The exploits of the British Army's elite 22nd Special Air Service Regiment - the regiment of the SAS that forms part of the Regular army - are shrouded in mystery and myths abound about its members. But what is the truth behind the public facade of clinical professionalism? How has such a small regiment attracted so many weighty legends? And what is the purpose of the SAS in the 21st century? "Special Force" provides an original and unusually critical

overview of the activities of the SAS from the Malayan Emergency of 1950 to the present day. In the context of a detailed and often controversial analysis of the post-war activities of the Regiment, MacKenzie establishes that the Regiment's almost legendary professional competence is often not backed up by reality. Far from being part of a structured deployment of strategic military assets, MacKenzie argues that the use of the SAS in recent years has been primarily driven by the 'entrepreneurial' actions of a few SAS commanding officers. "Special Force" not only offers a revelatory history of the SAS in the modern period, it is also a disturbing expose of the truth behind the myth. It will

be essential reading for anyone with an interest in the British military - past, present and future.

The killing part is the easy bit; the tricky part is finding the right people to kill. Rob was a Special Forces operator with some of the world finest regiments and served in four national armies over a career that has spanned forty years and continues today. In 1965 he earned the converted Green Beret as a member of 2 Commando

Australia. He left in 1968 to Southeast Asia. Finding work of a military nature in Laos, (in the war that never was). The end of the contract found him in England where he joined the British Parachute Regiment and completed three tours in Northern Ireland at the height of the troubles, taking part in Operation Demetrius. On his last tour, he was detached from his battalion and worked covert operations with a little-known group called the MRF (Military Reaction Force). 1974 saw Rob in Rhodesia as a member of the internationally acclaimed C Squadron SAS, where he was wounded on operations twice. This was a turning point in Rob's life as he surrendered to Christ becoming a Christian. He was to carry on as an operator, but now with a biblical world view. Rob was recruited in 1980 by the South African Defense Force and was a member of 6 Reconnaissance Commando Special Forces and later became an operative with what was commonly called 'the funnies' or CSI Chief of Staff Intelligence. From 1996 to 2007 Rob was in South Sudan and Iraq, receiving a letter of commendation from the United States Army. Still active today, Rob specializes in

close protection and tactical security training for civilian personnel.

Their mission: To take out the scuds. Eight went out. Five came back. Their story had been closed in secrecy. Until now. They were British Special Forces, trained to be the best. In January 1991 a squad of eight men went behind the Iraqi lines on a top secret mission. It was called Bravo Two Zero. On command was Sergeant Andy McNab. "They are the true unsung heroes of the war." -- Lt. Col. Steven Turner, American F-15E commander. Dropped into "scud alley" carrying 210-pound packs, McNab and his men found themselves surrounded by Saddam's army. Their radios didn't work. The weather turned cold enough to freeze diesel fuel. And they had been spotted. Their only chance at survival was to fight their way to the Syrian border seventy-five miles to the northwest and swim the Euphrates river to freedom. Eight set out. Five came back. "I'll tell you who destroyed the scuds -- it was the British SAS. They were fabulous." - John Major, British Prime Minister. This is their story. Filled with no-holds-barred

detail about McNab's capture and excruciating torture, it tells of men tested beyond the limits of human endurance... and of the war you didn't see on CNN. Dirty, deadly, and fought outside the rules. **Warrior Elite** Createspace Independent Publishing Platform
Who are the world's best soldiers? Since the Iranian Embassy siege in 1980, the Falklands and the 1991 Gulf War, the British SAS have often been described as the greatest experts in Special Operations. **SAS and Elite Forces** Amber Books Ltd
From the Author of 'BRAVO TEN', the explosive true story of some of the greatest secret operations of the Rhodesian SAS.... At the height of the cold war, the small landlocked country of Rhodesia found herself ranged against two powerful communist terrorist armies who, in turn, were backed by Soviet Russia and China. The strategic aim of both backers was the installation of a regime friendly to their respective brands of communism and in so doing create a vital regional presence upon which they could then expand. For the terrorist organisations of ZIPRA and ZANLA, they had but one objective; to take control of one of the

continent's most prosperous nations. By 1979 the Rhodesian bush war had been raging for over fifteen years. What had started with the murder of a white man by black nationalists in 1964 was to turn into the bloodiest war ever to have been witnessed in southern Africa. The need for Special Forces to take the fight to the terrorists had never been greater. Fortunately for the Rhodesians, their military possessed a secret weapon which proved devastating in combat and the scourge of terrorists in Zambia, Mozambique and beyond; their very own Special Air Service regiment. Operating deep in the unforgiving African bush, deploying by vehicle, helicopter or parachute, often isolated from help and facing overwhelming odds, the Rhodesian SAS Ranged far behind enemy lines to strike at the very heart of the enemy, wreaking untold damage to the terrorist machines of ZIPRA and ZANLA. Time after time the SAS regiment demonstrated to the world that the Rhodesian army possessed a Special Forces unit whose abilities were second to none. The author presents the little known story of a truly elite band of Special Forces soldiers and

places the reader at the very heart of some of their most daring missions. Join the Rhodesian SAS deep behind enemy lines and learn the secrets of 'those who dared'. This is the second book in the 'They Who Dared' series by Andy Ryan.

