The objective of this book is to provide an understanding of the economy with its nature and structure, dominance of unorganized sector, natural resources, economic and social infrastructure, demographic features, poverty, unemployment, inequality, national income, saving and investment, role of noneconomic factors, and sources of data. India evokes many images because the country is extremely heterogeneous in its resource endowments, climate, languages, and infrastructure. India provides a rich tapestry of economic and social milieu: the 22 officially recognized languages spoken by the population, with their many dialects; the caste system; and its hoary history with its rich culture and traditions. India possesses a wide and varied resource base, although domestic sources supply only a third of

the country's oil requirements at present. India's economic performance has attracted considerable commentary and controversy. Since 1950, India's approach to economic development has been within the framework of a mixed economy, which has resulted from both pragmatic and political considerations. The objective of this book is to provide an understanding of the economy with its nature and structure, dominance of unorganized sector, natural resources, economic and social infrastructure, demographic features, poverty, unemployment, inequality, national income, saving and investment, role of noneconomic factors, and sources of data. Despite being a part of the eight-volume series on the Indian economy, this second volume in the series is in the nature of an introductory essay designed to provide a succinct nontechnical exposition of India's economic structure, performance, and policies.

India's core goals for Southeast Asia are in basic harmony with those of the United States, including regional stability, peaceful settlement of territorial disputes, and containment of radicalism. Still, America should not expect India to enter any sort of alliance, nor join any coalition to balance against China, but should demonstrate strategic patience and willingness to cultivate a long-term relationship.

Kancha Ilaiah, the author of the best selling book *Why I am Not a Hindu*, pens a thought-provoking critique of Brahmanism and the caste system in India, while anticipating the death of Hinduism as a direct consequence of, what he says is, its anti-scientific and anti-nationalistic stand. This work challenges Hinduism's interpretation of history, with a virulent attack on caste politics, and also takes a refreshing look at the necessity of encouraging indigenous scientific thought for the sake of national progress. It establishes Hinduism as a 'backward' religion that suppresses the latent scientific and productive potential of the Dalit-Bahujan communities. The author says this oppressive system of spiritual fascism is detrimental to both the future of religion and the nation-state. He thus criticizes the idea of spiritual justice or varnadharma, used to justify the caste system, as rooted in spiritual inequality. On a micro-analytical level, it is based on a thorough study of the productive knowledge systems of the Dalit-Bahujan communities of Andhra Pradesh, and provides a detailed day-to-day analysis of the scientific technological processes and events at work in the life of a member of these communities. On a macro level, it shows how Hinduism fails to negotiate between faith and reason, unlike other major religions

of the world. Kancha Ilaiah critiques the intellectual imagination of the dominant communities and inspires the marginalized. In the process of doing so he crafts a work of immense socio-political interest which appeals to academics, and also to all those who are concerned about contemporary India's polity and social fabric.

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading. *IIT Madras Humanities and Social Sciences Entrance Examination -HSEE Ebook-PDF* Edward Elgar Publishing

In this explosive book, Suraj Yengde, a first-generation Dalit scholar educated across continents, challenges deep-seated beliefs about caste and unpacks its many layers. He describes his gut-wrenching experiences of growing up in a Dalit basti, the multiple humiliations suffered by Dalits on a daily basis, and their incredible resilience enabled by love and humour. As he brings to light the immovable glass ceiling that exists for Dalits even in politics, bureaucracy and judiciary, Yengde provides an unflinchingly honest account of divisions within the Dalit community itself—from their internal caste divisions to the conduct of elite Dalits and their tokenized forms of modern-day

untouchability—all operating under the inescapable influences of Brahminical doctrines. This path-breaking book reveals how caste crushes human creativity and is disturbingly similar to other forms of oppression, such as race, class and gender. At once a reflection on inequality and a call to arms, *Caste Matters* argues that until Dalits lay claim to power and Brahmins join hands against Brahminism to effect real transformation, caste will continue to matter.

