How can you build unshakable confidence and resilience in a world still filled with ignorance, inequality, and discrimination? The Queer and Transgender Resilience Workbook will teach you how to challenge internalized negative messages, handle stress, build a community of support, and embrace your true self. Resilience is a key ingredient for psychological health and

wellness. It's what gives people the psychological strength to cope with everyday stress, as well as major setbacks. For many people, stressful events may include job loss, financial problems, illness, natural disasters, medical emergencies, divorce, or the death of a loved one. But if you are queer or gender non-conforming, life stresses may also include discrimination in housing and health care, employment barriers, homelessness, family rejection, physical attacks or threats, and general unfair treatment and oppression—all of which lead to overwhelming feelings of hopelessness and powerlessness. So, how can you gain resilience in a society that is so often toxic and

unwelcoming? In this important workbook, you'll discover how to cultivate the key components of resilience: holding a positive view of yourself and your abilities; knowing your worth and cultivating a strong sense of self-esteem; effectively utilizing resources; being assertive and creating a support community; fostering hope and growth within yourself, and finding the strength to help others. Once you know how to tap into your personal resilience, you'll have an unlimited well you can draw from to navigate everyday challenges. By learning to challenge internalized negative messages and remove obstacles from your life, you can build the resilience you need to embrace your true self in an imperfect world.

The way autoimmune disease is viewed and treated is undergoing a major change as an estimated 50 million Americans (and growing) suffer from these conditions. For many patients, the key to true wellness is in holistic treatment, although they might not know how to begin their journey to total recovery. The *Autoimmune Wellness Handbook*, from Mickey Trescott and Angie Alt of Autoimmune-Paleo.com, is a comprehensive guide to living healthfully with autoimmune disease. While conventional medicine is limited to medication or even surgical fixes, Trescott and Alt introduce a complementary solution that focuses on seven key steps to recovery: inform, collaborate, nourish, rest, breathe, move, and connect. Each step demystifies the process to reclaim total mind and body health. With five autoimmune conditions between them, Trescott and Alt have achieved astounding results using the premises laid out in the book. The

Autoimmune Wellness Handbook goes well beyond nutrition and provides the missing link so that you can get back to living a vibrant, healthy life.

Guidance for teachers on two pressing problems in student mental health. Anxiety and depression are two of the most common mental health problems for young students, and can be particularly hard to detect and support. In this book, the first of its kind for teachers, Nadja Reilly lays out with richly detailed examples the signs to look for so educators can direct their students to help and ensure emotional wellness in the classroom. Grounded in recent psychological research and practical self-regulation tools, Reilly opens her study out onto nourishing emotional wellness in all students, communicating with parents, and schoolwide mental health advocacy.

"Kick bad mental habits and toughen yourself up."—Inc. Master your mental strength—revolutionary new strategies that work for everyone from homemakers to soldiers and teachers to CEOs. Everyone knows that regular exercise and weight training lead to physical strength. But how do we strengthen ourselves mentally for the truly tough times? And what should we do when we face these challenges? Or as psychotherapist Amy Morin asks, what should we avoid when we encounter adversity? Through her years counseling others and her own experiences navigating personal loss, Morin realized it is often the habits we cannot break that are holding us back from true success and happiness. Indulging in self-pity, agonizing over things beyond our control, obsessing over past events, resenting the achievements of others, or expecting immediate positive results holds us back. This list of things mentally strong people don't do resonated so much with readers that when it was picked up by Forbes.com it

received ten million views. Now, for the first time, Morin expands upon the thirteen things from her viral post and shares her tried-and-true practices for increasing mental strength. Morin writes with searing honesty, incorporating anecdotes from her work as a college psychology instructor and psychotherapist as well as personal stories about how she bolstered her own mental strength when tragedy threatened to consume her. Increasing your mental strength can change your entire attitude. It takes practice and hard work, but with Morin's specific tips, exercises, and troubleshooting advice, it is possible to not only fortify your mental muscle but also drastically improve the quality of your life.

A Comprehensive Guide to Child Psychotherapy and Counseling Houghton Mifflin Harcourt

What conceptual blind spot kept the ancient Greeks (unlike the Indians and Maya) from developing a concept of zero? Why did St. Augustine equate nothingness with the Devil? What tortuous means did 17th-century scientists employ in their attempts to create a vacuum? And why do contemporary quantum physicists believe that the void is actually seething with subatomic activity? You'll find the answers in this dizzyingly erudite and elegantly explained book by the English cosmologist John D. Barrow. Ranging through mathematics, theology, philosophy, literature, particle physics, and cosmology, *The Book of Nothing* explores the enduring hold that vacuity has exercised on the human imagination. Combining high-wire speculation with a wealth of reference that takes in Freddy Mercury and Shakespeare alongside Isaac Newton, Albert Einstein, and Stephen Hawking, the result is a fascinating excursion to the vanishing point of our

knowledge.

