Learn how the perception of truth has been weaponized in modern politics with this "insightful" account of propaganda in Russia and beyond during the age of disinformation (New York Times). When information is a weapon, every opinion is an act of war. We live in a world of influence operations run amok, where dark ads, psyops, hacks, bots, soft facts, ISIS, Putin, trolls, and Trump seek to shape our very reality. In this surreal atmosphere created to disorient us and undermine our sense of truth, we’ve lost not only our grip on peace and democracy -- but our very notion of what those words even mean. Peter Pomerantsev takes us to the front lines of the disinformation age, where he meets Twitter revolutionaries and pop-up populists, "behavioral change" salesmen, jihadi fanboys, Identitarians, truth cops, and many others. Forty years after his dissident parents were pursued by the KGB, Pomerantsev finds the Kremlin re-emerging as a great propaganda power. His research takes him back to Russia -- but the answers he finds there are not what he expected. Blending reportage, family history, and intellectual adventure, This Is Not Propaganda explores how we can reimagine our politics and ourselves when reality seems to be coming apart. **In Wartime** Random House

From one of the finest journalists of our time comes a definitive, boots-on-the-ground dispatch from the front lines of the conflict in Ukraine. “Essential for anyone who wants to understand events in Ukraine and what they portend for the West.”—The Wall Street Journal Ever since Ukraine’s violent 2014 revolution, followed by Russia’s annexation of Crimea, the country has been at war. Misinformation reigns, more than two million people have been displaced, and Ukrainians fight one another on a second front—the crucial war against corruption. With In Wartime, Tim Judah lays bare the events that have turned neighbors against one another and mired Europe’s second-largest country in a conflict seemingly without end. In Lviv, Ukraine’s western cultural capital, mothers tend the graves of sons killed on the other side of the country. On the Maidan, the square where the protests that deposed President Yanukovich began, pamphleteers, recruiters, buskers, and mascots compete for attention. In Donetsk, civilians who cheered Russia’s President Vladimir Putin find their hopes crushed as they realize they have been trapped in the twilight zone of a frozen conflict. Judah talks to everyone from politicians to poets, pensioners, and historians. Listening to their clashing explanations, he interweaves their stories to create a sweeping, tragic portrait of a country fighting a war of independence from Russia—twenty-five years after the collapse of the USSR.

3.068 kg de cocaína. Un excampeón de boxeo que tomó una decisión que le cambió la vida. Un narcosubmarino que llegó a España haciendo realidad la leyenda. Colombia fue el origen, el Amazonas el inicio del viaje, y Galicia el destino improvisado del primer narcosubmarino transoceánico interceptado en Europa. Esta es la historia real de la fascinante travesía de tres hombres que trasladaron a ras de agua más de 3.000 kg de cocaína durante veintiocho días conviviendo entre miseria. Pero también es la historia de Agustín, un excampeón de boxeo que bajó del cuadrilátero para convertirse en el capitán de esta peligrosa misión en la que acabó involucrando a sus amigos de Vigo, que no estaban llamados a ser protagonistas. Operación Marea Negra es la crónica certera y definitiva de estos hechos. Un libro emocionante y exhaustivo en que

En 2013 se cumplieron tres siglos de la firma del Tratado de Utrecht por el que Gibraltar fue declarado posesión británica. A pesar de los intentos por recuperarlo, el Peñón continúa estando bajo el manto de armiño de la Corona Británica. Con apenas cuatro kilómetros de largo, una superficie de 584 hectáreas y una población de poco más de 30.000 habitantes, Gibraltar es, hoy como ayer, un 'melting pot' en la que conviven distintas nacionalidades, culturas y religiones, otorgando a sus habitantes, los yanitos, una condición mestiza ante la vida que nuclea su identidad colectiva. El periodista y escritor Juan José Téllez, uno de los mejores conocedores del singular universo de Gibraltar y de su entorno, viaja al corazón de la Roca en este ensayo. Más allá de los grandes hechos de la historia, Yanitos bucea en la vida de los campogibraltaresños desde Utrecht hasta el presente deteniéndose en episodios como las distintas formas de contrabando y bandolerismo en los siglos XVIII y XIX, la acogida de los refugiados de los dos bandos en la Guerra Civil, la evacuación masiva de la población durante la Segunda Guerra Mundial, los complicados años vividos durante las más de dos décadas que la Verja permaneció cerrada (de 1969 a 1982) y las desavenencias políticas vividas en democracia. A glorious cast of animals and birds, as well as humans, relate magical stories in this extraordinary novel. An old lady, Misia, tells how the 300 ravens of Xallas are the warrior- poets of the last king of Galicia. A priest, Don Xil, explains to a peasant girl, Rosa, that the beautifully carved women in the local church are not saints, but representations of the seven deadly sins. Nunca Galicia comercializou un produto con tanto éxito. Aínda que agora semelle un pesadelo afastado, na década de 1990 o oitenta por cento da cocaína desembarcaba en Europa polas costas galegas. Ademais da súa privilegiada posición xeográfica, Galicia dispuña de todos os ingredientes necesarios para se converter nunha «nova Sicilia»: atraso económico, unha centenaria tradición de contrabando e un clima de admiración e tolerancia cara a unha cultura delituosa herdada da época dos «inofensivos» e «benefactores» capos do tabaco. Os clans, poderosos e herméticos, medraron na impunidad afianzada grazas ao desleixo (e mesmo complicidade) da clase política e das forzas de seguridade. A través de testemuños directos de capos, pilotos de planadoras, arrepentidos, xuíces, policías, xornalistas e nais de toxicómanos, Nacho Carretero retrata con detalle unha paisaxe criminal con frecuencia infravalorada. No imaxinario popular, ese costumismo «kitsch» de capos con zocos e reloxs de ouro ensombrecu o potencial destrutivo dun fenómeno que arrasou o tecido social, económico e político de Galicia. «Fariña» inclúe, ademais, un repaso inédito polos clans que seguen operando hoxe en día. Porque en contra da crenza mediática e popular, o narcotráfico segue vivo en Galicia. E non se debe esquecer o que aínda non rematou. For more than fifty years, Walter Bernard and Milton Glaser have revolutionized the look of magazine journalism. In Mag Men, Bernard and Glaser recount their storied careers, offering insiders’ perspective on some of the most iconic design work of the twentieth century. The authors look back on and analyze some of their most important and compelling projects, from the creation of New York magazine to redesigns of such publications as Time, Fortune, Paris Match, and The Nation, explaining how their designs complemented a story and shaped the visual identity of a magazine. Richly illustrated with the covers and interiors that defined their careers, Mag Men is bursting with vivid examples of Bernard and Glaser’s work, designed to encapsulate their distinctive approach to visual storytelling and capture the major events and trends of the past half century. Highlighting the importance of collaboration in magazine journalism, Bernard and Glaser detail their relationships with a variety of writers, editors, and artists, including Nora Ephron, Tom Wolfe, Gail Sheehy, David Levine, Seymour Chwast, Katherine Graham, Clay Felker, and Katrina vanden Heuvel. The book features a foreword by Gloria Steinem, who reflects on her work in magazines and her collaborations with Bernard and Glaser. At a time when uncertainty continues to cloud the future of print journalism, Mag Men offers not only a personal history from two of its most innovative figures but also a reminder and celebration of the visual impact and sense of style that only magazines can offer. <i>Vocabulary in a Second Language</i> Centro de Estudios Andaluces	<i>Downloaded from ssm.nwherald.com by guest</i>
A witty, psychedelic, and telling novel of the 1960s Richard Fariña evokes the Sixties as precisely, wittily, and poignantly as F. Scott Fitzgerald captured the Jazz Age. The hero, Gnossus Pappadopoulis, weaves his way through the psychedelic landscape, encountering-among other things-mescaline, women, art, gluttony, falsehood, science, prayer, and, occasionally, truth. Smuggling has been a way of life in Galicia for millennia. The Romans considered its windswept coast the edge of the world. To the Greeks it was from where Charon ferried souls to the Underworld. Since the Middle Ages, its shoreline has scuppered thousands of pirate ships. But the history of Cape Finisterre is no fiction and by the late twentieth century a new and exotic cargo flooded the cape's ports and fishing villages. In *Snow on the Atlantic*, the book the Spanish national court tried to ban, intrepid investigative journalist Nacho Carretero tells the incredible story of how a sleepy, unassuming corner of Spain became the cocaine gateway into Europe, exposing a new generation of criminals, cartels and corrupt officials, more efficient and ruthless than any who came before.