This book examines the impact of economic reforms in India on the pharmaceutical industry and access to medicines. It traces the changing production and trade pattern of the industry, research and development (R&D) preferences and strategies of Indian pharmaceutical firms, patent system alongside pricing policy measures and their shortcomings. It also analyses the public health financing system in India driven largely by out-of-pocket expenditure — about 60 per cent — and characterised by very high share of medicines in total health expenditure. A masterful insight into a topical area, the work will be indispensable to those working on pharmaceutical industry and public policy. It will be of interest to researchers, scholars, students, and policy-makers of economics, industrial policy, public policy, intellectual property rights and health financing.

This book provides an analytical discussion of the status of disaster risk reduction and governance in an Indian context, drawing examples and lessons from the output of the national and regional level programs and projects and from other relevant experiences in the country. Different types of disasters faced by Indian states are covered, including geophysical and hydrometeorological hazards. The book incorporates and draws upon some of the key lessons from the pre-disaster phase through the disaster phase and finally to the post-disaster phase, thus establishing an effective framework in the form of key lessons learned. The rich content of the book is based on contributions from various stakeholders, from academicians and practitioners to decision makers and nongovernment organizations related to disaster risk management systems in an Indian context. Special emphasis is given to analyzing field experiences from academic perspectives and pointing out key issues along with the relevance of risk governance of disaster risk reduction. The book works as a comprehensive reference in disaster risk governance for disaster managers in India and other countries. The book has 19 chapters organized into four parts. Part I provides the outline and basics of disaster risk governance perspectives at the national level with supporting examples from a global point of view. Part II specifically emphasizes the detailed perspectives on risk governance at the regional and local levels. Part III is devoted to approaches and issues of disaster risk governance and development at various levels, stressing the practices and clear examples of disaster risk governance, policy

options, institutional organization, risk-reduction strategies, and key lessons learned. Finally, Part IV highlights risk reduction and cross-cutting issues, focusing on risk mitigation and scientific intervention for disaster risk reduction.

Owing to its geo-strategic location and mineral wealth, Afghanistan has acquired significance in the inter-state politics of Asia as well as world politics during the past decades. This book outlines Afghanistan's efforts to build a stable and peaceful democratic polity, with external military support from the United States and its NATO allies. It also analyses the nation's development initiatives with major powers such as India, the United States, Russia and Germany. The volume: • brings to the fore ongoing tensions within the Afghan polity and its continued impact on Asian/world politics; • discusses topical themes such as withdrawal of US troops and non-traditional security; and • presents perspectives from scholars and experts from around the world, including Afghans. This work will be useful to scholars and researchers in political science, international relations, sociology, area studies, and the interested general reader.

Post-Hindu India IAS EXAM PORTAL

Does the burgeoning Indian Information Technology (IT) sector represent a deviation from the historical arc of caste inequality or has it become yet another site of discrimination? Those who claim that the sector is caste-free believe that IT is an equal opportunity employer, and that the small Dalit footprint is due to the want of merit. But they fail to consider how caste inequality sneaks in by being layered on socially constructed 'pure merit', which favours upper castes and other privileged segments, but

handicaps Dalits and other disadvantaged groups. In this book, Fernandez describes how the practice of pure and holistic merit are deeply embedded in the social, cultural, and economic privileges of the dominant castes and classes, and how caste filtering has led to the reproduction of caste hierarchies and consequently the small Dalit footprint in Indian IT.

