CARINA LISA	

The Versatile Bassist Springer Nature During the 1980s, when pop icons like Madonna, Bruce Springsteen, Michael Jackson, and U2 reigned supreme, many regarded The Police as the biggest band in the world. Yet after only five albums—and at the peak of their popularity—The Police disbanded and Sting began a solo career that made him a global pop star. Today, artists from Puff Daddy to Gwen Stefani credit The Police and Sting as major influences on their own work, reflecting that The Police were not only a popular, polished rock act, but a powerfully influential one as well. In *Sting and The Police: Walking in Their Footsteps*, Aaron J. West explores the cultural and musical impact of Stewart Copeland, Andy Summers, and Sting. West details the distinctive hybrid character of The Police’s musical output, which would also characterize Sting’s post-Police career. Sting’s long-lived solo career embodies the power of the artful appropriation of musical styles, while capitalizing on the modern realities of pop music consumption. The Police—and Sting in particular—were pioneers in music video, modern label marketing, global activism, and the internationalization of pop music. *Sting and The Police: Walking in Their Footsteps* will interest more than just fans. By placing the band within its various musical, cultural, commercial, and historic contexts, *Sting and The Police: Walking in Their Footsteps* will appeal to anyone interested in global popular music culture.

Way more than just the bass-ics . . . Whatever you're playing—funk, soul, rock, blues, country—the bass is the heart of the band. Bassists provide a crucial part of the driving force and funky framework that other members of any band work off. From John Paul Jones of Led Zeppelin, to The Pixies' Kim Deal, to James Brown's favored bassist, Jimmy Nolan, bass players have made big names for themselves and commanded respect throughout music history. In *Bass Guitar For Dummies*, Patrick Pfeiffer—who coached U2's Adam Clayton, among others—is your friendly guide to laying down the low end. Starting from the beginning with what bass and accessories to buy, the book shows you everything from how to hold and position your instrument to how to read music and understand chords. You'll develop your skills step-by-step until you're confident playing your own solos and fills. Sharpen skills with instructional audio and video Discipline your play with exercises Understand chords, scales, and octaves Care for your instrument Whether you're new to the bass or already well into the groove, *Bass Guitar For Dummies* gives you the thorough balance of theory and practice that distinguishes the titanic Hall of Famer from the just so-so. P.S. If you think this book seems familiar, you're probably right. The Dummies team updated the cover and design to give the book a fresh feel, but the content is the same as the previous release of *Bass Guitar For Dummies* (9781118748800). The Story of Jamaican Music MIT Press

"Visitors to Jamaica are often unaware that reggae was a revolutionary music rooted in the suffering of Jamaica's poor. Rastafarians were once a target of police harassment and public condemnation. Now the music is a marketing tool, and the Rastafarians are no longer a "violent counterculture" but an important symbol of Jamaica's new cultural heritage."

Audio includes band examples with and without bass; students can hear it and play along. 25 examples included, written in bass clef and tab.

The Worship Bass Book Reggae BassThe Complete Guide to Reggae and Jamaican Bass Styles

The double bass - the preferred bass instrument in popular music during the 1960s - was challenged and subsequently superseded by the advent of a new electric bass instrument. From the mid-1960s and throughout the 1970s, a melismatic and inconsistent approach towards the bass role ensued, which contributed to a major change in how the electric bass was used in performance and perceived in the sonic landscape of mainstream popular music. Investigating the performance practice of the new, melodic role of the electric bass as it appeared (and disappeared) in the 1960s and 1970s, the book turns to the number one songs of the American Billboard Hot 100 charts between 1951 and 1982 as a prime source. Through interviews with players from this era, numerous transcriptions - elaborations of twenty bass related features - are presented. These are juxtaposed with a critical study of four key players, who provide the case-studies for examining the performance practice of the melodic electric bass. This highly original book will be of interest not only to bass players, but also to popular musicologists looking for a way to instigate methodological and theoretical discussions on how to develop popular music analysis.
