"History" sounds really official. Like it's all fact. Like it's definitely what happened. But that's not necessarily true. History was crafted by the people who recorded it. And sometimes, those historians were biased against, didn't see, or couldn't even imagine anyone different from themselves. That means that history has often left out the stories of LGBTQIA+ people: men who loved men, women who loved women, people who loved without regard to gender, and people who lived outside gender boundaries. Historians have even censored the lives and loves of some of the world's most famous people, from William Shakespeare and Pharaoh Hatshepsut to Cary Grant and Eleanor Roosevelt. Join author Lee Wind for this fascinating journey through primary sources—poetry, memoir, news clippings, and images of ancient artwork—to explore the hidden (and often surprising) Queer lives and loves of two dozen historical figures.

An investigation of love in all its forms, featuring conversations with Lisa Taddeo, Esther Perel, Emily Nagoski, Kate Bowler, Alain de Botton, Stephen Grosz, Roxane Gay and others Journalist Natasha Lunn was almost 30 when she realized that there was no map for understanding love. While she was used to watching friends fall in and out of love, the older she got the more she had to acknowledge: her friends' relationship struggles could no longer be chalked up to youth, and the more she learned about

her parents, grandparents, work colleagues, and mentors the clearer it became that age had not brought any of them any closer to understanding this elusive, transformative, consuming emotion. One night during the months she found this realization settling over her, she sat up in bed and jotted three words in a notebook: conversations on love. In that moment, Lunn understood that she didn't want advice about love, she wasn't looking for the answers, or evergreen wisdom but she craved candid, wide-ranging, sometimes uncomfortable conversations about the parts of love that often don't make it into our everyday discussions of marriage, sibling relationships, friendships, or mother/daughter bonds. *Conversations on Love* started as an experiment aimed at interviewing experts about what love meant to them, in all of it's messiness, and quickly blossomed into a newsletter that attracted thousands of subscribers and a prestigious range of interviewees. It turns out that Lunn wasn't the only person ready to talk more openly and expansively about love. Interweaving personal essays and revealing interviews with some of the most sought-after experts on love, journalist Natasha Lunn guides us through the paradoxical heart of three key questions about love--How do we find love? How do we sustain it? And how do we survive when we lose it?--to deliver a book that is a solace, a beacon, a call to arms, a tool-kit. The real-life love stories in these pages will leave you hopeful and validated, while the insights from experts will transform the way you think about your relationships. Above all, *Conversations on Love* will remind you what love is: fragile, sturdy, mundane, beautiful, always worth fighting for.

A NEW YORK TIMES NOTABLE BOOK OF 2017 From the author of the viral New York Times op-ed column "To Siri with Love" comes a collection of touching, hilarious, and illuminating stories about life with a thirteen-year-old boy with autism that hold insights and revelations for us all. When Judith Newman shared the story of how Apple's electronic personal assistant, Siri, helped Gus, her son who has autism, she received widespread media attention and an outpouring of affection from readers around the world. Basking in the afterglow of media attention, Gus told anyone who would listen, "I'm a movie star." Judith's story of her son and his bond with Siri was an unusual tribute to technology. While many worry that our electronic gadgets are dumbing us down, she revealed how they can give voice to others, including children with autism like Gus—a boy who has trouble looking people in the eye, hops when he's happy, and connects with inanimate objects on an empathetic level. *To Siri with Love* is a collection of funny, poignant, and uplifting stories about living with an extraordinary child who has helped a parent see and experience the world differently. From the charming (Gus weeping with sympathy over the buses that would lie unused while the bus drivers were on strike) to the painful (paying \$22,000 for a behaviorist in

Manhattan to teach Gus to use a urinal) to the humorous (Gus's insistence on getting naked during all meals, whether at home or not, because he does not want to get his clothes dirty) to the profound (how an automated "assistant" helped a boy learn how to communicate with the rest of the world), the stories in *To Siri with Love* open our eyes to the magic and challenges of a life beyond the ordinary.

All About Love John Wiley & Sons

In this must-have for anyone who wants to better understand their love life, a mathematician pulls back the curtain and reveals the hidden patterns—from dating sites to divorce, sex to marriage—behind the rituals of love. The roller coaster of romance is hard to quantify; defining how lovers might feel from a set of simple equations is impossible. But that doesn't mean that mathematics isn't a crucial tool for understanding love. Love, like most things in life, is full of patterns. And mathematics is ultimately the study of patterns—from predicting the weather to the fluctuations of the stock market, the movement of planets or the growth of cities. These patterns twist and turn and warp and evolve just as the rituals of love do. In *The Mathematics of Love*, Dr. Hannah Fry takes the reader on a fascinating journey through the patterns that define our love lives, applying mathematical formulas to the most common yet complex questions pertaining to love: What's the chance of finding love? What's the probability that it will last? How do online dating algorithms work, exactly? Can game theory help us decide who to approach in a bar? At what point in your dating life should you settle down? From evaluating the best strategies for online dating to defining the nebulous concept of beauty, Dr. Fry proves—with great insight, wit, and fun—that math is a surprisingly useful tool to negotiate the complicated, often baffling, sometimes infuriating, always interesting, mysteries of love.

