IN 1965 Highly Commended at the British Medical Association Book Awards 2016 General Surgery Lecture Notes continues to be an invaluable, appealing and approachable resource for thousands of medical students and surgical trainees throughout the world. Fully revised and updated to reflect the rapid changes which are taking place in surgical practice, this 50th anniversary edition: Includes principles of treatment written at student level to aid understanding Features full colour illustrations throughout Includes electronic access to a range of extra material including case studies, images and photographs, and biographies Includes free access to the Wiley E-Text Is a perfect review text for medical students as well as junior surgeons taking the MRCS examination and other postgraduate surgical examinations Trusted by generations of medical students, the clinical emphasis of General Surgery Lecture Notes makes this an essential purchase for all those wishing to learn more about general surgery.

Multiple Choice Questions ENT Head and Neck Surgery tfm Publishing Limited

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

MCQs for the Surgical Membership John Wiley & Sons

An MCQ revision book and companion to Applied Basic Science for Basic Surgical Training edited by Andrew Raftery. This MCQ book contains 250 questions (each of standard five-part format) with detailed answers, all corresponding to the chapters of the textbook and to the syllabus for the MRCS/AFRCS. All answers are cross-referenced to the main textbook for further information.

Single Best Answer Questions in Cardiothoracic Surgery tfm Publishing Limited

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-specific sections, both MCQs and EMQs provide a comprehensive coverage of the surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.

A Collection of 500 McQ and Emq Questions CRC Press

Over 400 multiple choice questions with expanded answers covering the full range of topics examined on undergraduates for the surgery finals. Questions cover all the common surgical problems on a regional basis, testing factual knowledge and identifying areas of weakness.

MCQs in Cardiothoracic Surgery CRC Press

This first edition of Single Best Answer Questions in Cardiothoracic Surgery provides a comprehensive revision aid to the candidates taking the specialty examination in Cardiothoracic Surgery world-wide. This new revision aid provides over 300 single best answer practice questions in Cardiothoracic Surgery and conforms to the recent changes in the format of specialty examinations in Cardiothoracic Surgery. Each question has been carefully formulated to cover an important topic in cardiothoracic

surgery. The questions cover the complete specialty examination syllabus and a considerable number of these have been based on previous examination questions. This book contains a substantial number of patient-based questions or clinical vignettes that will enable prospective candidates to test their ability to integrate key basic science concepts with relevant clinical problems. In addition factual recall questions have also been included that probe for basic recall of facts. Detailed and comprehensive explanations, rather than just brief answers, to questions have been provided so that the candidates do not have to consult textbooks for clarification as is the case with most other MCQs books currently available in the market. A list of relevant references is provided at the end of each answer to enable candidates to read the most up to date journal articles on the subject. The questions in this book can be used in a number of ways: (1) as a diagnostic tool (pretest), (2) as a guide and focus for further study, and (3) for self-assessment. The least effective use of these questions is to study them by reading them one at a time, and then looking at the correct response. These over 300 practice questions are intended to be an integral part of a well-planned review as well as an isolated resource. If used appropriately, these questions can provide self-assessment information beyond a numeric score. Furthermore, the questions have been planned in such a way that this book can be used as companion to any textbook of Cardiothoracic Surgery.

Surgery For Medical Students McGraw Hill Professional

* This book contains 672 single best answer MCQ questions presented in 6 separate papers (112 questions per paper). * Collectively, the questions assess (1) essential facts (2)

application of clinical knowledge and (3) evaluation of clinical information.

One Hundred and Fifty Essential MCQs for Surgical Finals

Createspace Independent Publishing Platform

The Princess Alexandra Hospital. United Kingdom. Specialist oral surgeon. Colchester Dental specialist Centre (Part of BUPA).

Single Best Answers in Surgery CRC Press

As the first in the 'Clinical Talk' series, the philosophy of this

book is to have a set of question-based sections to help a final-year medical student prepare for exams. These sections include multiple choice questions (MCQs), extended matching questions (EMQs) and case studies. The idea is to have not just a 'test yourself' book, but one which students can work through as a learning exercise as well as for revision purposes. For that reason, the answers and explanations provided here are just as important as the questions themselves. Stansby and Goldberg have structured this book such that it complements one of their bestselling textbooks, *Surgical Talk: Revision in Surgery*.

More Than 250 MCQs CRC Press

With over 1000 essential questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's *Short Practice in Surgery*, 26th edition. The book assists trainee surgeons as they prepare for examinations and enables them to test their knowledge of the principles and practice of surgery as outlined in Bailey & Lo

A comprehensive review Chandresh Agrawal

Presents over 400 questions related to general surgery for students studying for surgical examinations. Includes analysis of most common types of multiple choice questions in examinations, and explains useful approaches to each type. The end chapter is in examination format for the student's self-assessment. The authors lecture in surgery at the University of Adelaide.

Multiple Choice Questions and Answers in Internal Medicine and Surgery John Wiley & Sons

Multiple Choice Questions in Plastic Surgery provides over 400 questions, answers and explanations covering the breadth of

plastic and reconstructive surgery including burns. The expansive array of questions with detailed explanations and references will provide a solid foundation for those preparing for final specialty examinations such as the American Boards, the FRCS (Plast), EBOPRAS, MCh and others. The questions are drawn from international experts and are up-to-date with the latest concepts and techniques, including face transplantation, new trends in reconstructive and aesthetic surgery, and recent scientific advances. It will therefore appeal to those interested in plastic surgery education globally. In particular, it will help plastic surgeons to keep up-to-date in the specialty, and demonstrate this through continuing medical education (CME) and for processes of revalidation.
