BLAINE ALLEN

Mathematics McGraw-Hill Education
Setting the standard in middle school mathematics
"Mathematics: Applications and Concepts" is a three-course middle school series intended to bridge the gap from elementary mathematics to Algebra 1. The program is designed to motivate your students, enable them to see the usefulness of mathematics in the world around them, enhance their fluency in the language of mathematics, and

prepare them for success in algebra and geometry.

Glencoe Mathematics, Applications and Concepts, Course 1

McGraw-Hill Education
Mathematics:

Applications and Concepts is a three-

text Middle School series intended to

bridge the gap from Elementary

Mathematics to High School Mathematics.

The program is designed to motivate middle school

students, enable them to see the usefulness

of mathematics in the world around them,

enhance their fluency in the language of

mathematics, and prepare them for

success in Algebra and Geometry.

Applications and Concepts. Course 2
McGraw-Hill/Glencoe
Each volume contains teacher's guides and reproducible masters, one master for each chapter of the three-course
Glencoe/McGraw-Hill textbook series, Mathematics, applications and concepts. One volume contains activities focusing on the applications of mathematics concepts to careers. The other contains charts detailing chapter contents for classroom assessment and intervention.
