"As I was seated in remembrance and contemplation one night, in front of me appeared a great stag, shining and shimmering in whiteness, and there was a concentration of brilliant white light above its head. The stag was some feet away and was moving toward me. As it got closer, I could see that the white light on its head was emanating from a flaming brand, a torch, lit, glowing with brilliant white star-like light. The flaming brand, 'qabas' in Quranic Arabic, was as if a projection from the top of its head. The stag came straight toward me, approached me until it was so near I could have reached out and touched it, and then the flaming brand that was on its head, was suddenly but so naturally, held by it in its mouth. The stag bowed its head and

placed this flaming brand, this qabas at my feet, and disappeared. As this happened the following verse flashed through my mind, and I knew I had been given permission to spread the teachings that are coming to me, and I was given the name under which to do so; It is 'Qabas', a flaming brand; a torch for warmth and a light for guidance. **إِذْ رَأَىٰ نَارًا فَقَالَ لِأَهْلِهِ امْكُتُوا إِنِّي أَنَا عَلَىٰ نَارٍ هَدًى** Quran: surah 20, ayah 10 When he saw a fire he said to his family, "tarry here, I have indeed perceived a fire maybe I can bring you from it a flaming brand or I can find guidance at the fire"\*\*\*This is the first volume in the four volume Qabas series. It collects 40 poems, composed of four series of 10 pieces each, that are collected for the blessing and spiritual state of the number 40. These poems were penned by the author during the years preceding her formal initiation into spiritual training. Works written during the beginning, middle, and end stages of her training comprise volumes 2, 3 and 4 in this series.

The provision of support for troops in Iraq and Afghanistan is made more difficult because they operate in remote locations and harsh conditions. Despite the challenging operational environments, the Ministry of Defence (MOD) has successfully delivered around 300,000 personnel and 90,000 tonnes of freight to Iraq and Afghanistan over the last two years. However, it has not consistently met its targets for delivering supplies in a timely fashion. The MOD is taking measures to improve the effectiveness of its supply chain; and the amount of time a unit waits for items to be delivered has reduced by half in Afghanistan and a third in Iraq. £4.2 billion has been approved to upgrade or buy new equipment to meet urgent requirements in the two theatres. The NAO found that the availability of this equipment

has generally met or exceeded targets, though there have been spares shortages with some fleets particularly when the vehicle is used for a different purpose than intended. The availability and serviceability of helicopters has exceeded MOD targets, although prioritisation of spare parts for operations has led to reduced availability in the UK. There are also shortages of equipment for Service personnel in the UK to train with, prior to deployment overseas. Accommodation, medical and welfare services to Service personnel on operations are generally satisfactory

although provision at the smaller patrol bases is more basic. The helicopter borne Medical Emergency Response Teams provide quick, life-saving medical support to casualties and evacuate them speedily to hospital.
