Das vorliegende Buch untersucht die semantischen und diskurspragmatischen Eigenschaften indefiniter Nominalphrasen. Dabei wird der Zusammenhang zwischen den folgenden zwei Faktoren untersucht: (i) der referenziellen Form (markierte indefinite Nominalphrasen vs. unmarkierte indefinite Nominalphrasen), und (ii) dem diskursstrukturierenden Potential. Durch eine sprachvergleichende Studie mit Schwerpunkt auf Englisch, Deutsch und Rumänisch, wird die Analyse der Funktionen

unterschiedlicher indefiniter Nominalphrasen empirisch gestützt und weiterentwickelt. Damit wird die Arbeit zu einem besseren Verständnis von Textstruktur, den kognitiven Grundlagen von Textproduktion und Textverständnis, sowie den allgemeinen Prinzipien der Kommunikation zwischen Gesprächsteilnehmern beitragen.

*Manual de Gramática with Atajo CD-ROM* Walter de Gruyter GmbH & Co KG

This third edition of this text presents the major grammatical contrasts between English and Spanish in a simple and direct manner that is ideal for teachers of either language. This book addresses difficult grammatical topics for the English speaker, such as the question of aspect (preterit/imperfect) and the Spanish indicative/subjunctive; the English modal auxiliary system; and other challenging topics for the Spanish speaker. This reworked and expanded edition presents a complete inventory of all the major inter-lingual contrasts, emphasizing those contrasts that pose difficulties for teachers and students alike. The text features numerous exercises and, new with this edition, an extensive glossary of grammatical terms. Answer key available for download from the "features" tab on the publisher's website:

*Spanish 1B* Cengage Learning

The Oxford Guide to English Grammar is a systematic account of grammatical forms and the way they are used in modern standard English. It is designed for learners at intermediate and advanced levels and for teachers, and is equally suitable for quick reference to details or for the moreleisured study of grammatical topics. The emphasis is on meaning in the choice of grammatical pattern, and on the use of patterns in texts and in conversations.

*Compendio de gramática española* John Benjamins Publishing Company

Mapuche is the language of the Mapuche (or Araucanians), the native inhabitants of central Chile. The Mapuche language, also called Mapudungu, is spoken by about 400,000 people in Chile and 40,000 in Argentina. The Mapuche people, estimated at about one million, constitute the majority of the Chilean indigenous population. The history of the Mapuche is the story of passionate fighters who managed to stop the Inca's but succumbed to the Spanish invaders after two and a half century of warfare. The relationship of the Mapuche language with other Amerindian languages has not yet been established. Mapuche is a highly agglutinative language with a complex verbal morphology. This book offers a comprehensive and detailed description of the Mapuche language. It contains a grammar (phonology, morphology and syntax), a collection of texts

(stories, conversations and songs) with morphological analyses and free translations, and a Mapuche-English dictionary with a large number of derivations and examples. The grammar is preceded by a socio-historical sketch of the Mapuche people and a brief discussion of previous studies of the Mapuche language. The material for the description was collected by the author with the help of five Mapuche speakers with attention to the dialectal differences between them. The abundance of thoroughly analysed examples makes for a lively description of the language. The intricacy of the verbal morphology will arouse the interest not only of those who practice Amerindian linguistics but also of those who are interested in language theory and language typology.

Routledge

Linguistics investigates the systems underlying language, speech, and language use. Linguists seek to develop an understanding of the rules and laws that govern the structure and use of particular languages and the manner in which these interact with internal systems and processes (interpretation, speech perception, and production) and with the outside world (acquisition, use, change and role in society). The articles in this volume present a valuable addition to answering three important questions about knowledge in linguistics: What is knowledge in linguistics, how is it acquired, and how is it put to use? Apart from the data on the specific phenomena addressed in the articles, the book presents insight into the palette of present-day linguistics. In this way, it aims to break open the division of linguistics into subfields thereby making possible cross-fertilisation.

