Visiting the zoo inspires Danny and his friend to make up a story — and soon his drawings take on a wonderful life of their own. When Danny brings his drawing book to the zoo, it doesn't take long to find ideas to put in it. First he draws an elephant with a red scarf, then an aardvark with a green hat, then his friend Ettie and himself, then an airplane to take them all . . . to Africa! And how do the two friends get home when their excursion is

done? As with any reading adventure, they simply close the book — until next time.

Recently single, Danny Wallace was falling into loneliness and isolation. When a stranger on a bus advises, "Say yes more," Wallace vows to say yes to every offer, invitation, challenge, and chance. In *Yes Man*, Wallace recounts his months-long commitment to complete openness with profound insight and humbling honesty. Saying yes takes Wallace into a new plane of existence: a place where money comes as easily as it goes, nodding a lot can lead to a long weekend overseas with new friends, and romance isn't as complicated

as it seems. Yes eventually leads to the biggest question of all: "Do you, Danny Wallace, take this woman . . ." Yes Man is inspiring proof that a little willingness can take anyone to the most wonderful of places.

Newbery Award-winning and New York Times bestselling author Matt de la Peña's *Mexican WhiteBoy* is a story of friendship, acceptance, and the struggle to find your identity in a world of definitions. Danny is tall and skinny. Even though he's not built, his arms are long enough to give his pitch a power so fierce any college scout would sign him on the spot. Ninety-five mile an hour fastball, but the boy's not even on a

team. Every time he gets up on the mound, he loses it. But at his private school, they don't expect much else from him. Danny is brown. Half-Mexican brown. And growing up in San Diego that close to the border means everyone else knows exactly who he is before he even opens his mouth. Before they find out he can't speak Spanish, and before they realize his mom has blond hair and blue eyes, they've got him pegged. But it works the other way too. And Danny's convinced it's his whiteness that sent his father back to Mexico. That's why he's spending the summer with his dad's family. But to find himself, he may just have to face the demons he refuses to see--the demons that are right in front of his face. And open up to a friendship he never saw coming. Matt de la Peña's critically acclaimed novel is an intimate and moving story that offers hope to those who least expect it. Danny's struggle to find his place will speak strongly to all teens, but especially to those of mixed race." --Booklist "De la Peña blends sports and street together in a satisfying search for personal identity." -Kirkus Reviews "Mexican WhiteBoy...shows that no matter what obstacles you face, you can still reach your dreams with a positive attitude. The end of our high-growth world was underway well before COVID-19 arrived. In this powerful and timely argument, Danny Dorling demonstrates the benefits of a larger, ongoing societal slowdown Drawing from an incredibly rich trove of global data, this groundbreaking book reveals that human progress has been slowing down since the early 1970s. Danny Dorling uses compelling visualizations to illustrate how fertility rates, growth in GDP per

person, and even the frequency of new social movements have all steadily declined over the last few generations. Perhaps most surprising of all is the fact that even as new technologies frequently reshape our everyday lives and are widely believed to be propelling our civilization into new and uncharted waters, the rate of technological progress is also rapidly dropping. Rather than lament this turn of events, Dorling embraces it as a moment of promise and a move toward stability, and he notes that many of the older great strides in progress that have defined recent history also brought with them widespread warfare, divided societies, and massive inequality.

"Sam, could you do me a favor?" Thus begins a story that has now become part of America's true crime hall of fame. It is a gory, grotesque tale befitting a Stephen King novel. It is also a David and Goliath saga—the story of a young lawyer fresh from the Public Defender's Office whose first client in private practice turns out to be the worst serial killer in our nation's history. Sam Amirante had just opened his

first law practice when he got a phone call from his friend John Wayne Gacy, a well-known and well-liked community figure. Gacy was upset about what he called "police harassment" and asked Amirante for help. With the police following his every move in connection with the disappearance of a local teenager, Gacy eventually gave a drunken, dramatic, early morning confession—to his new lawyer. Gacy was eventually charged with murder and Amirante suddenly became the defense attorney for one of America's most disturbing serial killers. It was his first case. This new edition of John Wayne Gacy, which contains updated material about the case that has come to light since the book's original publication, recounts the gruesome killings and the famous trial that shocked a nation.

Tan Callahan, Great Detective, is back in a series that has been described as 'interesting, exciting and excellent!' Tan has never been fond of the old machinery

shed. It's dusty and airless, full of dark secrets and bad memories. There's a mountain of junk in there too, broken chairs, sideboards, couches, books and overcoats. But worse still is the creepy portrait of an unnamed little girl. She has cold, dark eyes and a gloomy face. And if the girl isn't scary enough the china doll she's holding looks downright malicious. Tan vows to avoid the shed and the portrait at all costs. But when Great Aunt Aggie comes to stay, Tan discovers there's a whole lot more to the portrait than she ever imagined. There's a whole lot more to Great Aunt Aggie, too.

Have you ever woken up in the sultry heat of the morning, your hair and beard teeming with maggots? Have you ever felt the cold barrel of a semi automatic gun against your forehead? When Danny Bent cycled 15,000 kilometres from the UK to India to raise money for ActionAid, it was a decision that took twenty years and one minute. For twenty years he had wanted to do something to raise money for charity. The one minute was when as their teacher he was put on the spot by his pupils and declared that the means was by bike, and he was going to India. What he had signed up for was slogging along roads with trucks bearing down on him, unable to see and choking in the smog; shooting down treacherous descents with 100 foot drops, shaking with cold and too numb to brake; muscle burn and saddle sores; delirium and food poisoning; thirst and malnutrition; foul and insanitary conditions; life-threatening crises; obstructive border guards, crazed dogs and inquisitive passers-by. 'You've Gone Too Far This Time, Sir ' is a real and compelling blow-by-blow account of Danny's trip across Europe, the former Soviet Republics, Russia, China, Pakistan

and India. And what people he met They are the true delight of this book, mostly charming, sometimes reckless, occasionally threatening, always unpredictable, and forever inviting Danny to be up for the challenge of entertaining them, in one instance by dancing in front of a packed stadium, in another by eating sheep's brains in a local night market. Danny turns the wheels, you turn the pages. The pace is relentless. The story is both heart-stopping and heart-warming. The arrival is breakdown-and-cry emotional. And there's loads of fun and wonderment along the way too. What a book What a ride Live your dream. Go for it, Danny.

If you need hope, you need to read this book. You Are Me is a fascinating, heartening true story of one person's journey from becoming crippled with amnesia by a car accident to recovering and becoming a parent to children who each needed a second chance at life. Our protagonist had the life he had always dreamed of—a great job, a partner, a nice home, and a great set of friends—a life many people dream of. At twenty-seven, a car accident left him severely handicapped and unable to remember his life before the car accident. The situation became worse when he was sent back to live with his parents in Alaska. Dealing with the unimaginable loss almost ended his life. Miracles happen when you least expect them. After seven years of trying, failing, giving up, and trying again, our

protagonist eventually recovered much of what the car accident took away. He eventually got a job that he was able to keep, and with that came an amazing second chance at life. Because of this second chance, he was compelled to adopt children who also needed second chances. He adopted twins, then got married, and then together with husband, Joseph, adopted more children. These children came bearing the signs of unspeakable trauma. What had happened to them? No one knew. Four other families had taken them in and decided they couldn't be parents to these children. Would these kids be able to recover from the damage that was done to their souls? Would these parents be able to love these children unconditionally? An event so implausible then threatens to tear apart the fragile family. Will the children ever have the family they so desperately need? Would there be a miracle for the children?