The McGonigal brothers, Eoin and Ambrose were fiercely independent characters. Born and educated in southern Ireland to a catholic family but raised in Belfast, they wasted no time in enlisting at the outbreak of War in 1939. Both outstanding sportsmen, their leadership potential was quickly recognized. Eoin was one of the first two officers selected from an Irish regiment for Commando training in 1940. After leading a troop at the River Litani battle in Syria, he became the youngest of the original officers selected for the fledgling SAS and quickly made a name for himself. Tragically, he was lost after parachuting behind enemy lines in Libya. His body was never recovered and many unanswered questions remain today. Ambrose, having carried out multiple coastal raids with the Commandos and winning two Military Crosses, later led operations for the SBS in

Yugoslavia and Italy. Post-war, he had a short but notable legal career as a Lord Justice of Appeal in Northern Ireland at the height of the Troubles. Light is also shone on the brothers' close friend, the legendary Blair Mayne and the controversial decision to downgrade the award of his Victoria Cross. This is a thought-provoking account of lost and fulfilled potential and unswerving loyalty at a time of political and religious turmoil Special Forces Wilderness Survival Guide Bloomsbury Publishing

The sniper is a lone hunter: to become a special forces sniper requires supreme concentration and extreme self-discipline. SAS and Elite Forces Guide: Sniper examines what it takes to be a special forces elite sniper. It is as important to focus on mental discipline and physical fitness as it is to be able to shoot to Olympic levels of accuracy. You must become an expert in fieldcraft and stalking, and become familiar with nature and the weather. The book describes the psychological makeup of a sniper, what training is required to become an expert marksman, and what weapons are used by special forces snipers today. Using 300

instructive artworks, SAS and Elite Forces: Sniper shows you how special forces units such as the SAS and Delta Force train their most elite soldiers.

Narrates key events in recent history of special forces operations around the globe, from the Gulf War through Iraq. SAS - Who Dares Wins Island Books
The Special Air Service (SAS) is the toughest regiment in the British Army and is foted as the best Special Forces unit in the world. Members of the SAS live in a

shadow world, unable to divulge their whereabouts or mission details, living a hard life of combat and secrets. This book brings to life the stories of 20 soldiers who were genuine heroes, although many were never recognised as such during their lives or even in death. *Who Dares Wins* contains former SAS soldier Pete Scholey's memories of some of those men. It is a book about soldiers who bravely fought for their country in extreme circumstances with no desire to be famous, fêted or rewarded. Each chapter tells us about the life and combat stories of the men who, although capable of superhuman effort, were very much human beings. Some of the stories of Pete's heroes have never been heard before and certainly none of these dramatic tales of combat and life in the regiment have been told in such a touching and compelling manner.

Written by a former member of the SAS, these are the secrets of one of the world's fiercest fighting units. Among the many SAS techniques explained here are: how to board an aircraft flying at 130 mph; how to enter a submerged submarine; how to mount ambushes; how to plan a raid on an

enemy base and how to breach security around a building; how to free fall from 30,000 feet; how to set up a safe house; how to train a guerrilla army; how to avoid being tracked and how to storm places where hostages are held.

A hard-hitting history of special-forces operations over the past fifty years in the United States, United Kingdom, and Israel. After eight challenging years in Afghanistan, the new U.S. strategy, aimed at winning hearts and minds rather than search-and-destroy, refocuses the conflict on Special Forces: unorthodox soldiers who work outside of traditional military forces to combine secret military operations with nation building. Tony Geraghty, an expert author in this field for almost thirty years, unveils the extraordinary evolution of this refined style of war-making from its roots in anti-guerrilla warfare in Ireland and Palestine, by way of the creation of the C.I.A., the S.A.S., the Green Berets, and America Office of Strategic Services (O.S.S.), and many others. Israel's Special Forces,

including Mossad, are an organic part of the same coherent history, and their story is narrated here for the first time. This history is more than a tale of derring-do, although James Bond-like characters stalk every page. It is a sweeping examination of Black Ops at a time when they represent the future of an open-ended global war against terrorism.

In this new book, Gavin Mortimer reveals the 12 legendary Special Forces commanders of World War II. Prior to the war, the concept of 'special forces' simply

didn't exist, but thanks to visionary leaders like David Stirling and Charles Hunter, our very concept of how wars can be fought and won has totally changed. These 12 men not only reshaped military policy, but they led from the front, accompanying their troops into battle, from the sands of North Africa to jumping on D-Day and infiltrating behind enemy lines. Mortimer also offers a skilful analysis of their qualities as military commanders and the true impact that their own personal actions, as well as those of their units, had on the eventual outcome of the war.