Take Control of Your Life, Decrease your Stress and Pain, Improve Sleep and Cognition. This book teaches the skills you need to be in control of your pain, sleep, stress, function, and balance as well as techniques to keep your brain young. "More Skills, Fewer Pills" is a treasure of little known, yet highly valued health treatment that are a delightful marriage of Eastern spiritual disciplines with Western scientific medicine. As a practicing physical therapist for 48 years, I have focused on treating and educating patients on their selfcare and wellness. I wish I had this book to give to every patient and colleague. Instead of people buying 20 self-help books, they can read this one as a summary of information. Ms. Carver has compiled the "pearls" of years of lectures, research articles, peer-reviewed manuscripts, and books into a simple, concise book encompassing the best of eastern and western health knowledge, covering all parts of the body. Following the stretching, exercises, relaxation, diet, and breathing techniques will improve your quality of life. We all have the power to do this, and this book clearly explains the tools. Every pre-operative person should read this book for controlling post-operative pain to help prevent the huge opioid problem in the United States today. This book should be mandatory reading for all wishing to stay as active, balanced, and healthy as possible for as long as possible and is a perfect gift for all our loved ones. I recommend all health care and wellness providers reference this book to their clients. This is the "Dr. Spock How To..." book for adults. Carolyn Bloom, PT is Past President of Kansas Physical Therapy, Past President of the APTA section on health policy and administration,

Founding and Honorary Member of the Federation of State Boards of Physical Therapists, Owner, Bloom and Associates Therapy, Endorsement from Dr. Richard Shapiro, PhD: Ann Carver, MS, PT, is a uniquely gifted physical therapist, devoted yoga teacher-practitioner, and transformational healer. With *More Skills, Fewer Pills*, Ann is casting out to us a brand of woven wisdom garnered from 60 years of integrating sound research findings with her profound emotional attunement, sensibilities, and concern for promoting others toward their search for well-being. Her approach generously empowers others to shift from passive-dependent experience of their lives and care, to one of internalized confidence and competence with a set of skills that is life affirming and esteem enhancing. So, grab on tight, pull in with all your might, and put into practice this gift that is a lifeline to movement towards finding your physical, emotional, and perhaps even spiritual best. This is the culmination of a master treater's lifework. Richard M. Shapiro, PhD is a Licensed Psychologist at the Menninger Foundation, Topeka, KS. Fresh Hope is a FANTASTIC and much needed resource for the church! I particularly appreciate the emphasis on the wellness versus medical model, as it empowers us to be active participants in the pursuit of healing. I would have given anything to be part of a group like this years back. Now I am so excited to help bring this ministry to the Chicago area. Jon Press MA Christian Education blogger for BP magazine A well written book that is concise, easy to understand and free of psychobabble. I highly recommend Brad Hoefs' book, *Fresh Hope*, for those

suffering from mood disorders. Fresh Hope is an excellent resource that is informative and enlightening. It will bring insight to family and friends wanting to increase their understanding of their loved ones' mood disorders. Definitely a must read. Encouraging, explicit, resounding in truth...begin your own journey and allow God to redeem your pain and suffering into trophies of His wonderful grace. Allen L. Minnig LMHP, C.P., Omaha, NE, 2012 Brad has provided a great resource for the faith community in their effort to serve those who struggle with mood disorders. As a "wounded healer" he has provided a theological framework and philosophy of ministry for the church in partnering with the medical community on behalf of those who live with a chemical imbalance. Brad's story of recovery and growth brings hope to those who are not satisfied with merely coping with the challenges of a harsh medical diagnosis and medication. It is an invaluable resource for the church in coming alongside the millions in our communities who struggle with depression and anxiety. Brad's story of integrating faith in his recovery will bring hope to all who battle with depression. Dr Wendell Nelson Pastor of Spiritual Formation Christ Community Church Pastor Brad Hoefs was diagnosed with Bipolar I Disorder in 1995, after experiencing a very public and painful manic episode. This episode led to him being asked to resign as the senior pastor of a large growing church. After his resignation a group of people formed Community of Grace Church and provided the Hoefs with a safe place to heal and find hope. It is out of this experience that Brad started Fresh Hope in 2009, a Christ-centered support group for those who suffer from mood disorders, as well as for their loved ones. Fresh Hope has grown to numerous locations

throughout the US, with new groups starting all the time. Brad serves as senior pastor at Community of Grace in Elkhorn, NE and is President of WorshipOutlet.com, which provides creative worship resources. He also serves as a member of the State of Nebraska's Advisory Committee to the Governor on Mental Health Services. Brad is married to Donna, his sweetheart since college. They have two married adult children, Noah and Noelle, and two grandchildren, Ava and Jayden, who bring them great joy! You may contact Pastor Brad by emailing him at bradhoefs@freshhope.us.

