Theologian and writer Robert M. Price is perhaps best known today for his scholarly arguments against the existence of a historical Jesus. Yet, he has been at various times in his career an agnostic, an exponent of Liberal Protestant theology, a nontheist, a secular humanist, a religious humanist, a Unitarian-Universalist wannabe, an unaffiliated Universalist, and a Fellow of the Jesus Seminar. Any way you cut it, he is not your typical atheist. This collection of his best essays demonstrates his love for the various great religions, which he views as endlessly fascinating expressions of the

human spirit. Beneath the keen insights and sharp critiques he offers, whether the subject is theology, secularism, or biblical studies, the essays themselves are also deeply personal and revealing. Read together, they document his self-extrication from the born-again Christianity in which he dwelt for some dozen years--and his subsequent rise to celebrated freethought advocate whose work has challenged an entire field.

The Bach Choir: The First Hundred Years Metropolitan Museum of Art

An exposition of the first of the gospels of Jesus Christ that give us the history and meanings behind each of these ancient stories. Matthew is significant as a gospel on its own since it is one of the first of the synoptics and also the first that readers come across in the modern

New Testament. To look at the teachings of Jesus properly is important so that others are influenced properly.

Atheism and Faithism Crossway

The idea of a Jewish Church has been banned from the Christian horizon for almost two millennia. But things are changing. Since the middle of the 70s the Messianic Jewish movement has strived to build an ecclesial home for all Jewish believers in Christ. This new phenomenon brings to life issues that had disappeared since the first centuries of the Church. What does it mean to be a Jew in the Church? Should there be a distinction between Jews and non-Jews among believers in Christ? Is such a distinction compatible with the unity of the whole Body of Christ so ardently preached by Paul? What lifestyle should

this Church promote? In his various works, Mark Kinzer, a prominent Messianic Jewish theologian, has attempted to provide substantial answers to these questions. Antoine Lévy is a Dominican priest. With Kinzer, Lévy has launched the “Helsinki Consultation”, a cross-denominational gathering of Jewish theologians. In *Jewish Church: A Catholic Approach to Messianic Judaism*, Lévy examines Kinzer’s positions critically, bringing forward an alternative vision of what a “Jewish Church” could and should be. This is only the beginning of what promises to be a fascinating discussion. *Living Your Strengths* Columbia University Press

This study of the Bach Choir provides a much-needed overview of one of the

major choral societies in London. Dr Basil Keen examines the background that led to the formation of an ad hoc body to give the first performance in England of J.S. Bach's B minor Mass. The musical and organizational effects of a permanent choral society drawn from one social group are traced during the first twenty years, after such time the pressures of social change led to a complete review followed by a restructuring of the methods of recruitment and internal organization. The rebuilding of the choir at the opening of the twentieth century, the expansion of the repertoire, the upheaval resulting from the First World War and the impact of these events on preparation and performance, are all considered. The book is essentially

structured around the tenure of successive Musical Directors: Otto Goldschmidt, Charles Villiers Stanford, Walford Davies, Hugh Allen, Ralph Vaughan Williams, Adrian Boult, Reginald Jacques and David Willcocks, since their varied tastes and interests inevitably had a decisive influence on policy. Keen draws upon previously unpublished material, including minutes and correspondence of the Bach Choir, interviews with relatives and descendants, and examination of family records and correspondence. To date, there has been no survey of a major London choir that encompasses the full history of the organization in context. In this study, Dr Basil Keen provides a thorough examination of the Bach Choir, including the response of the choir to

social changes; the influence of conductors and officials; changes in musical taste; relationships with composers and composition; major national and international events; and the effect of these matters on organization and repertoire.

The Gentleman's Magazine Routledge Stephen Colbert, Samantha Bee, John Oliver, and Jimmy Kimmel—these comedians are household names whose satirical takes on politics, the news, and current events receive some of the highest ratings on television. In this book, James E. Caron examines these and other satirists through the lenses of humor studies, cultural theory, and rhetorical and social philosophy, arriving at a new definition of the comic art form. Tracing the history of modern satire from

its roots in the Enlightenment values of rational debate, evidence, facts, accountability, and transparency, Caron identifies a new genre: “truthiness satire.” He shows how satirists such as Colbert, Bee, Oliver, and Kimmel—along with writers like Charles Pierce and Jack Shafer—rely on shared values and on the postmodern aesthetics of irony and affect to foster engagement within the comic public sphere that satire creates. Using case studies of bits, parodies, and routines, Caron reveals a remarkable process: when evidence-based news reporting collides with a discursive space asserting alternative facts, the satiric laughter that erupts can move the audience toward reflection and possibly even action as the body politic in the public sphere. With rigor, humor, and

insight, Caron shows that truthiness satire pushes back against fake news and biased reporting and that the satirist today is at heart a citizen, albeit a seemingly silly one. This book will appeal to anyone interested in and concerned about public discourse in the current era, especially researchers in media studies, communication studies, political science, and literary and cultural studies.

