This sophisticated book argues that human rights literature both helps the persecuted to cope with their trauma and serves as the foundation for a cosmopolitan ethos of universal civility—a culture without borders. Michael Galchinsky maintains that, no matter how many treaties there are, a rights-respecting world will not truly exist until people everywhere can imagine it. The Modes of Human Rights Literature describes four major forms of human rights literature: protest, testimony, lament, and laughter to reveal how such works give common symbolic forms to widely held sociopolitical emotions.

Deeds's subtle, meticulous, and wildly imaginative pencil and crayon drawings portray an unusual cast of characters: nineteenth-century dandies, Civil War soldiers, antique cars, fantastic boats and trains, country landscapes dotted with roaming animals, and fanciful architecture. None of these existed in the actual mid-twentieth-century landscape of Deeds's own life, but rather were representations of his inner world—an artist's poignant tribute to a faded past. Deeds lovingly bound his artwork in a cardboard and leather portfolio, a present for his mother. After being accidentally discarded in 1970, the album was rescued from the trash by a young boy and, thirty-six years later, came into the hands of artist and collector Harris Diamant, who provides the book's foreword. The Electric Pencil features all 283 of Deeds's arresting drawings—now avidly collected—done on ledger sheets from State Hospital No. 3 in Nevada, Missouri, and reproduced in the sequence of the original album. The Electric Pencil introduces readers to an astonishing record of one man's unwavering artistic

vision in the face of the most inhospitable conditions.

Reimagining the scholarly book as living and collaborative--not as commodified and essentialized, but in all its dynamic materiality. In this book, Janneke Adema proposes that we reimagine the scholarly book as a living and collaborative project--not as linear, bound, and fixed, but as fluid, remixed, and liquid, a space for experimentation. She presents a series of cutting-edge experiments in arts and humanities book publishing, showcasing the radical new forms that book-based scholarly work might take in the digital age. Adema's proposed alternative futures for the scholarly book go beyond such print-based assumptions as fixity, stability, the single author, originality, and copyright, reaching instead for a dynamic and emergent materiality. Adema suggests ways to unbind the book, describing experiments in scholarly book publishing with new forms of anonymous collaborative authorship, radical open access publishing, and processual, living, and remixed publications, among other

practices. She doesn't cast digital as the solution and print as the problem; the problem in scholarly publishing, she argues, is not print itself, but the way print has been commodified and essentialized. Adema explores alternative, more ethical models of authorship; constructs an alternative genealogy of openness; and examines opportunities for intervention in current cultures of knowledge production. Finally, asking why it is that we cut and bind our research together at all, she examines two book publishing projects that experiment with remix and reuse and try to rethink and reperform the book-apparatus by taking responsibility for the cuts they make.

Music, and folk music in particular, is often embraced as a form of political expression, a vehicle for bridging or reinforcing social boundaries, and a

valuable tool for movements reconfiguring the social landscape. *Reds, Whites, and Blues* examines the political force of folk music, not through the meaning of its lyrics, but through the concrete social activities that make up movements. Drawing from rich archival material, William Roy shows that the People's Songs movement of the 1930s and 40s, and the Civil Rights Movement of the 1950s and 60s implemented folk music's social relationships--specifically between those who sang and those who listened--in different ways, achieving different outcomes. Roy explores how the People's Songsters envisioned uniting people in song, but made little headway beyond leftist activists. In contrast, the Civil Rights Movement successfully integrated music into collective action, and used music on the picket lines, at sit-ins, on freedom rides, and in jails. Roy considers how the movement's Freedom Songs never gained commercial success, yet contributed to the wider achievements of the Civil Rights struggle. Roy also traces the history of folk music, revealing the complex debates surrounding who or what qualified as "folk" and how the music's status as

