Technology in Business  
Success* Information  
Processes And Technology  
The Information Processes  
and Technology is the  
study of information  
systems and the  
processes and technology  
involved in them. IPT is  
also a subject offered to  
senior high school  
students in Australia in  
university entrance exams  
such as the HSC in New  
South Wales. It focuses on  
giving the student an  
understanding of  
information technology,  
information processes and

the skills to create  
information systems and  
some basic programming  
skills. Some of the social  
and ethical issues of  
computer  
systems Information  
Processes and Technology  
- Wikipedia Process of  
Information Technology .  
The process of the  
information technology  
has 5 processes (Lewis P,  
2000). They are: IT  
operations and  
infrastructure. Security of  
information.  
Communications.  
Applications. Business  
process management  
system (John, 1982).  
Physiological layer:
