
Addis Ababa University Mba Research Papers

Thank you definitely much for downloading **Addis Ababa University Mba Research Papers**. Most likely you have knowledge that, people have seen numerous times for their favorite books when this Addis Ababa University Mba Research Papers, but stop happening in harmful downloads.

Rather than enjoying a good book taking into account a cup of coffee in the afternoon, then again they juggled subsequently some harmful virus inside their computer. **Addis Ababa University Mba Research Papers** is reachable in our digital library an online entrance to it is set as public correspondingly you can download it instantly. Our digital library saves in fused countries, allowing you to acquire the most less latency epoch to download any of our books subsequent to this one. Merely said, the Addis Ababa University Mba Research Papers is universally compatible as soon as any devices to read.

CERVANTES MILLS

The Routledge Companion to Business in Africa Edward Elgar Publishing

Lauded as a driver of economic growth, entrepreneurship and small business ventures have become increasingly attractive to countries looking to boost employment rates, productivity, and innovation. The manifestation of entrepreneurship varies from country to country, and what works for one may not work for the next.

Comparative Case Studies on Entrepreneurship in Developed and Developing Countries presents the challenges and opportunities that entrepreneurs in different countries face

at various developmental stages. Through in-depth studies, this premier reference work seeks to provide examples of successful applications of an elusive concept that has helped many countries move up the developmental ladder, a topic relevant to researchers and academicians working in social and behavioral sciences, economists, and business professionals.

Psychology of Retention Routledge

This volume explores convergence and divergence in the governance of higher education systems from a global and comparative perspective.

Handbook of Research on Pathways and Opportunities Into

the Business of Esports

IGI Global Risks can be identified, evaluated, and mitigated, but the underlying uncertainty remains elusive. Risk is present across all industries and sectors. As a result, organizations and governments worldwide are currently experiencing higher levels of risk and have had to make risky decisions during times of crisis and instability, including the COVID-19 pandemic, economic and climate perils, and global tensions surrounding terrorism. It is essential that new studies are undertaken to understand strategies taken during these times to better equip business leaders to navigate risk management in the

future. Global Risk and Contingency Management Research in Times of Crisis examines the impact of crises including the COVID-19 pandemic, which has tested organizational risk and contingency management plans. It provides significant insights that should benefit business leaders on risk and contingency management in times of crisis. It emphasizes strategies that leaders can undertake to identify potential future risks and examines decisions made in past crises that can act as examples of what to do and what not to do during future crisis events. Covering topics such as auditing theories, risk assessment, and

educational inequality, this premier reference source is a crucial resource for business leaders, executives, managers, decision makers, policymakers, students, government officials, entrepreneurs, librarians, researchers, and academicians. *Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa* IGI Global

Critical thinking is an essential skill for learners and teachers alike. Therefore, it is essential that educators be given practical strategies for improving their critical thinking skills as well as methods to effectively provide critical thinking skills to their students. The Handbook of Research

on Critical Thinking and Teacher Education Pedagogy examines and explains how new strategies, methods, and techniques in critical thinking can be applied to classroom practice and professional development to improve teaching and learning in teacher education and make critical thinking a tangible objective in instruction. This critical scholarly publication helps to shift and advance the debate on how critical thinking should be taught and offers insights into the significance of critical thinking and its effective integration as a cornerstone of the educational system. Highlighting topics such as early childhood education, curriculum, and STEM education,

this book is designed for teachers/instructors, instructional designers, education professionals, administrators, policymakers, researchers, and academicians.

Political Settlements and Agricultural Transformation in Africa GRIN Verlag

In an information and knowledge society, access to information and knowledge is a basic human right, making equitable and fair access to information and knowledge paramount. Open Access (OA) plays a huge role in addressing inequities as well as broad-based and inclusive scientific progress. On the surface, the number of publications discussing OA issues from various

angles are on the rise. However, what is missing is a comprehensive assessment of the extent of OA implementation and a discussion of how to proceed in integrating OA issues from various perspectives. The Handbook of Research on the Global View of Open Access and Scholarly Communications articulates OA concepts and issues while demystifying the state-of-the-art knowledge domain in the areas of OA and scholarly communications from diverse perspectives as well as implications for the information and knowledge society. Covering topics such as ethics, copyright challenges, and open access initiatives, this

book is a dynamic resource for publishers, librarians, higher education administrators, policymakers, students and educators of higher education, researchers, and academicians.

Towards an African Peace and Security Regime: Continental embeddedness, transnational linkages, strategic relevance provides an informed and critical reflection on the adequacy of the emerging African Peace and Security Architecture (APSA) to the medium- and long-term challenges and opportunities of conflict prevention, management and resolution in Africa.

Complementary to the

editors' Africa's New Peace and Security Architecture: Implementing norms, institutionalising solutions (Ashgate 2010), this volume revolves around three main areas of focus: the continental 'embeddedness' of norms, values and processes required for the gradual coming into shape of the African peace and security regime; its transnational linkages as well as the wider collective security environment; and the empirical analysis of the connections between the continental level and the regional economic communities with case-studies on ECOWAS, SADC and COMESA.

Women Entrepreneurs and the Myth of 'Underperformance'

Springer
Through a global series of case studies, this pioneering book delves into refugee entrepreneurship - a major economic, political and social issue emerging as a top priority. Stories from Australia, Germany, Pakistan and many other countries, highlight the obstacles facing refugees as they try to integrate and set up businesses in their new countries. Engaging contributions set the stage for a cross-analysis of the particularities and limitations faced by refugee entrepreneurs, culminating in an extended discussion about the future implications of refugee entrepreneurship for theory, policy and practice. This interdisciplinary book

explores the motivations and drivers of refugee entrepreneurship, making it an insightful read not only for those engaged in entrepreneurship, but also for those interested in migration studies from a variety of academic disciplines.

Higher education in post-apartheid South Africa was always likely to attract academic interest, and yet there remains a dearth of research on creating teaching and learning spaces suitable for students from diverse backgrounds. Using examples from higher education institutions

across the Southern African Developing Community (SADC) region, this volume explores the ways teaching and learning spaces are being used to advance the transformation agenda of higher education in these regions, and provides concrete recommendations for the future. The book is sure to appeal to academics from a variety of disciplines - from African, African American and ethnic studies to education and sociology. It will be of particular interest to teacher trainers, administrators and policy-makers working in higher education, and anyone else with a stake in managing cultural diversity in education.

Public Administration in Ethiopia African Books

Collective

This book explores the ways in which political settlements can contribute to positive changes in Africa's agricultural and manufacturing sectors. Contemporary Africa has seen many governments, donors, and commercial private enterprises supporting innovative agricultural and agro-processing schemes with the purpose of diversifying economies. However, many of the schemes collapse or at best fail to generate the needed jobs. Focusing on case studies in Kenya, Nigeria and Ethiopia, this book takes an interdisciplinary approach that combines econometric modelling research, life histories, policy approaches methods,

and political economy theory to reframe the field with new questions. The contributors offer alternative explanations for the failure of employment creation schemes in Africa and show how political settlements can bring together stakeholders to settle on win-win approaches to productive employment schemes and inclusive development. Providing new insights on the political economy of agrarian and labour relations in Africa, this book will be of interest to policy actors and development practitioners wishing to support inclusive growth in Africa, as well as to scholars of African politics and economics, public

policy and development.

The Challenges and Prospects of IFRS Adoption in Ethiopian Commercial Banks

Routledge

Esports have attracted considerable attention over the past few years and become an industry that is projected to continue to increase rapidly. Intersecting with the esports industry are organizations and businesses that develop and support the esports game experience. Included is the entrepreneurial spirit of gamers, who are interested in creating their own career paths through capturing and posting gaming microassists on different public venues that are driven by advertising dollars,

invitational competition monetary winnings, and other forms of marketing their expertise for financial gain. All these organizations and industries form satellites of career opportunities as well as opportunities for research and enhanced forward-leaning study. Such career opportunities can be explicitly addressed within the structure of university degree and micro-credential certificate programs, some of which have begun to offer esports-directed degrees, but most of which have not yet moved from esports clubs into a recognition of the business and industry monetization of esports. The Handbook of Research on Pathways and

