*Bronze Age Mindset* Walter de Gruyter GmbH & Co KG

BEING A TEENAGER IS HARD ENOUGH WITHOUT ALSO TRAINING TO BE A JEDI.... Obi-Wan Kenobi has not been apprenticed long to Qui-Gon Jinn, and he is chafing at Qui-Gon's training style: all meditation, no action. Obi-Wan yearns to prove himself on a mission, but when he and Qui-Gon are finally set to leave on an assignment, Qui-Gon is nowhere to be found. Angered by his master's abandonment, Obi-Wan sets out on the mission alone, determined to prove himself. On a mysterious planet he encounters a pack of feral, Force-wielding teens who seem to be the planet's only inhabitants. As he experiences wild freedom with them and wonders if this isn't the life he was meant for, Obi-Wan can't escape the nagging sense that something is wrong with the Force there. Romantic complications, startling revelations, and a looming threat to both the planet and his new friends will bring Obi-Wan face-to-face with his worst fear: that maybe he was never supposed to be a Jedi at

all. Can he connect with the living Force in time to save himself and everyone around him? It's the star of the Obi-Wan Kenobi Disney+ limited series as you've never seen him before....

Source water, herein defined as stream water collected at a water-system intake prior to water treatment, was sampled at nine community water systems, ranging in size from a system serving about

3,000 people to one that serves about 2 million people. As many as 17 source-water samples were collected at each site over about a 12-month period between 2002 and 2004 for analysis of 258 anthropogenic organic compounds. Most of these compounds are unregulated in drinking water, and the compounds analyzed include pesticides and selected pesticide degradates, gasoline hydrocarbons, personal-care and domestic-use compounds, and solvents. About one-half (134) of the compounds were detected at least once in source-water samples.

This volume contains a rich collection of Julius Evola's late essays. Distilling the work of a lifetime, these essays, despite the great diversity of their subjects, all depart from Evola's basic and intransigent principles. From a consideration of specific personalities, such as Donoso Cortés, Vilfredo Pareto, Joseph de Maistre, Metternich, Michelstaedter, and Henry Miller, to the investigation of an entire series of problems, such as the "revolution from the heights," the "twilight of the East," the myth of the West, political versus biological youth, and the emergence of the Fifth Estate, this book also includes doctrinal analyses of Zen Buddhism, the so-called Left-Hand Path, the "myth of the future regality," neo-realism, and the "fetish for magic" -- analyses which delve at times also into the past, as in the evocation of Emperor Julian, the indication of the significance which the Sibylline Books had in Ancient Rome, and the investigation into the mysteries of Mithras. The material herein is wide and various, but in all cases of perennial interest, and Evola's treatment brings essential normative values to the fore -- values which might serve for the interior and spiritual formation of a new generation.

This book offers the hint for a new reflection on ancient textual transmission and editorial practices in Antiquity. In the first section, it retraces the first steps of the process of ancient writing and editing. The reader will discover how the book is both a material object and a metaphorical personification, material or immaterial. The second section will focus on corpora of Greek texts, their formation, and their paratextual apparatus. Readers will explore various issues dealing with the mechanisms that are at the basis of the assembling of ancient Greek texts, but great attention will also be given to the role of ancient scholarly work. The third section shows how texts have two levels of authorship: the author of the text, and the scribe who copies the text. The scribe is not a medium, but plays a crucial role in changing the text. This section will focus on the protagonists of some interesting cases of textual transmission, but also on the books they manufactured or kept in the libraries, and on the words they engraved on stones. Therefore, the fresh voices of the contributors of this book, offer new perspectives on established research fields dealing with textual criticism.

The Atlantic named this author as

possibly Steve Bannon's contact in the White House (Rosie Gray, The Atlantic Feb 10 2017: " 'Think you should speak directly to my WH cutout / cell leader,' Yarvin said in an email. 'I've never met him and don't know his identity, we just DM on Twitter. He's said to be 'very close' to Bannon...Goal is to intimidate Congress with pure masculine show of youth, energy. Trump is said to know, will coordinate with powerful EOs..."); and a recent Vox article (Tara Isabella Burton, Vox June 1 2018) claimed that he is the "text" to Jordan Peterson's "subtext," and a "distilled" form of Peterson. Distilled means purer: yes, so why not read and understand the purer version? T. I. Burton also adds in this article that this author BAP is a kind of priest-king to thousands on Twitter and outside and is possibly leading a spiritual reawakening. Some say that this book, found in a safebox in the port area of Kowloon, was dictated, because Bronze Age Pervert refuses to learn what he calls "the low and plebeian art of writing." It isn't known how this book was transcribed. The contents are pure dynamite. He explains that you live in ant farm. That you are observed by the lords of lies, ritually probed. Ancient man had something you have lost: confidence in his instincts and strength, knowledge in his blood. BAP shows how the Bronze Age mindset can set you free from this Iron Prison and help you embark on the path of power. He talks about life, biology, hormones. He gives many examples from history, both ancient and modern. He shows the secrets of the detrimental robots, how they hide and fabricate. He helps you escape gynocracy and ascend to fresh mountain air. The pricing, he insisted on against all advice. It refers to the lucky 969 Movement of Burma, led by the noble

monk Wirathu. Praise be to the Pervert. Praise be to his teaching of peace. Be careful.

This sourcebook provides an interdisciplinary collection of material which will be of value to students of the New Testament.

Horace G. Danner's *A Thesaurus of English Word Roots* is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode

unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In *A Thesaurus of English Word Roots*, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, *dysacousia*, *hyperacousia*. These root-starting terms then are followed by terms where the root falls behind the word, e.g., *acouesthesia* and *acoumeter*. These words are followed by words where the root falls in the middle or the end, as in such terms as *bradyacusia* and *odynacosis*. In this manner, *A Thesaurus of English Word Roots* places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.