"The most crucial relationship advice book since *Men Are from Mars*."—Erin Meanley, *Glamour.com* A groundbreaking, interactive relationship tool that literally places in the hands of couples the power to transform chronically frustrating relationship dynamics. We've all been there. A conversation with a loved one escalates into conflict. Voices rise to a fever pitch and angry, accusative words fly through the air. At times like these, it seems impossible to find the magic words that will lead to healing. Enter *Talk to Me Like I'm Someone You Love*. A psychotherapist with decades of experience in counseling couples, Nancy Dreyfus hit upon the revolutionary practice outlined in this book during a couples-therapy session in which a wife's unrelenting criticism of her husband was causing him to become emotionally withdrawn. In the midst of this, Dreyfus found herself scribbling on a scrap of paper, "Talk to me like I'm someone you love," and gestured to the husband that he should hold it up. He did and within seconds

the familiar power differential between the two shifted, and a gentler, more genuine connection emerged. Dreyfus was startled, then intrigued, and then motivated to create a tool that could help others. This book features more than one hundred of Dreyfus's "flash cards for real life," written statements that express what we wish we could communicate to the person we love, but either can't find the right words or the right tone in which to say it. The statements include: • Taking responsibility: "I realize I'm overreacting. Can you give me a minute to get sane again?" • Apologizing: "I know I've really hurt you. What can I do to help you trust me again?" • Loving: "You are precious, and I get that I haven't been treating you like you are." A one-of-a-kind, practical relationship tool, *Talk to Me Like I'm Someone You Love* will help couples to stop arguing and begin healing.

Talking to Strangers Vintage

"A beautifully written and well-researched cultural criticism as well as an honest memoir" (Los Angeles Review of Books) from the author of the popular New York Times essay, "To Fall in Love with Anyone, Do This," explores the romantic myths we create and explains how they limit our ability to achieve and sustain intimacy. What really makes love last? Does love ever work the way we say it does in movies and books and Facebook posts? Or does obsessing over those love stories hurt our real-life relationships? When her parents divorced after a twenty-eight year marriage and her own ten-year relationship ended, those were the questions that Mandy Len Catron wanted to answer. In a series of candid, vulnerable, and wise essays that takes a closer look at what it means to love someone, be loved, and how we present our love to the world, "Catron melds science and emotion beautifully into a thoughtful and thought-provoking meditation" (Bookpage). She delves back to 1944, when her grandparents met in a coal mining town in Appalachia, to her own dating life as a professor in Vancouver. She uses biologists' research into dopamine triggers to ask whether the need to love is an innate human drive. She uses literary theory to show why we prefer certain kinds of love stories. She urges us to question the unwritten scripts we follow in relationships and looks into where those scripts come from. And she tells the story of how she decided to test an experiment that she'd read about—where the

goal was to create intimacy between strangers using a list of thirty-six questions—and ended up in the surreal situation of having millions of people following her brand-new relationship. "Perfect fodder for the romantic and the cynic in all of us" (Booklist), *How to Fall in Love with Anyone* flips the script on love. "Clear-eyed and full of heart, it is mandatory reading for anyone coping with—or curious about—the challenges of contemporary courtship" (The Toronto Star).

A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

Conversations on Love John Wiley & Sons
 New York Times bestselling author Susan Scott guides couples through eight must-have conversations to create a fierce love that stands the test of time and grows stronger over the years. Often in our romantic relationships, we long for deep connection, but we don't know how to communicate well and sometimes withhold what we're really thinking and feeling. This can lead to fighting, resentment, or, worse, complacency--where you are just going through the motions, more like roommates than two people in love. As Susan writes, "It's as if we've pulled off our own wings." As couples, we don't stop to think how important our conversations are. And we certainly don't understand that what we talk about and how we talk about it determine whether our

relationships will thrive, flatline, or fail. In *Fierce Love*, New York Times bestselling author Susan Scott guides couples through eight must-have conversations that lead to deep connection and lasting commitment. Through the use of true stories and hands-on exercises, Susan helps us understand that the conversation is the relationship; identify and dispel five relationship myths that mislead and derail us; learn eight conversations that are critical to enriching relationships; and stop fighting or ignoring issues and start connecting in a deep and meaningful way. After a season where many relationships were tested and tried, where some relationships thrived and others have exposed cracks couples didn't even realize were there, or realized but didn't acknowledge, now is the best time to learn to communicate well. By having honest, compelling conversations with our partners, we can foster true connection and a fierce love that will withstand the test of time and grow stronger over the years.
