BRAY GRAHAM

Compressed Development Nicholas Brealey

New York Times bestselling author Carol Edgarian delivers "an all-encompassing and enthralling" (Oprah Daily) novel featuring an unforgettable heroine coming of age in the aftermath of catastrophe, and her quest for love and reinvention. Meet Vera Johnson, fifteen-year-old illegitimate daughter of Rose, notorious proprietor of San Francisco's most legendary bordello. Vera has grown up straddling two worlds—the madam's alluring sphere, replete with tickets to the opera, surly henchmen, and scant morality, and the quiet domestic life of the family paid to raise her. On the morning of the great quake, Vera's worlds collide. As the city burns and looters vie with the injured, orphaned, and starving, Vera and her guileless sister, Pie, are cast adrift. Disregarding societal norms and prejudices, Vera begins to imagine a new kind of life. She collaborates with Tan, her former rival, and forges an unlikely family of survivors, navigating through the disaster together. "A character-driven novel about family, power, and loyalty, (San Francisco Chronicle), Vera brings to life legendary characters—tenor Enrico Caruso, indicted mayor Eugene Schmitz and boss Abe Ruef, tabloid celebrity Alma Spreckels. This "brilliantly conceived and beautifully realized" (Booklist, starred review) tale of improbable outcomes and alliances takes hold from the first page, with remarkable scenes of devastation, renewal, and joy. Vera celebrates the audacious fortitude of its young heroine, who discovers an unexpected strength in unprecedented times.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

Constructing the Criollo Archive Anchor

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

Slavery and the British Country House Whitaker House

Since the launch of Bitcoin in 2009 several hundred different 'cryptocurrencies' have been developed and become accepted for a wide variety of transactions in leading online commercial marketplaces and the 'sharing economy', as well as by more traditional retailers, manufacturers, and even by charities and political parties. Bitcoin and its competitors have also garnered attention for their wildly fluctuating values as well as implication in international money laundering, Ponzi schemes and online trade in illicit goods and services across borders. These and other controversies surrounding cryptocurrencies have induced varying governance responses by central banks, government ministries, international organizations, and industry regulators worldwide. Besides formal attempts to ban Bitcoin, there have been multifaceted efforts to incorporate elements of blockchains, the peer-to-peer technology underlying cryptocurrencies, in the wider exchange, recording, and broadcasting of digital transactions. Blockchains are being mobilized to support and extend an array of governance activities. The novelty and breadth of growing blockchain-based activities have fuelled both utopian promises and dystopian fears regarding applications of the emergent technology to Bitcoin and beyond. This volume brings scholars of anthropology, economics, Science and Technology Studies, and sociology together with GPE scholars in assessing the actual implications posed by Bitcoin and blockchains for contemporary global governance. Its interdisciplinary contributions provide academics, policymakers, industry practitioners and the general public with more nuanced understandings of technological change in the changing character of governance within and across the borders of nation-states.

Stop listening to the diet industry and start listening to your own body! Join thousands of women in the Hungry for Happiness movement. Address the root causes of emotional eating through meditation, breathwork, and lessons from author's personal journey to end the diet cycle once and for all. NOW IN PAPERBACK! With a foreword by Lisa Nichols, New York Times best-selling author of No Matter What! You know it in your heart: it's time to break free of the cycle of emotional eating—from calorie restriction and bingeing—to become who you were designed to be. It's time to stop using food to numb your pain and begin listening inward to your body's wisdom, to your highest self. Reconnect with your intuition, embrace your body, and heal your relationship with food with this practical and heart-centered guide—now completely revised and updated. Inspired by her personal journey from struggling dieter to self-love activist, Samantha Skelly's Hungry for Happiness workshops have helped thousands of women end their battles with emotional eating. This book is filled with her relatable stories paired with journal exercises, mindset-shifts, meditations, and breathwork practices designed to help you map your personal path toward feeling whole, healed,

and happy.

The Tai-Kadai Languages Crown

A novel of the legendary gladiator Spartacus and the vast slave revolt he led that came ever so close to bringing Rome, with its supposedly invincible legions, to its knees.