*Cahiers de Linguistique Théorique Et Appliquée* Random House Trade

The papers assembled in this volume aim to contribute to our understanding of the human capacity for language: the generative procedure that relates sounds and meanings via syntax. Different hypotheses about the properties of this generative procedure are under discussion, and their connection with biology is open to important cross-disciplinary work. Advances have been made in human-animal studies to differentiate human language from animal communication. Contributions from neurosciences point to the exclusive properties of the human brain for language. Studies in genetically based language impairments also contribute to the understanding of the properties of the language organ. This volume brings together contributions on theoretical and experimental investigations on the Language Faculty. It will be of interest to scholars and students investigating the properties of the biological basis of language, in terms the modeling of the language faculty, as well as the properties of language variation, language acquisition and language impairments.

**Clitics, Pronouns and Movement** Springer Science & Business Media

This book presents a first comprehensive typological analysis of noun phrases in Australian languages, covering the domains of classification, qualification, quantification, determination and constituency. The analysis is based on a representative sample of 100 languages. Among other points, the results call into question the classic idea that Australian languages tend to lack phrasal structures in the nominal domain, with over two thirds of the languages showing evidence for phrasehood. Moreover, it is argued that it may be more interesting to typologise languages on the basis of where and how they allow phrasal structure, rather than on the basis of a yes-no answer to the question of constituency. The analysis also shows that a determiner slot can be identified in about half of the languages, even though they generally lack 'classic' determiner features like obligatory use in particular contexts or a restriction to one determiner per NP.

Special attention is given to elements, which can be used both inside and beyond determiner slots, demonstrating how part of speech and functional structure do not always align. The book is of interest to researchers documenting Australian languages, as well as to typologists and theorists.

*Dos mundos* John Benjamins Publishing

This pack consists of the Basic English Grammar B Student Book and the Workbook B. Blending communicative and interactive approaches with tried-and-true grammar teaching, Basic English Grammar, Third Edition, by Betty Schramper Azar and Stacy A. Hagen, offers concise, accurate, level-appropriate grammar information with an abundance of exercises, contexts, and classroom activities. Features of Basic English Grammar, Third Edition: Increased speaking practice through interactive pair and group work. New structure-focused listening exercises. More activities that provide real communication opportunities. Added illustrations to help students learn vocabulary, understand contexts, and engage in communicative language tasks. New Workbook solely devoted to self-study exercises. New Audio CDs and listening script in the back of the Student Book.

**Ways of Going Home** Ultimate Beginner-Intermediate

Alejandro Zambra's *Ways of Going Home* begins with an earthquake, seen through the eyes of an unnamed nine-year-old boy who lives in an undistinguished middleclass housing development in a suburb of Santiago, Chile. When the neighbors camp out overnight, the protagonist gets his first glimpse of Claudia, an older girl who asks him to spy on her uncle Raúl. In the second section, the protagonist is the writer of the story begun in the first section. His father is a man of few words who claims to be apolitical but who quietly sympathized—to what degree, the author isn't sure—with the Pinochet regime. His reflections on the progress of the novel and on his own life—which is strikingly similar to the life of his novel's protagonist—expose the raw suture of fiction and reality. *Ways of Going Home* switches between author and character, past and present, reflecting with melancholy and rage on the history of a nation and on a generation born too late—the generation which, as the author-narrator puts it, learned to read and write while their parents became accomplices or victims. It is the most personal novel to date from Zambra, the most important Chilean author since Roberto Bolaño.

