## ADRIEL CAYDEN

*India 2020* A.P.J. Abdul Kalam Half the world's population-3 billion people-are below the poverty line, and 70 per cent of the world's poor live in rural areas. Target 3 Billion encapsulates Dr A.P.J. Abdul Kalam's mission to eradicate poverty from the world. With 750 million people living in villages, India has the largest rural population in the world. Based on his Indian experience, Dr Kalam recommends a sustainable and inclusive development system called PURA- Providing Urban Amenities in Rural Areas- to uplift the rural poor not by subsidies but through entrepreneurship with community participation. To make his case, Dr Kalam cites the examples of individuals and institutions, in India and from across the world, who, with an entrepreneurial spirit and a burning desire to make a difference, have successfully generated and tapped into the potential of the rural masses. Fabio Luiz de Oliveria Rosa changed the face of the rural district of Palmares, Brazil, by acquiring for the farmers access to electricity and water, which effect, combined with better agricultural methods, led to an increase in prosperity and stemmed the migration to cities. The 123-strong Magar clan owned Magarpatta, a 430-acre plot on the outskirts of Pune, Maharashtra. In the 1990s, they organized and set up the Magarpatta city which is now home to over 35,000 residents and a working population of 65,000 and boasts of an IT park. Targets 3 Billion tells the story of the brilliantly envisaged global sustainable development system that is PURA, outlining Dr Kalam's vision for every individual and organization-a vision that can create 3 billion empowered, productive and healthy citizens, and generate 3 billion smiles. Book jacket. [Selected Works Of Maulana Abul Kalam Azad](#) Vol. 3 Vol# 3 Penguin Books India Wisdom and inspiration from India's best-loved president My India: Ideas for the Future is a collection of excerpts from Dr A.P.J. Abdul Kalam's speeches in his post-presidency years. Drawn from Dr Kalam's addresses to parliaments, universities,

schools and other institutions in India and abroad, they include his ideas on science, nation-building, poverty, compassion and self-confidence. Dr Kalam draws on the lives of stalwarts such as Marie Curie and Dr Vikram Sarabhai to encourage and inspire his young readers. Through these speeches, he shares many valuable lessons in humility, resilience and determination, and leads children to think, grow and evolve. A project very close to his heart, Dr Kalam's last book for children is a road map for every child to pursue their dreams, to be the best they can be, leading to the realization of a better India. *India Today International* BFC Publications When P.V. Narasimha Rao and Manmohan Singh launched India's "Look East" policy, it was only the first stage of the strategy to foster economic and security cooperation with the United States. But "Looking East" became an end in itself, and Singapore a valid destination, largely because of Lee Kuan Yew. He had been trying since the 1950s to persuade India's leaders that China would steal a march on them if they neglected domestic reform and ignored a region that India had influenced profoundly in ancient times. With his deep understanding of Indian life, close ties with India's leaders from Jawaharlal Nehru on, and sound grasp of realpolitik, Lee never tired of stressing that Asia would be "submerged" if India did not "emerge." Looking East to Look West recounts how India and Singapore rediscovered long-forgotten ties in the endeavour to create a new Asia. Singapore sponsored India's membership of regional institutions. India and Singapore broke diplomatic convention with unprecedented economic and defence agreements that are set to transform boundaries of trade and cooperation. This book traces the process from the earliest mention of Suvarnabhumi in the Ramayana to Lee Kuan Yew's letter to Lal Bahadur Shastri within moments of declaring independence on 9 August 1965, from the Tata's pioneering industrial training venture in Singapore to Singapore's Information Technology Park in Bangalore. It explains the part Lee played in India's emergence as a player in the emerging Concert of Asia. History comes alive in these pages as Sunanda K. Datta-Ray, who

had eight long conversations with Lee Kuan Yew, tells the story in the words of the main actors and with a wealth of anecdotes and personal details not available to many chroniclers.

Dr A.P.J. Abdul Kalam Harper Collins

Dr. Kalam is rare legendary personality. On the whole it is very difficult to describe his greatness in words. The manifold aspects of a scientist, philosopher, great human being and a President are embodied in one person which is a source of inspiration for us. This book nicely narrates about his childhood days, life as a scientist and 'Missile Man', contributions towards our country, speeches, quotes. Readers are going to know a lot about Dr. A.P.J. Abdul Kalam through this book. Like as- how he made India a self-dependent country in atomic power, how he maintained the dignity of his position by living with simplicity, how he become the president of India despite not having any political background. This book narrates his vision of India by 2020 as a highly developed nation of the world. The language is simple and easy to understand. A must read book for everyone.

Pratigyogita Darpan Penguin UK

A.P.J. Abdul Kalam APH Publishing  
India's Nuclear Debate Vikas Publishing House

This collection of seminal articles illustrates the reasons for the spiraling nuclear race in the Asian subcontinent and introduces the principal debates in the field. Authors discuss whether the acquisition of nuclear weapons by the South Asian powers has raised the likelihood of a nuclear war in the subcontinent or reduced the chance of a

conventional war breaking out. They examine whether a small nuclear arsenal or a nuclear triad, as declared by India, is suitable for bringing stability to the region, as well as the risk of an accidental nuclear conflagration. The first section charts the evolution of nuclear programmes on the basis of realpolitik, and the second section analyses nuclear policies on the basis of religious and cultural ethos. A few essays turn the spotlight on the role of external powers in accelerating, decelerating and mediating the ongoing nuclear tension between India and Pakistan.

Looking East to Look West Diamond Pocket Books (P) Ltd.

Nuclear capability; self-sufficiency in food production; an array of indigenous satellites and missiles; an unmanned Moon mission—India's achievements in the scientific domain in recent years have been spectacular. But; according to the country's best-known scientist A.P.J. Abdul Kalam and his close associate Y.S. Rajan; we've only just begun. In a century that many experts predict may belong to India; the realization of the vision of a better future for everyone will require a keen understanding of our needs and this can only be achieved by tailoring our research and innovations to the goal of national development. India to the forefront of the world in the decades to come. The Scientific Indian will speak to every curious and adventurous mind; and especially to tomorrow's scientists and technologists; encouraging us to dream big; and urging us to work hard to make our dreams come

true. In *The Scientific Indian*; the authors of the path-breaking *India 2020: A Vision for the New Millennium* return after ten years to the core areas of scientific advancement that are crucial today: space exploration; satellite technology; missile development; earth and ocean resources; the biosphere; food production; energy and water harvesting; health care and communications; to name a few. For each aspect; the authors provide the context of recent progress on the global platform as well as Indian breakthroughs; before outlining a pragmatic vision of technological development that will propel Dr. A.P.J. Abdul Kalam: Biography Of A Sainly Scientist Disha Publications Account of life and work during the period of presidency starting June 9, 2002 to July 25, 2006, of the President of India, A.P.J. Abdul Kalam, b. 1931; includes gists of messages and addresses in the country and abroad.

*Business Communication, 2nd Edition* Prabhat Prakashan

As the world's largest democracy and a rising international economic power, India has long been heralded for its great strides in technology and trade. Yet it is also plagued by poverty, illiteracy, unemployment, and a vast array of other social and economic issues. Here, noted journalist and former Financial Times South Asia bureau chief Edward Luce travels throughout India's many regions, cultures, and religious circles, investigating its fragile balance between tradition and modernity. From meetings with key political figures to fascinating encounters with religious pundits, economic gurus, and village laborers, *In Spite of the Gods* is a fascinating blend of analysis and reportage that comprehensively depicts the nuances of India's complex situation and its place in the world. From the Trade Paperback edition.