A Novel of Spartacus Publicious Pty Limited

"All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series

Why Married People are Happier, Healthier and Better Off Financially Routledge

The Routledge Language Family Series is aimed at undergraduates and postgraduates of linguistics and language, or those with an interest in historical linguistics, linguistics anthropology and language development. With close to 100 million speakers, Tai-Kadai constitutes one of the world's major language families. The Tai-Kadai Languages provides a unique, comprehensive, single-volume tome covering much needed grammatical descriptions in the area. It presents an important overview of Thai that includes extensive cross-referencing to other sections of the volume and sign-posting to sources in the bibliography. The volume also includes much new material on Lao and other Tai-Kadai languages, several of which are described here for the first time. Much-needed and highly useful, The Tai-Kadai Languages is a key work for professionals and students in linguistics, as well as anthropologists and area studies specialists. ANTHONY V. N. DILLER is Foundation Director of the National Thai Studies Centre, at the Australian National University. JEROLD A. EDMONDSON is Professor of Linguistics at the University of Texas Arlington and a member of the Academy of Distinguished Scholars. YONGXIAN LUO is Senior Lecturer in the Asia Institute at the University of Melbourne and a member of the Australian Linguistic Society.

The Open Access version of this book, available at <http://www.tandfebooks.com/>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license. There has been an enormous increase in interest in the use of evidence for public policymaking, but the vast majority of work on the subject has failed to engage with the political nature of decision making and how this influences the ways in which evidence will be used (or misused) within political areas. This book provides new insights into the nature of political bias with regards to evidence and critically considers what an 'improved' use of evidence would look like from a policymaking perspective. Part I describes the great potential for evidence to help achieve social goals, as well as the challenges raised by the political nature of policymaking. It explores the concern of evidence advocates that political interests drive the misuse or manipulation of evidence, as well as counter-concerns of critical policy scholars about how appeals to 'evidence-based policy' can depoliticise political debates. Both concerns reflect forms of bias - the first representing technical bias, whereby evidence use violates principles of scientific best practice, and the second representing issue bias in how appeals to evidence can shift political debates to particular questions or marginalise policy-relevant social concerns. Part II then draws on the fields of policy studies and cognitive psychology to understand the origins and mechanisms of both forms of bias in relation to political interests and values. It illustrates how such biases are not only common, but can be much more predictable once we recognise their origins and manifestations in policy arenas. Finally, Part III discusses ways to move forward for those seeking to improve the use of evidence in public policymaking. It explores what constitutes 'good evidence for policy', as well as the 'good use of evidence' within policy processes, and considers how to build evidence-advisory institutions that embed key principles of both scientific good practice and democratic representation. Taken as a whole, the approach promoted is termed the 'good governance of evidence' - a concept that represents the use of rigorous, systematic and technically valid pieces of evidence within decision-making processes that are representative of, and accountable to, populations served.

Cryptocurrencies, Blockchains, and Global Governance Vintage

How to Protect Your Leadership Influence and Power You've worked hard to achieve your dreams and goals. Many others have done the same—only to lose it all in the end. Every day, we read about successful people in various walks of life who have lost their power and influence. They've been fired, forced to resign, or shamed out of public life. They no longer have a market for their gifts, and they may even face criminal proceedings. These leaders have lost the trust of their companies, constituents, nations, followers, and families. Many were surprised to discover that their talents alone were not enough to prevent their downfall. Why did they fail in the end? Because they lacked the one quality that would have protected their leadership and given them enduring influence. Ironically, this quality is seldom taught to leaders today, either formally or informally. It is the quality of moral force, or character. Every human being is a leader over some domain as he or she exercises gifts and influence. That domain might be the halls of government, the boardroom, the classroom, the community, or the home. In *The Power of Character in Leadership: How Values, Morals, Ethics, and Principles Affect Leaders*, you will discover what character is, what it means to develop moral force, and how to preserve your leadership influence so that it is both effective and enduring.

