Focus: Popular Music in Contemporary India examines India's musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and

politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift. From Bollywood film songs and Indo-jazz to bhangra hip-hop and Indian death metal, the book situates Indian popular music within critical and historical frameworks,

highlighting the unprecedented changes the region's music has undergone in recent decades. This critical approach provides readers with a foundation for understanding an Indian musical culture that is as diverse and complex as the region itself. Included are case studies featuring song notations, first-person narratives, and interviews of well-known artists and emerging musicians alike. Illuminated are issues of great import in India today—as reflected through its music—addressing questions of a "national" aesthetic, the effects of Western music, and identity politics as they relate to class, caste, LGBTQ perspectives, and other marginalized voices.

Presented through a global lens, Focus: Popular Music in Contemporary India contextualizes the dynamic popular music of India and its vast cultural impact.

How a Person Turns Into a Brand. A

Study on A.R.

Rahman Penguin Books India

Is the universe infinite, or does it have an edge beyond which there is, quite literally, nothing? Do we live in the only possible universe? Why does it have one time and three space dimensions - or does it? What is it made of? What does it mean when we hear that a new particle has been discovered? Will quantum mechanics eventually break down and give way to a totally new description of the world, one

whose features we cannot even begin to imagine? This book aims to give the non-specialist reader a general overview of what physicists think they do and do not know in some representative frontier areas of contemporary physics. After sketching out the historical background, A. J. Leggett goes on to discuss the current situation and some of the open problems of cosmology, high-energy physics, and condensed-matter physics. Unlike most other accounts, this book focuses not so much on recent achievements as on the fundamental problems at the heart of the subject, and emphasizes the provisional nature of our present

understanding of things.

Hindi Film Songs and the Cinema Om Books International

One of the most extraordinary survival stories ever told -- Aron Ralston's searing

account of his six days trapped in one of the most remote spots in America, and how one inspired act of bravery brought him home. It started out as a simple hike in the Utah canyonlands on a warm Saturday afternoon. For Aron Ralston, a twenty-seven-year-old mountaineer and outdoorsman, a walk into the remote Blue John Canyon was a chance to get a break from a winter of solo climbing Colorado's highest and toughest peaks. He'd earned this weekend vacation, and though he met two charming women along the way, by early afternoon he finally found himself in his element: alone, with just the beauty of the natural world all around him. It was

2:41 P.M. Eight miles from his truck, in a deep and narrow slot canyon, Aron was climbing down off a wedged boulder when the rock suddenly, and terrifyingly, came loose. Before he could get out of the way, the falling stone pinned his right hand and wrist against the canyon wall. And so began six days of hell for Aron Ralston. With scant water and little food, no jacket for the painfully cold nights, and the terrible knowledge that he'd told no one where he was headed, he found himself facing a lingering death -- trapped by an 800-pound boulder 100 feet down in the bottom of a canyon. As he eliminated his escape options one by one through the days, Aron

faced the full horror of his predicament: By the time any possible search and rescue effort would begin, he'd most probably have died of dehydration, if a flash flood didn't drown him before that. What does one do in the face of almost certain death? Using the video camera from his pack, Aron began recording his grateful good-byes to his family and friends all over the country, thinking back over a life filled with adventure, and documenting a last will and testament with the hope that someone would find it. (For their part, his family and friends had instigated a major search for Aron, the amazing details of which are also documented here for the first time.) The

knowledge of their love kept Aron Ralston alive, until a divine inspiration on Thursday morning solved the riddle of the boulder. Aron then committed the most extreme act imaginable to save himself. Between a Rock and a Hard Place -- a brilliantly written, funny, honest, inspiring, and downright astonishing report from the line where death meets life -- will surely take its place in the annals of classic adventure stories.

The A. R. Rahman Handbook - Everything You Need to Know about A. R. Rahman Penguin

Books India

This shorter version of the best-selling WORLDS OF MUSIC provides much of the authoritative coverage

of the comprehensive version in a format that's accessible to students without any background or training in music. Using a case-study approach, the text presents in-depth explorations of music of several cultures from around the world. The authors, all ethnomusicologists working in their fields of expertise, base their discussions of music-cultures on their own fieldwork, and give students a true sense of both the music and culture that created it. General editor, Jeff Todd Titon, has written the text's opening chapter that introduces students to ethnomusicology and relates each chapter's music heard on the accompanying CDs to the fundamentals of music in a worldwide

context. The text concludes with a chapter that invites students to participate by undertaking a fieldwork research project that increases a student's understanding of music in daily life. The supplementary three-CD set works hand in hand with the authors' prose, providing students with access to a wide range of music-cultures and include authentic recordings from the authors' fieldwork. Leading off is the long-standing jewel in the WORLDS OF MUSIC crown -- James Koetting's magnificent recording of postal workers canceling stamps at the University of Ghana post office. A Western-sounding hymn tune performed against African rhythms, this

piece, more than any other, lets the student hear contrasting music-cultures.

The musical, whether on stage or screen, is undoubtedly one of the most recognizable musical genres, yet one of the most

perplexing. What are its defining features? How does it negotiate multiple socio-cultural-economic spaces? Is it a popular tradition? Is it a commercial enterprise? Is it a sophisticated cultural product and signifier? This research guide includes more than 1,400 annotated entries related to the genre as it appears on stage and screen. It includes reference works, monographs, articles, anthologies, and websites related to the musical. Separate sections are devoted to sub-genres (such as operetta and megamusical), non-English language musical genres in the U.S., traditions outside the U.S., individual shows, creators, performers, and performance. The

second edition reflects the notable increase in musical theater scholarship since 2000. In addition to printed materials, it includes multimedia and electronic resources.

Transcends Borders

Harper Collins

The purpose of this book, through its very creation, is to strengthen the dialogue between practitioner and theorist. To that end, a film academic and musicologist have collaborated as editors on this book, which is in turn comprised of interviews with

composers alongside complementary chapters that focus on a particular feature of the composer's approach or style. These chapters are written by a fellow composer, musicologist, or film academic who specializes in that element of the composer's output. In the interview portions of this book, six major film composers discuss their work from the early 1980s to the present day: Carter Burwell, Mychael Danna, Dario Marianelli, Rachel Portman, Zbigniew Preisner, and A.R. Rahman. The focus is on the practical considerations of film composition, the relationship each composer has with the moving image,

narrative, technical considerations, personal motivations in composing, the relationships composers have with their directors, and their own creative processes.

Contemporary Film Music also explores the contemporary influence of electronic music, issues surrounding the mixing of soundtracks, music theory, and the evolution of each composer's musical voice.

His ebullience and sheer sense of adventure light up this memoir. Finding himself all alone at Jaisalmer station at three in the morning as a schoolboy; days as a client servicing drone in an advertising agency; collaborations with the biggest names

in Hindi cinema; the making of Parineeta, his greatest hit; an all-consuming love of astronomy; near-death escapades in the Himalayas; his surreal moment with Diego Maradona at Milan airport - these stories provide a fascinating glimpse of the man behind the music. On the Wings of Music is a collection of reminiscences, anecdotes and self-revelations, embellished by photographs from Moitra's personal albums. These are delightful vignettes that chart the growth of a timid, self-effacing boy into a music composer of international repute. Charming and compelling.