James VI and I was the first king to rule both England and Scotland. He was unique among British monarchs in his determination to communicate his ideas by means of print, pen, and spoken word. James's own work as an author is one of the themes of this volume. One

essay also sheds new light on his role as a patron and protector of plays and players. A second theme is the king's response to the problems posed by religious divisions in the British Isles and Europe as a whole. Various contributors to this collection elucidate James's own religious beliefs and their expression, his efforts before 1603 to counter a potential Catholic claim to the English throne, his attempted appropriation of scripture in support of his own authority, and his distinctive vision of imperial kingship in Britain. Some different reactions to the king, to his expression of his ideas and to the implementation of his policies form this book's third theme. They include the vigorous resistance to his attempt to change Scottish religious practice, and the sharply contrasting

assessments of his life and reign written after James's death.

Consummate painter, draftsman, sculptor, and architect, Michelangelo Buonarroti (1475–1564) was celebrated for his *disegno*, a term that embraces both drawing and conceptual design, which was considered in the Renaissance to be the foundation of all artistic disciplines. To his contemporary Giorgio Vasari, Michelangelo was “the divine draftsman and designer” whose work embodied the unity of the arts. Beautifully illustrated with more than 350 drawings, paintings, sculptures, and architectural views, this book establishes the centrality of *disegno* to Michelangelo’s work. Carmen C. Bambach presents a comprehensive and

engaging narrative of the artist's long career in Florence and Rome, beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen-year appointment as chief architect of Saint Peter's Basilica at the Vatican. The chapters relate Michelangelo's compositional drawings, sketches, life studies, and full-scale cartoons to his major commissions—such as the ceiling frescoes and the Last Judgment in the Sistine Chapel, the church of San Lorenzo and its New Sacristy (Medici Chapel) in Florence, and Saint Peter's—offering fresh insights into his creative process. Also explored are Michelangelo's influential role as a master and teacher of disegno, his literary and spiritual interests, and the

virtuoso drawings he made as gifts for intimate friends, such as the nobleman Tommaso de' Cavalieri and Vittoria Colonna, the marchesa of Pescara. Complementing Bambach's text are thematic essays by leading authorities on the art of Michelangelo. Meticulously researched, compellingly argued, and richly illustrated, this book is a major contribution to our understanding of this timeless artist.

 NEW YORK TIMES BESTSELLER • The intimate, inspiring, and authoritative biography of Sandra Day O'Connor, America's first female Supreme Court justice, drawing on exclusive interviews and first-time access to Justice

O'Connor's archives—as seen on PBS's American Experience “She's a hero for our time, and this is the biography for our time.”—Walter Isaacson Finalist for the Los Angeles Times Book Prize • Named One of the Best Books of the Year by NPR and The Washington Post She was born in 1930 in El Paso and grew up on a cattle ranch in Arizona. At a time when women were expected to be homemakers, she set her sights on Stanford University. When she graduated near the top of her law school class in 1952, no firm would even interview her. But Sandra Day O'Connor's story is that of a woman who repeatedly shattered glass ceilings—doing so with a blend of grace, wisdom, humor, understatement, and cowgirl toughness. She became the first ever female majority leader of a

state senate. As a judge on the Arizona Court of Appeals, she stood up to corrupt lawyers and humanized the law. When she arrived at the United States Supreme Court, appointed by President Ronald Reagan in 1981, she began a quarter-century tenure on the Court, hearing cases that ultimately shaped American law. Diagnosed with cancer at fifty-eight, and caring for a husband with Alzheimer's, O'Connor endured every difficulty with grit and poise. Women and men who want to be leaders and be first in their own lives—who want to learn when to walk away and when to stand their ground—will be inspired by O'Connor's example. This is a remarkably vivid and personal portrait of a woman who loved her family, who believed in serving her country, and

who, when she became the most powerful woman in America, built a bridge forward for all women. Praise for First “Cinematic . . . poignant . . . illuminating and eminently readable . . . First gives us a real sense of Sandra Day O’Connor the human being. . . . Thomas gives O’Connor the credit she deserves.”—The Washington Post “[A] fascinating and revelatory biography . . . a richly detailed picture of [O’Connor’s] personal and professional life . . . Evan Thomas’s book is not just a biography of a remarkable woman, but an elegy for a worldview that, in law as well as politics, has disappeared from the nation’s main stages.”—The New York Times Book Review