The *Low Voices* is a novel about life, it is life itself telling stories, it is the memory of the quiet voices of the people I got to know. The *Low Voices* draws on a patchwork of memories from Rivas's early life under Franco. There's his beloved elder sister, María; his mother, the verbivore; his father, a construction worker with vertigo; and a supporting cast of local priests, chatty hairdressers, wolf hunters and monstrous carnival effigies. The book is full of wonderful personal stories, set against a background of the ravages of the Spanish Civil War and its aftermath at home, and the wider world as Coca-Cola sets up a factory nearby and news comes in of men landing on the moon. A brilliant coming-of-age novel from one of Spain's greatest storytellers, *The Low Voices* is a humorous and philosophical take on memory, belonging, and the nature of storytelling itself.

We live in an increasingly fragmented world, with islands of natural habitat cast adrift in a sea of cleared, burned, logged, polluted, and otherwise altered lands. Nowhere are fragmentation and its devastating effects more evident than in the tropical forests. By the year 2000, more than half of these forests will have been cut, causing increased soil erosion, watershed destabilization, climate degradation, and extinction of as many as 600,000 species. *Tropical Forest Remnants* provides the best information available to help us understand, manage, and conserve the remaining fragments. Covering geographic areas from Southeast Asia and Australia to Madagascar and the New World, this volume summarizes what is known about the ecology, management, restoration, socioeconomics, and conservation of fragmented forests. Thirty-three papers present results of recent research as well as updates from decades-long projects in progress. Two final chapters synthesize the state of research on tropical forest fragmentation and identify key priorities for future work.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the *Guide to Imagery* series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Before the notorious Five Families dominated U.S. organized crime, there was the one-fingered criminal genius Giuseppe Morello and his lethal coterie. Combining first-rate scholarship and pulse-quickening action, Mike Dash brings to life this little-known story, following the rise of the Mafia in America from the 1890s to the 1920s, from the villages of Sicily to the streets of Little Italy. Using an array of primary sources—hitherto untapped Secret Service archives, prison records, and interviews with surviving family members—Dash has written a groundbreaking account of the crucial period when the criminal underworld exploded with fury across the nation.

From the author of "Low Voices" and "The Carpenter's Pencil," the book of short stories that set him on his way and revolutionized Galician literature when it came out at the end of the 1980s. For the first time, Galician prose dealt with the Galician landscape in a modern context, uniting tradition and modernity, placing the poetry of landscape alongside the irony of modern society. In "One Million Cows," a collection of eighteen short stories by Manuel Rivas, the first he published, a boy tries to find out if his cousin is really a battery-operated robot, a sailor who has been shipwrecked at sea turns up dead in a local bar, the inhabitants of a village transport a young suicide so that he can be buried in an adjoining parish, a Galician who has recently returned from England dreams of building a golf course on the mud-flats of his childhood, and a prospective councillor is put off by the fish scales on a fishwife's hands. Manuel Rivas is Galicia's most international author, and once again the reader will be able to enjoy his striking metaphors, his commitment to what he writes, and his lingering eye for detail. Other titles in the series *Small Stations Fiction* include: "Polaroid" by Suso de Toro, "Soundcheck: Tales from the Balkan Conflict" by Miguel-Anxo Murado and "Vicious" by Xurxo BorrazAs.