Opportunities Into the Business of Esports addresses the intersection of esports gaming and the business and industry of esports, rather than an exploration of the video games themselves. It is the supporting and intersecting industry driven by esports and the vast opportunities this brings that are the foci of this book. Covering topics including digital learning, esports marketing curriculum, and gaming culture, this text is essential for business professionals, industry analysts, entrepreneurs, managers, coaches, marketers, advertisers, brand managers, university and college administrators, faculty and researchers, students, professors,

and academicians.
**Handbook of

and Complexity
Theory in the Social
Sciences** IGI Global

This comprehensive handbook offers a state-of-the-art guide to new frontiers of African entrepreneurship. Written from a Pan-African perspective by a cast of international authors, the book addresses the rapid modernisation and evolution of African entrepreneurship and business practices. It maps new developments in entrepreneurial ecosystems, technology and digital entrepreneurship, entrepreneurship in conflict zones, and gender and diversity issues. It proposes new models for

entrepreneurial financing and explores the contrast between entrepreneurship in high-technology urban centers with peripheral rural districts and conflict zones. Bringing together empirical insights and case studies from countries across Africa, the Handbook illuminates regional and contextual differences and shares theoretical and practical insights which inform policy and practice. It is an ideal guide for researchers and students working on international business, entrepreneurship and emerging economies. It will also inform policymakers in developing context-informed entrepreneurial policies and initiatives in Africa. Convergence and

Diversity in the Governance of Higher Education Springer

Nature

Over the past three decades, African countries have been reforming their public sector with a view to improving efficiency, effectiveness, accountability and transparency as part of efforts to improve the delivery of public services. Reform actions have included privatisation, public/private partnerships, commercialisation and adoption of private sector approaches in managing public organisations. This book, put together by OSSREA, reviews measures by African countries in that regard, the extent to which the measures have achieved their

intended results, as well as the factors behind the failure to achieve those results, where this was the case.

Towards an African Peace and Security Regime IGI Global

Thesis (M.A.) from the year 2018 in the subject Business economics -

Accounting and Taxes, grade: 2, Addis Ababa University, course:

MBA in Finance,

language: English,

abstract: The study aims to examine the challenges and prospects of

International Financial Reporting Standards (IFRS) adoption in

Ethiopian Commercial

Banks. To answer the research question and to achieve the

objective of the study

this paper adopted the mixed research

approach. The questionnaire data were analyzed using descriptive statistics and data from interview and document review were interpreted qualitatively. The results show that IFRS adoption in Ethiopian Commercial Banks will result in a number of important benefits to a wide range of stakeholders. The study also found out that with the exception of capital market the other five variables namely need of amending legal and regulatory requirement , volatility of financial position and financial performance , difficulty of obtaining source documents and data ,need of updating the existing accounting software, information system and

information technology of the bank, shortage of skilled and competent man power , shortage of strong professional bodies are the key challenges of IFRS adoption in Ethiopian Commercial Banks. Finally the study recommended the relevant commercial code, tax proclamation and NBE directive should be amended by Government organs in consultation with strong professional bodies , establishment of strong professional bodies and capital market, allocation of sufficient financial and other resources by top management , introduction of IFRS in colleges and universities and future adopters should think ahead the required source documents and

data as well as ensure the extent of changes needed to update the existing IT infrastructure to satisfy IFRS requirements.

Building an effective, inclusive, and

accountable public administration has

become a major point of attention for

policymakers and

academics in Ethiopia

who want to realise

sustainable

development. This first handbook on Ethiopian Public Administration is written by Ethiopian academics and practitioner-academics and builds on PhD studies and conference papers, including studies presented at the meetings of the Ethiopian Public Administration Association (EPAA), established in 2016. Public Administration in Ethiopia presents a wide range of timely issues in four thematic parts: Governance, Human Resources, Performance and Quality, and Governance of Policies. Each of the individual chapters in this volume contributes in a different way to the overarching research questions: How can we describe and explain the contexts, the

processes and the results of the post-1990 politico-administrative reforms in Ethiopia? And what are the implications for sustainable development? This book is essential for students, practitioners, and theorists interested in public administration, public policy, and sustainable development. Moreover, the volume is a valuable stepping stone for PA teaching and PA research in Ethiopia.