Christiane Brems, in collaboration with new coauthor Christina Rasmussen, introduces prospective and practicing clinicians to theories and principles of applied clinical work with children ages three to twelve years. The authors take an integrated approach to understanding children and their families, using a biopsychosociocultural model for conceptualization and treatment planning. Their methods are practical and compassionate, as well as contextually grounded and individually tailored. Chapters follow the logical development of clinicians, mirroring the natural flow of work with children. Coverage ranges from the importance of a beginning practitioner's introspection and of ethical and legal issues to a variety of intervention

techniques and strategies and, finally, termination. Case studies showcase individualized and mindful treatment for each child with whom a clinician works. Outstanding Features of the Fourth Edition . . . · Essential attention to how clinicians' self-awareness can lead to positive therapeutic relationships with children and their families. · Thorough discussions of the biopsychosociocultural model for conceptualization and treatment planning. · Emphasis on intensive assessment prior to treatment planning to address the needs of each child and family. · A compelling, practical exploration of mindfulness intervention with children. The authors' methodology addresses the profound effects of the larger environment and culture on children. By adopting the authors' integrated approach, clinicians are better able to understand important and complicated aspects of a child's and family's life. From there, compassionate, thoughtful, and relevant intervention ensues.

Fresh Hope John Wiley & Sons

Introducing a breakthrough, integrative approach to managing your borderline personality disorder (BPD). If you've been diagnosed with BPD you may feel a number of emotions—including shock, shame, sadness, abandonment, emptiness, or even anger. Even worse, you may be tempted to

research your diagnosis online, only to find doomsday scenarios and terrible prognoses everywhere you click. Take a deep breath. You can get through this—and this workbook will help guide you. Despite what you may have read or been told, BPD is not the worst thing that can happen to you. Like many mental health issues, it manifests on a spectrum, and while some people may encounter extreme symptoms and consequences on one end, others may be less affected on the other. What do you all have in common? You likely experience difficulty balancing your emotions, thoughts, and behaviors. And you may even have trouble seeing yourself clearly—continuously switching from the hero to the villain of the story you've written about your life. So, how can you make sense of it all and start on the road to healing? Rather than utilizing a one-size-fits-all treatment, this groundbreaking and comprehensive workbook meets you where you are on your therapeutic journey, and provides an integrative approach to treating BPD drawing on evidence-based dialectical behavior therapy (DBT), acceptance and commitment therapy (ACT), cognitive behavioral therapy (CBT), and interpersonal therapy. With this compassionate workbook, you'll gain a greater understanding of your BPD, uncover your own emotional triggers, and discover your own personal motivators for positive change. Your BPD has determined how you see and live your life, but it doesn't have to define you forever. With this workbook as your guide, you'll be ready to face your diagnosis head-on, and take those important first steps toward lasting wellness.

Your teen years are a time of change, growth, and—all too often—psychological struggle. To make matters worse, you are often your own worst critic. The Self-Compassion Workbook for Teens offers valuable tools based in mindfulness and self-compassion to help you overcome self-judgment and self-criticism, cultivate compassion toward yourself and others, and embrace who you really are. As a teen, you’re going through

major changes—both physically and mentally. These changes can have a dramatic effect on how you perceive, understand, and interpret the world around you, leaving you feeling stressed and anxious. Additionally, you may also find yourself comparing yourself to others—whether its friends, classmates, or celebrities and models. And all of this comparison can leave you feeling like you just aren't enough. So, how can you move past feelings of stress and insecurity and start living the life you really want? Written by psychologist Karen Bluth and based on practices adapted from Kristin Neff and Christopher Germer's Mindful Self-Compassion program, this workbook offers fun and tactile exercises grounded in mindfulness and self-compassion to help you cope more effectively with the ongoing challenges of day-to-day life. You'll learn how to be present with difficult emotions, and respond to these emotions with greater kindness and self-care. By practicing these activities and meditations, you'll learn specific tools to help you navigate the emotional ups and downs of the teen years with greater ease. Life is imperfect—and so are we. But if you're ready to move past self-criticism and self-judgment and embrace your unique self, this compassionate guide will light the way.
