Gangs have been heavily pathologized in the last several decades. In comparison to the pioneering Chicago School's work on gangs in the 1920s we have moved away from a humanistic appraisal of and sensitivity toward the phenomenon and have allowed the gang to become a highly plastic folk devil outside of history. This pathologization of the gang has particularly negative consequences for democracy in an age of punishment, cruelty and coercive social control. This is the central thesis of David Brotherton's new and highly contentious book on street gangs. Drawing on a wealth of highly acclaimed original research, Brotherton explores the socially layered practices of street gangs, including community movements,

cultural projects and sites of social resistance. The book also critically reviews gang theory and the geographical trajectories of streets gangs from New York and Puerto Rico to Europe, the Caribbean and South America, as well as state-sponsored reactions and the enabling role of orthodox criminology. In opposition to the dominant gang discourses, Brotherton proposes the development of a critical studies approach to gangs and concludes by making a plea for researchers to engage the gang reflexively, paying attention to the contradictory agency of the gang and what gang members actually tell us. The book is essential reading for academics and students involved in the study of juvenile delinquency, youth studies,

deviance, gang studies and cultural criminology.

Defining Crime explores the limitations of the legal definition of crime, how that politically based definition has shaped criminological research, and why criminologists must redefine crime to include scientific objectivity.

Why do individuals exposed to the same environment turn out so differently, with some engaging in crime and others abiding by societal rules and norms? Why are males involved in violent crime more often than females? And why do the precursors of serious pathological

behavior typically emerge in childhood? This fascinating text addresses key questions surrounding criminal propensity by discussing studies of the life-course perspective—criminological research that links biological factors associated with criminality with the social and environmental agents thought to cause, facilitate, or otherwise influence a tendency towards criminal activity. The book provides comprehensive, interdisciplinary coverage of the current thinking in the field about criminal behavior over the course of a lifetime. Additionally, it highlights interventions proven effective and illustrates how the life-course perspective has contributed to a greater understanding of the causes of crime.

Prentice Hall  
Introduction to Criminal Justice: Systems, Diversity, and Change, Second Edition, offers students a brief, yet comprehensive, introduction to Criminal Justice with up-to-date coverage of all aspects of the criminal justice system in succinct and engaging chapters. Authors Callie Marie Rennison and Mary Dodge weave four true criminal case studies throughout the book, capturing students' attention with memorable stories that illustrate the real-life pathways and outcomes of criminal behavior and victimization. Designed to show the connectedness of the criminal justice system, each case study brings the chapter concepts to life. To further captivate and inform students, important and timely topics such as ethics, policy,

gender, diversity, victimization, and white-collar crime are discussed throughout.

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal,

while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential

movement.

This book is exceptional in the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction, and it presents a unique way of looking at legal education. It is crucial for lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions. In this respect, being a lawyer involves being able to reason like a lawyer, even more than having detailed knowledge of particular sets of rules. Introduction to Law reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions. Where 'positive' law is discussed, the emphasis

is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by, for instance, the common law and civil law tradition. The law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed.

Finally--a text written specifically for California criminal procedure.

CALIFORNIA CRIMINAL PROCEDURE prepares students in all of the law-related disciplines for their role in the California criminal justice system. It not only covers the general concepts, constitutional principles, and universal procedures applicable throughout the American system, but also the particular

aspects of applied procedure in California. For ease of teaching and learning, the material is presented in a concise, straightforward manner, with frequent citation to statute, case law, or other sources, and direct quotations where appropriate.

Based on Earl Babbie's best-selling text, THE PRACTICE OF SOCIAL RESEARCH, this text combines the key strengths of Babbie's text (accessibility; a conversational, "friendly" writing style; and great examples) with Michael G. Maxfield's expertise in criminology and criminal justice for a text that addresses the specific methods used in criminal justice research. The new edition of this market-leader includes changes in its

coverage of ethics, causation, validity, and research design, as well as updated coverage and statistics, and expanded examples, especially in the discussion of field research. A running case study on the dropping crime rate in New York City a study to which co-author Maxfield has close links further demonstrates the important role of research methods in our evolving understanding of crime and society.

Crime and Criminal Justice: Concepts and Controversies (by Stacy L. Mallicoat) introduces students to the key concepts of the criminal justice system and invites them to explore emerging issues.

Students will gain a balanced perspective of the criminal justice system through Current Controversy debates at the end of each chapter that motivate students to apply what they learned by critically analyzing and discussing the pros and cons of the issues presented. Examining important, but often overlooked, components, such as the role of victims and policy, Crime and Criminal Justice helps students develop a foundational understanding of

the structures, agencies, and functions of the criminal justice system, as well as build the confidence and skills they need to effectively analyze current issues in criminal justice.
