European countries are dealing with an increasing number of refugees seeking asylum. Country evidence is critical in the assessment of any asylum claim. The purpose of this study is to review some of the common issues which frequently are the focus of asylum appeal cases in relation to applicants from South Asia and the Middle East. The focus is on Pakistan, Iraq and Iran and it covers a range of issues that give rise to asylum claims, such as the general security situation, the risk from terrorism and other forms of political violence, the risk to political opponents of governments, the risks in blood feuds and from the perceived violation of family honour, religious persecution and the risks faced by ethnic minorities. It is a very useful resource to volunteers and professionals involved in supporting asylum seekers.

The roots of Pakistan's blasphemy laws can be traced back to the British colonial rule in India, but their harsher clauses were added to the Pakistan Penal Code during a wave of intense Islamization in the 1980s. Everyone in Pakistan is threatened by the misuse of these laws, even Muslims; however a disproportionate number of victims targeted by these laws have come from two minority groups, the Ahmadis and Christians. Dr Qaiser Julius focuses on how these two groups have been affected by Pakistan's blasphemy laws, their different reactions to these laws, and more specifically, why they are responding differently despite living under the same circumstances. In this well-structured and understandable study, Julius provides a valuable tool for Christians to understand what it means to be a minority in a hostile culture. This thorough analysis presents a way forward for the Christian church in Pakistan,

providing hope amidst the discrimination and persecution.

The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general, and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work. Attention will be given to country- and region specific attitudes towards crime and punishment.

A Silent Patriot of Bangladesh Routledge
This edited translation of Syed Nur Ahmad's landmark study, *Martial Law to Martial Law*, provides the most comprehensive study in English or Urdu of the politics of the Punjab. Drawing on his career as a journalist and as former director of information for the government of the Punjab, Nur Ahmad gives an eyewitness account of the politics of the province from the imposition of martial law in 1919 (following the Jalianwala Bagh massacre) to the reestablishment of martial law accompanying the coup d'etat led by General Ayub Khan in Pakistan in 1958. Nur Ahmad relates the events in the Punjab to the larger Indian Muslim political scene, assesses the development and eventual decline of the Unionist Party (which stood against the partition of India), and traces the rise of support for the Muslim League. He also looks at the post-independence period in Pakistan and the failure of the parliamentary regime, discussing how national-level politics affected the Punjab.

India is the world's tenth largest economy and possesses the world's fourth largest military. The subcontinent houses about one-fifth of the world's population and its inhabitants are divided into various tribes,

clans and ethnic groups following four great religions: Buddhism, Christianity, Hinduism, and Islam. Framing the debate using case studies from across the region as well as China, Afghanistan and Burma and using a wealth of primary and secondary sources this incisive volume takes a closer look at the organization and doctrines of the 'shadow armies' and the government forces which fight the former. Arranged in a thematic manner, each chapter critically asks; Why stateless marginal groups rebel? How do states attempt to suppress them? What are the consequences in the aftermath of the conflict especially in relation to conflict resolution and peace building?

Unconventional Warfare in South Asia is a welcomed addition to the growing field of interest on civil wars and insurgencies in South Asia. An indispensable read which will allow us to better understand whether South Asia is witnessing a 'New War' and whether the twenty-first century belongs to the insurgents.

Winner of the 2021 Overseas Press Club of America Cornelius Ryan Award The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these "nine lives" he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes.

Unbeknownst to Walsh, however, an intelligence agent was tracking him. Written in the aftermath of Walsh's abrupt deportation, *The Nine Lives of Pakistan* concludes with an astonishing encounter with that agent, and his revelations about Pakistan's powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, *The Nine Lives of Pakistan* offers an unflinching account of life in a precarious, vital country.

"The Human Rights Watch report, "Closed Door Policy: Afghan Refugees in Pakistan and Iran," cautions against a hasty repatriation of Afghan refugees while conditions in Afghanistan remain unstable. Human Rights Watch interviewed many refugees, including members of various ethnic groups, and women and girls, who fear continuing human rights abuses inside Afghanistan. The decades long Afghan refugee emergency did not end with the fall of the Taliban. There remain three and a half million refugees in Pakistan and Iran, the vast majority of whom arrived before the current armed conflict. Although one hundred forty thousand Afghans went home from Pakistan and Iran in the past six weeks, fifty thousand new refugees fled Afghanistan to Pakistan during the same time period. Refugees interviewed by Human Rights Watch in Pakistan described the human toll caused by that government's treatment of the refugee population: With borders closed, most refugees had to resort to dangerous and unofficial routes into Pakistan. Refugees were beaten at unofficial checkpoints when they could not afford to pay extortionate bribes. At official crossing points, families were beaten back, or languished in squalor without food, water or latrines-hoping to be let in. Once inside Pakistan, refugees were harassed and imprisoned because they lacked identity documents. They also endured beatings by Pakistani police when queuing for food in camps."--Publisher website.

Everyone knows the name Mohandas Karamchand Gandhi, but if you mention Nikunja Bihari Goswami, most people would shrug. This largely unknown patriot of Bangladesh dedicated his life to Gandhis ideals, all the time believing that good days were ahead for the people living on the Indian subcontinent. Goswami left the house at seventeen and took shelter in an ashram, dedicating

himself to serving the nation as Gandhi advised. Throughout the independence movement, he was at the forefront and imprisoned several times. But in the end, he found that Gandhi had used religion to fool the common people, converting himself into a saint while working like a politician. Gandhi worked against the nature of human instinct, demoralizing the strength and energy of human beings. His methods would divide the country and lead to the deaths of millions of Indians all in the name of religion. He perverted the Hindu belief of tolerance into nonviolence to accomplish his hidden desires. *A Silent Patriot of Bangladesh* highlights one mans quest for freedom and the surprising and uncomfortable truths he discovers along the way.

