Using Financial Statements Cram101 Business Analysis & Valuation Using Financial Statements Business Analysis and Evaluation IFRS Edition Using Financial Statements South-Western Pub Rev. ed. of: Financial reporting, financial statement analysis, and valuation: a strategic perspective / Clyde P. Stickney, Paul R. Brown, James M. Wahlen. 6th ed. *Business Analysis & Valuation* Cengage AU The authors of the book "Business Analysis and

Valuation Using Financial Statements" are Krishna G. Palepu, PhD and Paul M. Healy, PhD, ACA. Both are subject matter experts in business administration and professors at Harvard University. These professors in addition to being forces to reckon with as far as business research is concerned, are part of various academic boards and are authors of numerous academic books. Financial statements provide various forms of business analysis. These analyses range from: monitoring and judging firms' performance relative to competitors; providing insights on the financial policies to be used; financial reports to investors including evaluation of new business to be acquired. They can be used to rate and evaluate companies before they are recommended to clients by security analysts; valuation of prospective buy outs, mergers and acquisitions and also come in handy in the evaluation of the creditworthiness of customers before they are given loans by banks (Healy & Krishna, 2012). *How 17 Financial Ratios Can Allow You to Analyse*

*Any Business on the Planet* John Wiley & Sons The new edition of Business Analysis and Valuation builds on the strong success of the first IFRS edition, providing students with the knowledge of how to use financial statement information to assess a firm's financial performance, value, and creditworthiness. The text is primarily aimed at Masters and upper-level undergraduate programs in business and builds a bridge between accounting and finance, therefore making it accessible to both finance and accounting students. The distinctive strengths of this text include a large number of real-world cases used to illustrate theory; the step-by-step analysis methodology, and the extensive discussion of strategy analysis. The presentation of material is based on business analysis before financial analysis, which ensures that financial analysis is approached in a real-world manner and is driven by strategy. The pedagogy is geared toward helping students to develop strong practical skills using current applications and supported by the extra interactive material on

the companion website.