This book deals with the personal experiences and feelings of the author. These poems describe the eventful life's journey of the author where she finds life a beautiful blank sheet of waves and whenever she stepped upon her unknowingly trying to overcome the instances. The book defines the vast momentum and love of the author where she loves to explore the ardent emotional powers and loves to write about the admiring violent impetus curbing the whole wild nature as well as the unique female cosmos, holiness. The author describes the experiences she had during her childhood period where she was permanently force to wear the same old school forks, shirts and socks and she happily describes the joyous moments when she walk down the street, crossing the water filled paddy field deep into the water, on the rainy day with those old rubber shoes. The book also beautifully highlighted the nature's epitome of unconditional love and how men trample upon through the natures' beauty; the author seems to describe the numbers of affection developed within her consciousness with the environment. There are innumerable instances of the poet's feelings describing the quantum moments of her sisterhood with their sisters and brothers relationship, of her emotions describing how she rules her own self and her kingdom where she beautifully describe her wilderness without

egos. The book also describes the authors' love for the animals, rainy seasons, and snowy winter and she also hunts for the reasons of the reasoning truth of the society, of the humanity and of the self destruction. There are beautiful instances where the author express her illusionist moments which she find herself lost into the vast unpredicted desires and effort less to handle but just letting go of all those moments and never giving up of herself remembering little things in her life. This book is indeed a beautiful master piece of the writer all sum up in one go.

Arguably, the greatest achievement of Swami Vivekananda, one of the most celebrated icons of modern India, was the reconstruction of Hinduism. This he accomplished by reforming the religion in India and changing its image in the West. Indeed, the Hinduism that Vivekananda expounded at the Parliament of World's Religions in Chicago was a new, progressive version of an ancient tradition, devoid of the superstitions and distortions with which it had come to be associated. He revolutionized Hindu faith traditions by turning them into a repository of rational, universal philosophy. This book tries to get to the heart of Swami Vivekananda's legacy and his relevance in the contemporary world. It examines hitherto lesser-known aspects of Swamiji's life and work including his contributions to practical Vedanta, universal religion, science-spirituality and inter-religious dialogue, dharmic secularism, educational philosophy, poetry, and, above all, to the problem of Indian modernity. Despite the abundance of literature available on him, Swami Vivekananda is still not

understood adequately, remaining somewhat of an enigma. A fresh reading of the life and times of the Swami by someone who has studied him closely, Makarand R. Paranjape's detailed, thought-provoking account shows that in Vivekananda's visionary thoughts lay the seeds of the creation of a modern India. This book reclaims Swami Vivekananda's stature as a pioneer of contemporary Hindu thought and nationalism.

In view of the fast-changing world order, emerging countries are increasingly influencing the dynamics of regional securities. This timely and in-depth book examines India's reorienting strategic posture and describes how New Delhi's security policy in the Indo-Pacific region has evolved and expanded over the past two decades. The author argues that India's quest to leverage its geostrategic location to emerge as an Indo-Pacific actor faces multiple challenges, which create a clear divide between the country's political rhetoric and action on the ground. The author critically examines these contradictions to better situate India's security role in an increasingly fluid Indo-Pacific region.

This book deals with the huge development of Arts and literary works during the time of King Kiyamba's rule till King Chandrakriti (A.D. 1467-1886) in Manipur. The interesting fact is that Manipur witnessed its own two millennia old cultural framework through well developed literary language, rich cultural heritage, customs and traditions, rites and rituals which provides a living testimony to its birth and rise of Meetei civilization. Though, the Manipuris settling both in the hills and the plains speak different diverse sub-branches of the Tibeto-Burman language, the present

Manipuri language which is evolved out of the early traditional Meetei language, becomes the lingua franca of the different groups.

This book critically examines new perspectives on the transformations in the Indian diaspora. It studies the changing perspectives on the historical background of the diaspora and analyses fresh and emerging views in response to new configurations in diaspora relations. The volume highlights the transformation of the old Indian diaspora into a new ensemble in which economic, ideological and cultural forces predominate and

interact closely. It looks at various themes including Indian indentured emigration to sugar colonies, comparisons between labour migration from India and China, the Girmitya diaspora, the Indian diaspora in Africa and the rise of racial nationalism, India's soft power in the Gulf region, and the repurposing of the 'Hindutva' idea of India for Western societies as undertaken by diaspora communities. Lucid and topical, this book will be useful for scholars and researchers of diaspora studies, migration studies, political studies, international relations, globalisation, political sociology, sociology and South Asia studies.