racially inclusive was not always a given. Examining folk music's galvanizing and unifying power, *Reds, Whites, and Blues* casts new light on the relationship between cultural forms and social activity. [New Headway: Beginner: Workbook \(without Key\)](#) Chronicle Books This book received the XV Research Award of the Spanish Association of Applied Linguistics (XV Premio de Investigación de la Asociación Española de Lingüística Aplicada) 2012. The present volume bears witness to the Europe-wide character of the Content and Language Integrated Learning (CLIL) enterprise by featuring contributions from researchers and teacher-educators from a range of European countries spanning the geographical expanse of the continent from east (Estonia) to west (United Kingdom) and from north (Finland) to south (Spain, Italy). More importantly, the different national contexts are characterised by diverse cultural stances and policies vis-à-vis second and foreign language learning in general and learning specific languages in particular and it is evident that such contextual factors impinge on what are identified as central

concerns both in CLIL implementation and research.

"The journalist who broke the "Jihadi John" story draws on her personal experience to bridge the gap between the Muslim world and the West and explain the rise of Islamic radicalism Souad Mekhennet has lived her entire life between worlds. The daughter of a Turkish mother and a Moroccan father, she was born and educated in Germany and has worked for several American newspapers. Since the 9/11 attacks she has reported stories among the most dangerous members of her religion; when she is told to come

alone to an interview, she never knows what awaits at her destination. In this compelling and evocative book, Mekhennet seeks to answer the question, "What is in the minds of these young jihadists, and how can we understand and defuse it?" She has unique and exclusive access into the world of jihad and sometimes her reporting has put her life in danger. We accompany her from Germany to the heart of the Muslim world -- from the Middle East to North Africa, from Sunni Pakistan to Shia Iran, and the Turkish/Syrian border region where ISIS is a daily presence. She then returns to Europe, first in London, where she uncovers the identity of the notorious ISIS executioner "Jihadi John," and then in Paris and Brussels, where terror has come to the heart of Western civilization. Too often we find ourselves unable to see the human stories behind the headlines, and so Mekhennet - with a foot in many different camps - is the ideal guide to take us where no Western reporter can go. Her story is a journey that changes her life and will have a deep impact on us as well"--

An inspiring firsthand investigation into the crucial challenge of turning teenagers into lifelong readers It's hardly a secret that millions of American kids, caught up in social media, television, movies, and games, don't read seriously--that is, they associate serious reading with duty or work, not with pleasure. This indifference has become a grievous loss to our standing as a great nation--and a personal loss, too, for millions of teenagers who may turn into adults with limited understanding of themselves and others. Can this be changed? Can teenagers be turned on to literature? What kind of teachers can do it, and what books? To

find out, Denby sat in on a tenth-grade English class in a New York public school for an entire academic year, and made frequent visits to an inner-city public school in New Haven and to a respected public school in Westchester county. He read all the stories, poems, plays, and novels that the kids were reading, and here combines a chronicle of what he observed with fresh and inspiring encounters with the books themselves, including *The Scarlet Letter*, *Brave New World*, 1984, *The Alchemist*, *Slaughterhouse Five*, *The Kite Runner*, *Long Way Gone* and many more.

Denby's book is a dramatic narrative that traces awkward and baffled beginnings but also exciting breakthroughs and the emergence of pleasure in reading. In a sea of bad news about education and the fate of the book, David Denby reaffirms the power of great teachers and the importance and inspiration of great literature.

From the Booker-shortlisted author acclaimed as having "no literary precedent" (Independent) comes a gently

absurd examination of the systems that trap and frustrate us daily. Fans of dry humor will enjoy this tale of mishap and folly, told from the point of view of a bus driver who's been charged to maintain a precise distance between himself and other buses--a directive that leads him to ignore the very passengers he's meant to serve. Witty, allegorical, and intelligent, this is a novel for all those who have ever run for a bus, only to have it pull away as they reach its doors. Showcasing all of Mills' strengths, it is the perfect reintroduction for American readers to an incomparable talent.