*Expresate!* Houghton Mifflin

(abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries, and it is set fair to overtake English by the year 2000 in numbers of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Española, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the *Nuevas normas de prosodia y ortografía*, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes

mutually hostile countries. Peninsular Spanish is itself in flux. Special Indefinites in Sentence and Discourse Cengage Learning  
The Cambridge Advanced Learner's Dictionary gives the vital support which advanced students need, especially with the essential skills: reading, writing, listening and speaking. In the book: \* 170,000 words, phrases and examples \* New words: so your English stays up-to-date \* Colour headwords: so you can find the word you are looking for quickly \* Idiom Finder \* 200 'Common Learner Error' notes show how to avoid common mistakes \* 25,000 collocations show the way words work together \* Colour pictures: 16 full page colour pictures On the CD-ROM: \* Sound: recordings in British and American English, plus practice tools to help improve pronunciation \* UNIQUE! Smart Thesaurus helps you choose the right word \* QUICKfind looks up words for you while you are working or reading on screen \* UNIQUE! SUPERwrite gives on screen help with grammar, spelling and collocation when you are writing \* Hundreds of interactive exercises

*A Typological Study* John Benjamins Publishing

The second edition of *Modern Brazilian Portuguese Grammar Workbook* is an innovative book of exercises and language tasks for all learners of Brazilian Portuguese. The book is divided into two sections: • Part A provides exercises based on essential grammatical structures • Part B practises everyday functions (e.g. making social contact, asking questions and expressing needs). A comprehensive answer key at the back of the book enables you to check on your progress. The *Modern Brazilian Portuguese Grammar Workbook* is ideal for all learners who have a basic knowledge of Brazilian Portuguese, including undergraduates taking Brazilian Portuguese as a major or minor part of their studies, as well as intermediate and advanced school, adult education and self-study students. While primarily intended for use in conjunction with *Modern Brazilian Portuguese Grammar: A Practical Guide*, it can also serve as an independent resource.

The transformational syntax of Romanian Cambridge Scholars

Publishing

This volume represents the first work published in English dealing with the historical grammar of Romanian from a modern theoretical perspective. It consists of a selection of papers focusing on the historical grammar of Romanian, bringing together diverse theoretical approaches in order to address a number of key morphological and syntactic issues in the history of the morphosyntactic development of Romanian. The majority of papers in this volume deal with topics in Romanian historical syntax, drawing on modern research methods and current linguistic theory, with a clear preference for parametric syntax. The most significant areas of grammar, namely the nominal domain and the verbal domain, are well represented in this volume.

*Final Report of the Director on the National Defense Language Institute for Secondary School Teachers of French and Spanish* Heinle & Heinle Pub

The CONECTADOS Communication Manual includes standards-based activities designed for in-class use, with an emphasis on interpersonal communication. The program is composed of 12 chapters, which can easily be divided over semesters or quarters. Core information (thematic vocabulary, grammatical structures, and functional language) is integrated into manageable pasos. The end of each chapter in the Communication Manual is comprised of four sections, which the instructor can mix and match. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**The Syntax of Spanish Reflexive Verbs** Cengage Learning  
Taking an integrated-skills approach, *Imagenes* offers a strong emphasis on developing oral proficiency and cultural awareness and appreciation. The text's reduced scope and sequence combined with ample practice make it well suited for courses with fewer contact hours."

**The Fashion Design Manual** University Press of America  
The introduction to this volume by Anders Holmberg provides a reflection on movement in the light of recent developments in Minimalist theory. His discussion of the theories of category versus feature movement in terms of displacement and copying, provides the background for 12 papers dealing with clitics, pronouns and movement in variety of language families. Articles on Romance include papers on the genitive clitic in Andean Spanish, proclitic groups and word order in Caribbean Spanish, overt pronouns and empty categories in Brazilian Portuguese, the clitic *en* in Catalan, and clitic doubling in Romanian. Papers on Germanic discuss movement of verbal complements in Dutch and German, analyses of English finite auxiliaries in syntax and phonology, and complementizers in dialects of German in a reiterative syntax analysis. Other articles deal with object shift in Serbo-Croatian, operator-bound clitics in Niuean, a serial verb analysis of the *ba* construction in Mandarin Chinese, and experienter verbs in Japanese.