Contextualizing Entrepreneurship in Emerging Economies and Developing Countries Springer Nature

Despite increasing reports across the globe on renewable development and maintenance, little is known regarding what

strategies are required for improved economic growth and prosperity in Africa. Improving an understanding of the methods for promoting growth through reusable resource development and administration is a vital topic of research to consider in assisting the continent's development. The Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa provides emerging research on the strategies required to promote growth in Africa as well as the implications and issues of the expansion of prosperity. While highlighting sustainable education, pastoral development pathways, and the public-sector role,

readers will learn about the history of sustainable development and governmental approaches to improving Africa's economy. This publication is a vital resource for policy makers, research institutions, academics, researchers, and advanced-level students seeking current research on the theories and applications of development in societal and legal institutions.

Roaming Africa

Vernon Press

Forest degradation as a result of logging, shifting cultivation, agriculture and urban development is a major issue throughout the tropics. It leads to loss in soil fertility, water resources and

biodiversity, as well as contributes to climate change. Efforts are therefore required to try to minimize further degradation and restore tropical forests in a sustainable way. This is the first research-based book to examine this problem in East Africa. The specific focus is on the forests of Ethiopia, Tanzania and Uganda, but the lessons learned are shown to be applicable to neighbouring countries and others in the tropics. A wide range of forest types are covered, from dry Miombo forest and afro-montane forests, to forest-savannah mosaics and wet forest types. Current management practices are assessed and examples of good practice presented.

The role of local people is also emphasized. The authors describe improved management and restoration through silviculture, plantation forestry and agroforestry, leading to improvements in timber production, biodiversity conservation and the livelihoods of local people.

Handbook of Research on Critical Thinking and Teacher Education

Pedagogy IGI Global
This book provides insights into the evolving debate regarding the mobilization of domestic resources and the crucial role that financial development can and should play in this regard, exploring aspects of the financial development-domestic resource mobilization

nexus, including country case studies.
Management Challenges in Different Types of African Firms
ILRI (aka ILCA and ILRAD)
Since the financial and food price crises of 2007, market instability has been a topic of major concern to agricultural economists and policy professionals. This volume provides an overview of the key issues surrounding food prices volatility, focusing primarily on drivers, long-term implications of volatility and its impacts on food chains and consumers. The book explores which factors and drivers are volatility-increasing and which others are price level-increasing, and whether these two distinctive effects can

be identified and measured. It considers the extent to which increasing instability affects agents in the value chain, as well as the actual impacts on the most vulnerable households in the EU and in selected developing countries. It also analyses which policies are more effective to avert and mitigate the effects of instability. Developed from the work of the European-based ULYSSES project, the book synthesises the most recent literature on the topic and presents the views of practitioners, businesses, NGOs and farmers' organizations. It draws policy responses and recommendations for policy makers at both European and on international levels.

Afro-Nordic Landscapes

IGI Global

It is now widely recognized that in regions like Africa, for economic and other reasons, the public sector has had to disengage and divest from many areas of the economy and allow private enterprise, especially scalable start-ups and new ventures, to enter and flourish if economic development and employment are to grow. There is, however, a training and education gap since entrepreneurship is rarely taught formally at African universities and, when it is, it is often approached from a Western perspective which may not be appropriate given that African environments are significantly

different from most Western ones in terms of economic infrastructure and political considerations. This book allows readers to understand the African entrepreneurial context by guiding them through the principal stages in the life of a new venture, and offers approaches, both Western and indigenous, that can inform their entrepreneurial actions. It concludes by examining some specialized topics, including female, youth, and social entrepreneurship, as well as real estate and technology. Exercises

throughout the book will enable readers to evaluate their motivations and preparedness for entrepreneurship and learn how to communicate a new venture's key features to potential stakeholders. By focusing on the distinctive features of entrepreneurship in the African context, and taking a conversational tone, this is an informative and practical text that will be useful for students of Global Entrepreneurship and Business as well as actual and prospective entrepreneurs in the private, non-profit, and public sectors.
