"Any readers whose love of music has somehow not led them to explore the technical side before will surely find the result a thoroughly accessible, and occasionally revelatory, primer."—Seattle Post-Intelligencer What makes a musical note different from any other sound? How can you tell if you have perfect pitch? Why do ten violins sound only twice as loud as one? Do your Bob Dylan albums sound better on CD vinyl? John Powell, a scientist and musician, answers these questions and many more in *How Music Works*, an intriguing and original guide to acoustics. In a clear and engaging voice, Powell leads you on a fascinating journey through the world of music, with lively discussions of the secrets behind harmony timbre, keys, chords, loudness, musical composition, and more. From how musical notes came to be (you can thank a group of stodgy men in 1939 London for that one), to how scales help you memorize songs, to how to make and oboe from a drinking straw, John Powell distills the science and psychology of music with wit and charm.

Get the Key to the Boardroom with Powerful Executive Presence! "This book can be a key aid in helping you make it to the next level! Great coaching for anyone who is even thinking of becoming an executive!" Marshall Goldsmith, New York Times bestselling author of *What Got You Here Won't Get You There* "On the corporate battlefield a true leader's success is based upon his or her ability to communicate effectively, persuade others to follow a goal, and execute it. This leads to success for all. When the stakes are high, you're well advised to read this book first." Scott A. Gaines, vice president, Hertz Corporation "If you are seriously looking to be perceived in the light you choose, *Executive Presence* is the book that not only answers the question, but shows you how to apply the answers." Kevin Hogan, author of *The Psychology of Persuasion* "Harrison Monarth is a first-rate thinker who writes as clearly as he thinks. No matter where you are on the career ladder, *Executive Presence* will put you a step ahead of your competition." T. Scott Gross, author of *Positively Outrageous Service* "Most people know that to move up in your career, you need to have self-awareness and the ability to manage the perceptions of those whose opinions count. . . . *Executive Presence* is your comprehensive guide to help you become more proficient at self-marketing and the art of ethical persuasion to achieve your personal and professional goals." Larina Kase, PsyD, MBA, author of *The Confident Leader* and coauthor of the New York Times bestseller *The Confident Speaker* About the Book An expert in coaching high-level players in the art of perception management, Harrison Monarth reveals the critical difference between CEOs and those of us who wish to be CEOs. It's not a matter of intelligence, connections, or luck. It can be summed up in two words: executive presence. While most of us toil in obscurity and expect great things to follow, those on the path to corporate leadership spend their time perfecting the types of leadership communication skills that generate respect and get others to share their vision. They use these skills to establish how they are perceived by others and to manage their reputation throughout the organization. In other words, these soon-to-be top players have developed the presence of an executive through careful image management—and they make sure they have the goods to back it up. In *Executive Presence*, Monarth shows how you can seize control of your

own career using the same skills. Inside, he explains how to: Accurately "read" people and predict their behavior Influence the perceptions of others Persuade those of opposing views to your side Create and maintain a personal "brand" Manage and control your online reputation Perform damage control when things go wrong Monarth's conclusions aren't based solely on his keen insight and extensive experience; they're the result of the latest scientific research in interpersonal communication and human behavior. Talent and skills are important, but they alone won't take you to the top of your organization. People reach highly influential positions because they deeply understand the power of perception and know how to leverage it in their favor. The good news is, anyone with the will to succeed can do it. *Executive Presence* provides all the techniques you need to take your career to the highest level of any organization.