While conventional warfare has an established body of legal precedence, the legality of drone strikes by the United States in Pakistan and elsewhere remains ambiguous. This book explores the legal and political issues surrounding the use of drones in Pakistan. Drawing from international treaty law, customary international law, and statistical data on the impact of the strikes, Sikander Ahmed Shah asks whether drone strikes by the United States in Pakistan are in compliance with international humanitarian law. The book questions how international law views the giving of consent between States for military action, and explores what this means for the interaction between sovereignty and consent. The book goes on to look at the socio-political realities of drone strikes in Pakistan, scrutinizing the impact of drone strikes on both Pakistani politics and US-Pakistan relationships. Topics include the Pakistan army-government relationship, the evolution of international institutions as a result of drone strikes, and the geopolitical dynamics affecting the region. As a detailed and critical examination of the legal and political challenges presented by drone strikes, this book will be essential to scholars and students of the law of armed conflict, security studies, political science and international relations.

Politics In The Punjab, 1919-1958 Human Rights Watch

This book, the first academic book on Pakistani documentary cinema, traces the development of activist filmmaking practices in Pakistan which have emerged as a response to the consequences of religious fundamentalism, extremism, and violation of human rights. Beginning with the period of General Zia-ul-Haq's

Islamization process (1977-88), it discusses a selection of representative documentary films that have critically addressed and documented the various key transformations, events, and developments that have shaped Pakistan's socio-political, socio-economic, and cultural history. Such activist filmmaking practice in Pakistan is today an influential factor in addressing the politics, and negative and oppressive effects of the Islamization era, discriminatory laws, particularly gender-discriminatory Sharia laws, violation of human and citizen rights, authoritarianism, internal strife, the spread of religious fundamentalism, and the threat of Talibanization, and oppressive tribal customs and traditions. The contribution of Pakistani documentary filmmakers stands as a significant body of work that has served the cause of human rights, promoting awareness and social change in Pakistan, particularly regarding gender rights.

Islamic Law and the Law of Armed Conflict: The Conflict in Pakistan demonstrates how international law can be applied in Muslim states in a way that is compatible with Islamic law. Within this broader framework of compatible application, Niaz A. Shah argues that the Islamic law of qital (i.e. armed conflict) and the law of armed conflict are compatible with each other and that the former can complement the latter at national and regional levels. Shah identifies grey areas in the Islamic law of qital and argues for their expansion and clarification. Shah also calls for new rules to be developed to cover what he calls the blind spots in the Islamic law of qital. He shows how Islamic law and the law of armed conflict could contribute to each other in certain areas, such as, the law of occupation; air and naval warfare; and the use of modern weaponry. Such a contribution is neither prohibited by Islamic law nor by international law. Shah applies the Islamic law of qital and the law of armed conflict to a live armed conflict in Pakistan and argues that all parties, the Taliban, the security forces of Pakistan and the American CIA, have violated one or more of the applicable laws. He maintains that whilst militancy is a genuine problem, fighting militants does not allow or condone violation of the law. Islamic Law and the Law of Armed Conflict will be of interest to students and scholars of international law, Islamic law, international relations, security studies and south-east Asian studies.

The book is organized in three sections: Globalization and its Impact on Language Policies, Culture, and Identity Language Policy and the Social (Re)construction of National Cultural Identity Language Policy and Language Politics: The Role of English. Unique in its attention to how the domination of English is being addressed in relation to cultural values and identity by non-English speaking countries in a range of sociopolitical contexts, this volume will help readers to understand the impact of globalization on non-English speaking countries, particularly developing countries, which differ significantly from contexts in the West in their cultural orientations and the way identities are being constructed. Language Policy, Culture, and Identity in Asian Contexts will interest scholars and research students in the areas of language policy, education, sociolinguistics, applied linguistics, and critical linguistics. The expression »to come out of the closet« calls for an analysis of how language and notional as well as social spaces interact and intersect to constitute »queer«. This performative book, a

product of artistic research, is an exploration of the proverbial closet through linguistics, queer, and postcolonial theory. It is a project in which opacity, minority, and improvisation happen on the levels of content, analysis, and typography. Eleven queer slangs from around the world become part of an exploration of queerness and knowledge from the Periphery through autoethnography, Édouard Glissant's concept of opacity, José Muñoz's disidentifications, and Gloria Anzaldúa's performative writing. Theory, personal accounts, and art are interwoven to offer an interdisciplinary reading of the slangs as queer methods of survival and resistance.

This book introduces the term "otherism" and looks at the discourse of otherism and the issue of otherness in South Asian religion, literature and film. It examines cultural questions related to the human condition of being the "other," of the

process of "othering" and of the representation of "otherness" and its religious, cultural and ideological implications. The book applies the perspectives of ideological criticism, theories of hybridity, orientalism, nationalism, and gender and queer studies to gain new insights into the literature, film and culture of South Asia. It looks at the different ways of interpreting "otherness" today. The book goes on to analyze the ideological implications of the creation of "otherness" with regard to religious and cultural identity and the legitimation of power, as well as how the representation of "otherness" reflects the power structures of contemporary societies in South Asia. Offering a well-thought-out reflection on important cultural questions as well as a deep insight into the study of religion and "otherness" in South Asian literature and film, this book is a pioneering project that is of interest to scholars of South Asian Studies and South Asian religions, literatures and cultures.