Refugees have been part & parcel of the social history & landscape of the British Isles since time immemorial. They have

come in waves and they have arrived in droves. They have melted into the DNA pot, enhancing and enriching all aspects of society. Growing up in the Thames Valley, the author would often hear the Italian name Gagetto, one or several refugees who arrived on these shores as a result of the French Revolution. One Gagetto descendant married into the Meers family of Dickensian Bethnal Green; and they were poor by the standards of some of his other ancestors. It was when Eliza Priscilla Meers married a hard working and enthusiastic young man who was to work as an engineer in Gibraltar and later as the Thames Conservancy Engineer for the area between Teddington and Windsor, that fortunes changed for the better. But in ancestral research, change

is never far away it seems and tragedy can be found just around the next bend of Old Father Thames. For, like that river, life has its currents and eddies.

Since the calls of the Second Vatican Council, Roman Catholic theologians have sought to overcome an overarching problem facing Jewish-Christian relations, the concept of "supersessionism"; the idea that God has revoked the spiritual and historical promises made to the Jewish people in favour of granting those same privileges to a predominantly Gentile Church.

Israel, the Church, and Millenarianism breaks new ground by applying an ancient principle to the problem of Israel's "replacement": the early Church's promotion of millennialism. Utilizing the best in Patristic research, Aguzzi argues that these earliest Christian traditions made room for the future of Israel because Christ's reign in the Church was viewed as provisional to his historical reign on earth—Israel's role in salvation history was and is not yet complete. Aguzzi's research also opens the door for a greater Catholic understanding of the millennial principle, not shying away from its validity and relevance for understanding the importance of safeguarding Jewish particularity, while concluding that the Synagogue and the Church are indeed

on a parallel trajectory; "...what will their...[Israel's]...acceptance be but life from the dead?" (Romans 11:15). Ultimately, the divine will is fulfilled through both Christian and Jewish means, in history, while each community is dependent, in different ways, upon the unfolding of God's future and the coming Parousia of Christ.

As this collection of essays makes clear, the paths to grasping the complexity of Caravaggio's art are multiple and variable. Art historians from the UK and North America offer new or recently

updated interpretations of the works of seventeenth-century Italian painter Michelangelo Merisi da Caravaggio and of his many followers known as the Caravaggisti. The volume deals with all the major aspects of Caravaggio's paintings: technique, creative process, religious context, innovations in pictorial genre and narrative, market strategies, biography, patronage, reception, and new hermeneutical trends. The concluding section tackles the essential question of Caravaggio's legacy and the production of his followers-not only in terms of style but from some highly innovative strategies: concettismo; art marketing and the price of pictures; self-fashioning and biography; and the concept of emulation.

'Jesus and the Eyewitness' argues that the four Gospels are closely based on the eyewitness testimony of those who knew Jesus. The author challenges the assumption that the accounts of Jesus circulated as 'anonymous community traditions', asserting instead that they were transmitted in the name of the original eyewitnesses.

What this book reveals: God Almighty needed a trusted vessel – the right body – to channel His salvation plan. After centuries of search, He did settle on Mary, a virgin girl that lived in Galilee, who had the perfect body, the right attitude, and sufficient faith. Undeniably, an imperfect body would have defiled the divine nature of Christ; the wrong attitude would have delayed the salvation plan, and an insufficient faith would have jeopardized the entire plan. When God found the right body, He did not only purify it, but He also filled it with infinite grace. Indeed, the salvific project required maximum precision; precision that ought to be multimillion times more accurate than sending shuttles into space. Fault tolerance for

the salvific mission was zero. Mary was not only part of the plan, but her body, attitude, and faith were critical to the success of the entire mission. While it is true that God prepared Mary she for the role, God respected her freewill and sought her cooperation. Unlike Eve, she cooperated with God and submitted to His will. While many Christians do not give Mary her pride of place, their disdain does not diminish the unique role she played in the salvific plan. Also, their disdain does not diminish the favors she gained from God and made manifest by her divine maternity. Indeed, Mary is blessed above all women, not because we think, believe, or say so, but because it is so. Indeed, the Mighty One has done great things for her, and holy is His Name. Pidoatson navigates on a very