Matthew Bourne and His Adventures in Dance is an intimate and in-depth conversation between the prize-winning pioneer of ballet and contemporary dance Matthew Bourne and the New York Times dance critic Alastair Macaulay. In 1987, a small, aspirant dance group with a striking name made its debut on the London fringe. In 1996, *Adventures in Motion* Pictures made history as the first modern dance company to open a production in London's West End. From this achievement, AMP sailed triumphantly to Broadway - winning three Tony Awards - guided by Artistic Director Matthew Bourne. Even before the inception of AMP, Bourne was fascinated by theatre, by characterization, and by the history of dance. In his early works - *Spitfire*, *Town & Country* and *Deadly Serious* - Bourne brought a novel approach to dance. And in his reworkings of the classics of the ballet canon - *Nutcracker*, *Swan Lake*, *Cinderella* - Bourne created witty, vivid, poignant productions that received great acclaim. In the first decade of the new millennium, the company name was changed to *New Adventures*, and Bourne's 'classics', as well as Bourne's new works - *The Car Man*, *Play Without Words*, *Edward Scissorhands* and *Dorian Gray* - achieved levels of box-office popularity that have seldom, if ever, been matched in dance. In addition, his choreography for various musicals - *My Fair Lady*, *Mary Poppins* and *Oliver!* - have run for years in the West End and on Broadway. The detail in which Bourne discusses his work with Alastair Macaulay is unprecedented. The two explore Bourne's upbringing, his training and influences, and his distinctive creative methods. Bourne's notebooks, his sources and his collaboration with dancers all form part of the discussion in this book.

Taming the Wild Field Alfred Publishing Company

Composed by two prominent statesmen-generals of classical China, this book develops the strategies of Sun Tzu's classic, *The Art of War*, into a complete handbook of organization and leadership. The great leaders of ancient China who were trained in Sun Tzu's principles understood how war is waged successfully, both materially and mentally, and how victory and defeat follow clear social, psychological, and environmental laws. Drawing on episodes from the panorama of Chinese history, *Mastering the Art of War* presents practical summaries of these essential laws along with tales of conflict and strategy that show in concrete terms the proper use of Sun Tzu's principles. The book also examines the social and psychological aspects of organization and crisis management. The translator's introduction surveys the Chinese philosophies of war and conflict and explores in depth the parallels between *The Art of War* and the oldest handbook of strategic living, the *I Ching* (Book of Changes).

Septima Clarke played one of the most essential, but little-recognized roles in the Civil Rights Movement. Born in 1898 in Charleston, South Carolina, she was a public school teacher until 1956, when she was dismissed for refusing to disavow her membership in the National Association for the Advancement of Colored People. Subsequently, she worked for the Highlander Folk School, helping to set up Citizenship Schools throughout the South

where Black adults could learn to read and prepare to vote. During the 1960s she worked with the Southern Christian Leadership Conference and was a close associate of Dr. Martin Luther King, Jr. From 1978 to 1983 she served as the first Black woman on the Charleston School Board. This is a first-person narrative of her life in the context of the Civil Rights Movement. Her story constitutes a major thread in the tapestry of that movement. Book jacket.

When World War I brought an end to German colonial rule in Namibia, much of the German population stayed on. The German community, which had managed to deal with colonial administration, faced new challenges when the region became a South African mandate under the League of Nations in 1919. One of these was the issue of Germanness, which ultimately resulted in public conversations and expressions of identity. In *Creating Germans Abroad*, Daniel Walthers examines this discourse and provides striking new insights into the character of the German populace in both Germany and its former colony, Southwest Africa, known today as Namibia. In addition to German colonialism, Walthers considers issues of race, class, and gender and the activities of minority groups. He offers new perspectives on German cultural and national identity during the Empire, the Weimar Republic, and the Third Reich. In a larger context, *Creating Germans Abroad* acts as a model for investigating the strategies and motivations of groups and individuals engaged in national or ethnic engineering and demonstrates how unforeseen circumstances can affect the nature and outcome of these endeavors.

Sohana Badshah has led a charmed existence - carefree, wealthy and from a close-knit family (at least as far she knows). And then she moves to London on a whim to pursue an interior design course, where she meets and falls passionately in love with Jagdish Sachdev - he of the compassionate heart and matchless brains. But Jag leaves her, citing irreconcilable differences between their families. Sohana returns home to the news that the business empire her grandfather had built over the years will wind up either in the hands of the highest bidder or with the grandson (but of course) who shows the most mettle. As her brothers race to inherit the business, Sohana is wooed, and her ethics and loyalties tested. In this first instalment of Kavita Daswani's trilogy, with secrets tumbling out and dramas unfolding all around her, Sohana must make up her mind about what and who she is in the scheme of things.
