Self-Publishing Boot Camp Guide for Independent Authors, 5th Edition Academic Press

"...the most comprehensive and up-to-date guide for anyone new to self-publishing. Highly recommended." —Joel Friedlander, The Book Designer "...a must-read for anyone thinking about publishing their own works. She's a great friend to the indie community and provides this valuable resource as a gift of love." —Robin Cutler, Director of IngramSpark This 2020 5th edition of the Self-Publishing Boot Camp Guide for Independent Authors offers advice on marketing, editing, design, book production, and business author needs. It's meant for authors willing to do the work to create a readership and make real money from their books. It's meant for authors who want to do it all themselves and for those who want to hire out all or part of the tasks toward publishing. Authors who wish to set up a business as a small press will also benefit from the processes spelled out here. From beta publishing to distribution to media relations, authors will learn how to set a foundation for success from the idea stage to a quality, finished book. The step-by-step process includes recommendations for self-publishing products, tools, and services from reputable companies that are proven and trusted to help authors succeed. Reader's updates keep authors abreast of new offerings and changes in the self-publishing industry. Carla King has more than twenty years of experience as a writer, self-publisher, web developer, and book consultant. She started self-publishing in 1995 as a technology and travel writer. In 2010, she founded the Self-Publishing Boot Camp series of books, workshops, and online courses. She has been connected with the Silicon Valley self-publishing technology industry from its inception and has served as a trusted advisor to authors eager to use the tools to reach readers.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

The third edition of the popular Textbook of Geriatric Neuropsychiatry thoroughly reviews this clinical subspecialty devoted to the diagnosis and treatment of psychiatric and behavior disorders in aging patients who display impaired brain function. In this text, world-renowned neuropsychiatrists and neuroscientists provide practical application of the latest research for both experienced clinicians and those new to the study of neuropsychiatry for the elderly. The book provides a comprehensive approach to treatment and contemporary neuroscience: Addresses the reality of an increasing aging population and the accompanying psychosocial changes this brings for patients and caregivers. Focuses on the health care of patients with neuropsychiatric illness. Consolidating the continued explosion of neuroscience research and the understanding of human behavior as it relates to aging. Bridges the fields of geriatric neurology and geriatric psychiatry, emphasizing relationships between neuropsychiatric illness and the aging of the nervous system. Responds to advancements in the study and science of geriatric neuropsychiatry, as well as feedback from past readers and clinicians. Concise and organized for easy reference, the textbook is divided into four parts that disclose clinically relevant information within the context of the very latest in neuroscience research and clinical application, including: Clinical definitions of the essential neuropsychiatric syndromes and disorders commonly seen in the elderly and how these disorders manifest. Emphasis on the principles and special considerations essential for the safe and effective treatment of neuropsychiatric disorders in the elderly. Study of the importance of interactions among aging; psychosocial, family, and neuropharmacological elements; and brain stimulation therapies. In-depth review of the influence of the aging nervous system on the pathophysiology, neuropsychiatric manifestations, clinical course, and prognosis of neurological and psychiatric illness in the elderly. Geriatric neuropsychiatry is an integrative specialty that draws from a diversity of fields including psychiatry, neuropsychiatry, neuroimaging, neuropsychopharmacology, gerontology, genetics, and molecular biology, to name a few. Incorporating these perspectives, this text is highly recommended for psychiatrists, neurologists, psychologists, geriatricians, psychiatric nurses, residents and fellows, and other clinicians interested in the study and treatment of the effects of aging on the brain.
