A small town, close proximity romance from New York Times and Wall Street Journal bestselling author Kristen Proby. Remi Carter has survived her fifteen minutes of fame and is putting LA in her rearview mirror. As a former reality show contestant, she's trading staged expeditions and faked wilderness tours for real adventures. Only one fluke storm in Glacier National Park has her stranded with a handsome man, and adventure takes on a whole new meaning. Seth King is as rugged and sexy as he is annoyed to be trapped with Remi. Probably because she ghosted him at the local bar not three days ago. But she's got her reasons for ditching him, and twenty-four hours in an abandoned Montana cabin with the wildlife biologist isn't nearly enough time to explain. As tempting as he is by firelight, she's been burned too many times. Except one day together and suddenly her travel van doesn't hold as much appeal. The open road feels lonely. Remi's about to learn that shelter is more than a safe place to weather a storm. Shelter might just be the man himself. If he can give her a reason to stay.

When an abortion doctor switches sides, she is drawn into a series of secret medical experiments that will change the way we think about reproduction, autonomy, and life itself. "Hazzard has successfully captured the unique psychology of abortion work. As a former abortion clinic worker myself, I couldn't help but be moved by this beautiful story about new beginnings and the true meaning of heroism. I wholeheartedly endorse Cultivating

Weeds." ~Abby Johnson, award-winning author of unPlanned and founder of And Then There Were None "Cultivating Weeds is gripping. It handles ethically complex issues without being preachy. Its deeply human characters are a refreshing change from the caricatures that so often plague the abortion debate. This book has the potential to start a new, productive conversation on one of the most emotionally charged issues of our generation." ~Josh Brahm, host of Life Report A Secret Journey Simon and Schuster Toward a Secret Sky by New York Times bestselling author Heather Maclean is a new breed of YA novel: an intelligent adventure-quest crossed with a sweeping, forbidden love story. A mix of reality and possibility, this fast-paced thriller will appeal to fans of Stephenie Meyer and Dan Brown as it leads the reader on a breathless flight through the highlands of Scotland, the secret city under London, and history itself. Shortly after 17-year-old Maren Hamilton is orphaned and sent to live with grandparents she's never met in Scotland, she receives an encrypted journal from her dead mother that makes her and everyone around her a target. It confirms that her parents were employed by a secret, international organization that's now intent on recruiting her. As Maren works to unravel the clues left behind by her mother, a murderous madness sweeps through the local population, terrorizing her small town. Maren must decide if she'll continue her parents' fight or stay behind to save her friends. With the help of Gavin, an otherworldly mercenary she's not supposed to fall in love with, and Graham, a charming aristocrat who is entranced with her, Maren races against the clock and around the country from palatial estates with twisted labyrinths to famous cathedrals with booby-trapped subterranean crypts to stay ahead of the enemy and find a cure. Along the way, she discovers the great

truth of love: that laying down your life for another isn't as hard as watching them sacrifice everything for you.