Billionaire's Mind-Set Penguin

The premise of the book is to provide insight into new ways through which corporations create and execute strategies. It is the result of a 24-hour intensive workshop that brought together over twenty strategy practitioners from multiple industries. They were asked to consider the proposition that strategy is shifting from a product of an elite group of people within the firm to a process that aggregates strategic thinking from all levels of the firm.

Practical ideas for improving results Routledge

From the bestselling author of the acclaimed *Chaos and Genius* comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory. Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa's talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. The Politics of Evidence (Open Access) Antony Paul Maina

From the author of the National Book Award finalist *Black Leopard, Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* "An undeniable success." — The New York Times Book Review A true triumph of voice and storytelling, *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy. It is the story of Liliith, born into slavery on a Jamaican sugar plantation at the end of the eighteenth century. Even at her birth, the slave women around her recognize a dark power that they- and she-will come to both revere and fear. The Night Women, as they call themselves, have long been plotting a slave revolt, and as Liliith comes of age they see her as the key to their plans. But when she begins to understand her own feelings, desires, and identity, Liliith starts to push at the edges of what is imaginable for the life of a slave woman, and risks becoming the conspiracy's weak link. But the real revelation of the book-the secret to the stirring imagery and insistent prose-is Marlon James himself, a young writer at once breathtakingly daring and wholly in command of his craft.

Coaching Across Cultures Routledge

When Sydney Newman conceived the idea for Doctor Who in 1963, he envisioned a show in which the Doctor and his companions would visit and observe, but not interfere with, events in history. That plan was dropped early on and the Doctor has happily meddled with historical events for decades. This collection of new essays examines how the Doctor's engagement with history relates to Britain's colonial past, nostalgia for village life, Norse myths, alternate history, and the impact of historical decisions on the present.

An Essential Guide to Time, Team and Money for Salon Owners Facet Publishing

The Power of Character in Leadership Oxford University Press

In *The Naked Salon*, Lisa Conway teaches what salon owners are expected to know but were never taught. As a former salon owner herself, Lisa worked out first hand that there was a number of things she hadn't even thought about including the numbers and how difficult it is to be on top of staff performance. Lisa breaks it down so that it makes sense

Antony and Cleopatra Purdue University Press

This lively and original book critically re-examines Lloyd George's part, crucial but enigmatic, in the 'lost peace' of Versailles, 1919-1940. In a re-examination of six key episodes 1919-1940, it reviews his protean role at the Paris Peace Conference, 1919, his strategy on reparations, his abortive guarantee-treaty to France, and the emergence at the Conference of 'Appeasement'. It then reassesses his controversial visit to Hitler, and his bids to halt World War II after the fall of Poland and France.

An Inquiry Into Its Laws and Consequences Routledge

In resource poor, cost saving times, this book provides practical advice on new methods and technologies involved in systematic searching and explores the role of information professionals in delivering these changes The editors bring together expert international practitioners and researchers to highlight the latest thinking on systematic searching. Beginning by looking at the methods and techniques underlying systematic searching, the book then examines the current challenges and the potential solutions to more effective searching in detail, before considering the role of the information specialist as an expert searcher. Systematic Searching blends theory and practice and takes into account different approaches to information retrieval with a special focus being given to searching for complex topics in a health-related environment. The book does not presume an in-depth prior knowledge or experience of systematic searching and includes case studies, practical examples and ideas for further research and reading. The book is divided into three parts: Methods covers theoretical approaches to evidence synthesis and the implications that these have for the search process, including searching for complex topics and choosing the right sources. Technology examines new technologies for retrieving evidence and how these are leading to new directions in information retrieval and evidence synthesis. People considers the future of the information specialist as an expert searcher and explores how information professionals can develop their skills in searching, communication and collaboration to ensure that information retrieval practice is, and remains, evidence-based. Systematic Searching will be essential reading for library and information service providers and information specialists, particularly those in a health-related environment. It will also be of interest to students of library and information science, systematic reviewers, researchers and practitioners conducting complex searches in settings including social care, education and criminal justice.
