Odyssey Two Of Time and Stars The Worlds of Arthur C. Clarke

This book examines the historical and socio-cultural connections across the SAARC region, with a special focus on the relationship between India and Sri Lanka. It investigates hitherto unexplored narratives of history, popular culture and intangible heritage in the region to identify the cultural parallels and intersections that link them together. In doing so, the volume moves away from an organised and authorised heritage discourse and encourages possibilities of new understandings and re-interpretations of cross-cultural

communication and its sub-texts. Based on original ethnographic work, the book discusses themes such as cultural ties between India and Sri Lanka, exchanges between Arthur C. Clarke in Sri Lanka and Satyajit Ray in India, cultural connectivity reflected through mythology and folklore, the influence of Rabindranath Tagore on modern dance in Sri Lanka, the introduction of railways in Sri Lanka, narrative scrolls and masked dance forms across SAARC countries, Hindi cinema as the pioneer of cultural connectivity, and women's writing across South Asia. Lucid and compelling, this book will be useful for scholars and researchers of cultural studies, South Asian studies, cultural anthropology, sociology, popular culture, cross-cultural communication, gender

studies, political sociology, cultural history, diplomacy, international relations and heritage studies. It will also appeal to general readers interested in the linkages between India and Sri Lanka.

This book, entitled "How to Fly like an Eagle," is a motivational book written by the author in French, Spanish, and English to help people learn the techniques and to get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will. When this power and desire combine correctly, they form an irresistible

combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort. The four steps are as follows: 1- A target set backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. These four steps are essential for success in all areas of life. These are the steps with which you can control your economic destiny. These are the steps that lead to freedom and

independence of thought, that convert dreams into reality. These are the steps that lead to the domination of fear, discouragement and indifference. I do not know the situation you are facing currently, maybe you are in a wheelchair, or in a hospital bed and without any hope of survival, maybe you're on the verge of divorce, or you are unable to complete your schooling or university, or find a job. You can now be crawling like a snake or you have broken wings preventing you from being able to fly like an eagle, but one thing is certain, regardless of your economic, family, health situation you can have a better life, develop your potential and fly as high as the eagle above any obstacles or constraints you are facing right now. Of course, this will be possible if you apply

the principles to be taught in this book. I testify to you with all my heart that this book has the power to transform the lives of people from nothing to excellence, from the dust of the ground to the top of success. I promise you if you read it, and put the principles into practice, your life will be completely blessed!

Napoleon Bonaparte Voyager

An intergalactic odyssey of love, ambition, and self-discovery. Orphaned as a boy, raised in the Czech countryside by his doting grandparents, Jakub Prochv°zka has risen from small-time scientist to become the country's first astronaut. When a dangerous solo mission to Venus offers him both the chance at heroism he's dreamt of, and a way to atone for his father's sins as a

Communist informer, he ventures boldly into the vast unknown. But in so doing, he leaves behind his devoted wife, Lenka, whose love, he realizes too late, he has sacrificed on the altar of his ambitions. Alone in Deep Space, Jakub discovers a possibly imaginary giant alien spider, who becomes his unlikely companion. Over philosophical conversations about the nature of love, life and death, and the deliciousness of bacon, the pair form an intense and emotional bond. Will it be enough to see Jakub through a clash with secret Russian rivals and return him safely to Earth for a second chance with Lenka? Rich with warmth and suspense and surprise, Spaceman of Bohemia is an exuberant delight from start to finish. Very seldom has a novel this profound

taken readers on a journey of such boundless entertainment and sheer fun. "A frenetically imaginative first effort, booming with vitality and originality . . . Kalfar's voice is distinct enough to leave tread marks."-Jennifer Senior, New York Times