high frequency of spiritual plane. I commend him for this excellent treatise on the Blessed Virgin Mary. It is an area of Christian doctrine that few venture to explore. The author has shown that it is not an impossible task. – Rev. Fr. Prof. John U. Gangwari, Catholic Institute of West Africa
Pidomson's revelatory book gives us the enlightened, timeless wisdom of Mariology in a way that helps us to rediscover the original meaning and efficacy of time tested devotion to the Blessed Virgin Mary. He presents his arguments with clarity and simplicity that transcends theological nitpicking. This timeless spiritual message is urgently needed. – Rev. Mesgr. Livy Boniko, Parish Pastor, Immaculate Heart Parish, Port Harcourt, Nigeria. This book is about the Mother of Jesus who has

bequeathed to us the lively example of knowing how to continue prodding God for divine compassion and generosity. Her intervention in John 2 reveals her to be a catalyst to Jesus' extravagant generosity, both in quantity and quality that kept the wedding party at Cana in Galilee going. These lines beautifully crafted by Dr. Gabriel Pidomson encourages us through the example of Mary to know how to nudge God, asking what God has in mind for our particular challenges even as She intercedes for us saying "They have no wine." – Rev. Msgr. Dr. Pius Kii, Faculty of Canon Law, Catholic Institute of West Africa
"Pidomson's work is a masterpiece. The book will go far to touch so many souls – believing, doubting, and seemingly lost. I thank God for granting me the

opportunity to be thinly associated with this divine message/revelation. May God bless him for this divine revelation.” - Mr. Chris Okonkwo, Editor in Chief, National Network

A translation into Old English of the first six books of the Bible, the manuscript contains over 390 images, of which 127 depict Moses with a variety of distinctive visual attributes. Broderick presents a compelling thesis that these motifs, in particular the image of the horned Moses, have a Hellenistic Egyptian origin. He argues that the visual construct of Moses in the *Old English Hexateuch* may have been based on a Late Antique, no longer extant,

prototype influenced by works of Hellenistic Egyptian Jewish exegetes, who ascribed to Moses the characteristics of an Egyptian-Hellenistic king, military commander, priest, prophet, and scribe. These Jewish writings were utilized in turn by early Christian apologists such as Clement of Alexandria and Eusebius of Caesarea. Broderick's analysis of this Moses imagery ranges widely across religious divides, art-historical religious themes, and classical and early Jewish and Christian sources. Herbert Broderick is one of the foremost historians in the field of Anglo-Saxon art, with a primary focus on Old Testament iconography. Readers with interests in the history of medieval manuscript illustration, art history, and early Jewish and Christian

apologetics will find much of interest in this profusely illustrated study.

PAUL AND THE DISPERSION The Teachers Edition Paul and The Dispersion is for Bible students. Maps are provided for students to follow Paul's journeys to foreign nations. By tracing his land and sea voyages, students will learn the reason why Paul carried Jesus' name to those far off places. Students will discover exactly to whom Paul was sent by Jesus. For example, Paul also evangelized Jews in their synagogues. (Acts 9:20; 17:1,2; Romans 1:16) They were Jews who had scattered from Israel many years before and who are also known as The Dispersion. This is rarely or never emphasized by traditional

teaching, a teaching that emphasizes Pauls apostleship to Gentiles only. What was special about Paul that enabled him to teach in synagogues? First, Paul was a Jew himself and would know Jewish laws, customs and history. He spoke their Hebrew language and possibly Greek. He was able to communicate directly with them. Secondly, Paul was a Pharisee and knew Gods law cold. (Acts 22:2, 3) He was able to quote Hebrew scripture, the Christians Old Testament. (Isaiah 59:20; Romans 11:26) Students will find that there is overwhelming Biblical evidence that Paul was not solely an apostle to

Gentiles but that he was also sent out to Jews who had scattered to foreign nations. Then, ask yourself this: Why would a non-Jew, Gentile, be expected to know or have an interest in a Jewish Gods Bible and follow Pauls teaching? Did Paul turn Gentiles away? By no means! He did not turn away his vital travel companion, Aristarchus, when he asked for help. (Acts 16:9; 27:2) Jews of the Dispersion had scattered and worshipped in their Synagogues at Damascus, Salamis, Antioch of Pisidia, Iconium, Philippi, Thessalonica, Berea, Athens, Corinth, Ephesus.
